

MONSTER STEEL PLANT PLANNED FOR HAMMOND

Proposed New Industry to Cover 900 Acres and Employ 7,000.

The establishment of the largest plant of the Jones & Laughlin Steel Company in Hammond is being planned, following the decision of officials of the company to purchase 900 acres of land along the East Chicago canal in Hammond.

The proposed plant would employ 7,000 men and would be one of the largest, outside of that of the United States Steel Corporation at Gary, in the Calumet region. The deal is being financed through the Fletcher Savings and Trust Company.

A total of \$1,700,000 in United States Treasury certificates has been deposited with the First Trust and Savings Company of Chicago.

The land, which is said to be worth about \$2,000,000, is owned by the East Chicago Company and the Newport Company. Tentative arrangements have been made for its purchase through C. A. Westburg, vice president of the East Chicago Company, and Walter J. Riley, president of the National Bank of Gary.

WILL MAKE CALUMET REGION HOPE CENTER.

The establishment of the new plant in Hammond will make the Calumet region one of the largest steel centers in the world. There is situated there not only the largest plant of the United States Steel Corporation, but one of the largest steel plants in the country, that of the Inland Steel Company. The Inland concern and the Jones & Laughlin Steel Co. are the two largest independent companies in the country. It had been reported that two concerns were about to merge, but it is understood the merger will not take place.

INDIANA TO FIGHT IN STEEL INDUSTRY.

Indiana has become one of the largest steel manufacturing States in the country since 1904. The United States Steel Corporation was founded in 1901 with an enormous merger. In 1906 it undertook the building of the city of Gary. At that time the site was nothing but a barren waste of sand.

Today the city of Gary is one of the largest steel plants in the world. Other industries in the Calumet country grew up around this one.

HYLAND FORMS SEWER GANGS

New Street Commissioner Plans Survey.

Two emergency gangs, to take care of downtown sewers in case of a big fire or a heavy rain, have been organized by Martin J. Hyland, new street commissioner. Reorganization of the street department, which suffered an almost complete replacement in personnel in the new administration shake-up, is proceeding slowly, but carefully, Mr. Hyland said. The emergency gangs were considered the most urgent necessity.

Acting on Mayor Shank's suggestion that a survey of streets be made to find out which are most in need of repair and what repairs are to be made, Mr. Hyland has assigned inspectors to this work and will have others on it in a short time.

A. O. Meloy, former street commissioner, is assisting Mr. Hyland to reorganize the department.

WOMAN'S COURAGE SUPERIOR TO HER MARKSMANSHIP

Burglars Tarry After Revolver Duel to Relieve Mrs. Treeter of Rings.

Had the marksmanship of Mrs. George Treeter, 1014 West New York street, equaled her courage she would not have come off second best in a revolver duel with burglars last night. Mrs. Treeter emptied the revolver which contained four cartridges at two men who had forced their way into her home, and one of them returned her fire. All shots, however, went wild and Mrs. Treeter was disarmed after her last shot had been fired.

Mr. Treeter heard some one knock at the door of his home and when he opened it two men forced their way into the house. One of the men carried a revolver. A third man is believed to have remained in front of the house as a watcher.

"Stick up your hands," ordered the bandits. Treeter and Robert H. Kline, 1005 West New York street, obeyed. Mrs. Treeter ran from the room and returned with a revolver and opened fire. The burglars missed their mark and when the gun was empty the robbers fled. One ring was worth \$50 and the other \$100.

We feel confident that we have the best and most efficient Yeast Vitamine Tablets on the market today, but as previously explained, while Vitamines produce surprising effects in some cases, they are less valuable in others. It is for this reason that we prefer you to try a regular \$1.00 package at our expense and you can then decide for yourself whether you need Vitamines. Our Nuxated Iron, however, is a product which has been on the market for years. It is used by over four million people every year with such marvelous results in helping those who are weak, nervous and run-down back to health and strength, that it is sold to you with the distinct understanding that it will give you greater power, energy and endurance within two weeks' time or we will refund your money. If you were to see an actual blood test made on all people who are ill, weak, thin, nervous and generally run-down, you would probably be greatly astonished at the exceedingly large number who lack iron and whose troubles are due solely to this lack of iron. The moment iron is supplied a multitude of dangerous symptoms disappear.

For centuries scientists tried in vain to make organic iron. At last the problem was solved, so that you may now obtain pure organic iron like the iron in your blood from any druggist under the name of "Nuxated Iron," which is ready for immediate absorption and assimilation by the blood the moment it enters the system. Unlike the iron in the iron pills, organic Nuxated Iron does not injure or blacken the teeth nor upset the stomach.

If you are thin and emaciated and wish to put on flesh and increase your weight, Yeast Vitamines should be tried in connection with organic Nuxated Iron. But DO NOT TAKE VITAMINES UNLESS YOU DESIRE YOUR WEIGHT INCREASED.

Vitamines are exceedingly valuable in putting flesh on thin people, who are too thin as a result of Vitamine deficiency. Some people are naturally too thin and will remain so in spite of Vitamines and everything else. Vitamines will not help everybody, but they are of great value in certain cases. They will not do any harm in any case and it costs you nothing to try them as explained below.
