

## LOCAL STUDENTS COMPLETE WORK

Five From This City Get Advanced Degrees.

BLOOMINGTON, Ind., March 9.—Among the ninety-six students of Indiana University who are carrying on research work in the field of science and literature and who will receive advanced degrees on completion of their studies in the graduate school of the State university are the following Indianapolis students: Ruth Wetter, A. M.; Mark Carter Mills, economics and sociology, A. M.; Mary Margaret Dougherty, Spanish, A. M.; Glen Arthur Blackburn, history, A. M.; and Mrs. Anna Lila Dickey, English, A. M.

One hundred fifty thousand volumes written in every civilized language and covering every conceivable subject, together with four hundred current periodicals, provide reading material and textbook work for the Indianapolis students and their associates in advanced study. Special laboratory apparatus is also provided and original problems in science are worked out from time to time, the results of which are published in national magazines and in university bulletins that are circulated among scholars, educators, libraries and universities throughout the world. A recently published list shows more than 1,700 such treatises and books have been written by graduate students and faculty members of Indiana University, since 1904.

## U. S. REFUSAL GIVES GENOA PARLEY CHILL

(Continued From Page One.)

Europe's petty bickering and quarrelling. Europe jumped too fast, official said, to the idea that "America is in again just because she promoted and took a leading part in the world armament conference in Washington."

## DISAPPOINTMENT IN GREAT BRITAIN

LONDON, March 9.—Keen disappointment was expressed in official circles today over the refusal of the United States to participate actively in the international economic conference at Genoa next month. The attitude of the United States was not completely unexpected, however. Premier Lloyd George is hopeful the American Government will find it possible to approve some of the decisions of the conference.

Downing street officials expressed surprise over the reasons given by the American State Department for not participating in the conference. They declared the conference had been called to adjust conditions of which the United States complained. It was denied there was any political significance to the meeting. For the time being foreign affairs are overshadowing the political crisis resulting from the conflict between Premier Lloyd George and the Tory "die hards" in the coalition party. The premier's health has improved and he is attending to his official duties.

"We are not surprised at the refusal of America to participate in the conference," it was stated at the British foreign office. The Genoa conference will be held according to plans and it is hoped America will send observers.

So serious has the Indian situation become that the Cabinet decided to take it up today instead of waiting until tomorrow. The political unrest in India is regarded as critical and the Premier is anxious to unite his colleagues upon a settlement policy at the earliest possible moment. While the Irish Free State act, officially establishing the new Irish state has passed the House of Commons upon third and final reading, it is understood the members in the House of Lords intend to put up a fight against it. This will be more for display than any other reason, as passage of commons makes the bill effective.

## RUSSIANS BUILD UP GREAT HOPES

MOSCOW, March 9.—All classes in Russia, except the great mass of ignorant peasantry, look forward to the Genoa conference as the first step toward reunion with the outside world. Merchants, college professors, army men, newspapermen—all see in the conference approaching release from the isolation which has been imposed upon this country since 1917. To official Russia—the Kremlin and the "communist party about three hundred thousand strong—Genoa means achievement of a long cherished ambition, official recognition by the world at large. It means an opportunity to lay a real foundation of government. It is a mixed blessing, because it means abandonment of the time being at least, of the great idea of world revolution and a return to the principle of nationalism.

"It will at least give us some idea as to what to expect," a merchant said. "Genoa will show us whether commerce with the rest of the world may be expected on a large scale immediately." "It is the beginning, I think, of better times," a college professor and former social revolutionary said. "It is true obtaining credits will give the Communist administration a new lease on life. But better a Communist administration for a few years with a return as they are today."

"It will mean the selling of our country to foreigners," a former cadet remarked bitterly, "but there is not enough capital in Russia, so I do not see what else can be done. It hurts, but we must have outside help." "A change in our government will follow the Genoa conference," said a newspaper man. "The allies will insist upon inclusion of a strong non-Communist element in the administration."

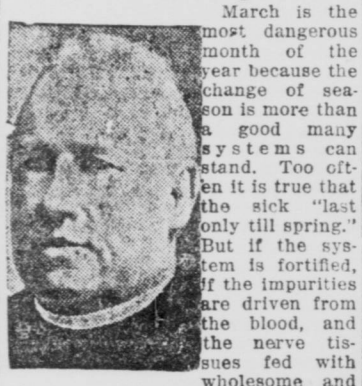

"It cannot be worse," a barber said, and the aged drotachsky driver outside cracked his whip and echoed the sentiment, adding one of his own: "Nichevo nye znayem" (I know nothing whatever about it).

Use **Balsamea** for All Lung and Bronchial Trouble

Just Apply This Paste and the Hairs Will Vanish

(Boudoir Secrets) The judicious use of a delatone paste insures any woman a clear, hairless skin. To prepare the paste, mix a little of the powdered delatone with some water, then apply to the objectionable hairs for two or three minutes. When the paste is removed, and the skin washed, every trace of hair will have vanished. No pain attends the use of the delatone and it will not mar the most sensitive skin, but to insure results, see that you get real delatone.—Advertisement.

## Why March is Most Dangerous

March is the most dangerous month of the year because the change of season is more than a good many systems can stand. Too often it is true that the sick "last only till spring." But if the system is fortified, the impurities are driven from the blood, and the nerve tissues fed with wholesome and strength-giving food medicine, there is no danger in the change of seasons. Father John's Medicine is invaluable as a tonic in the spring. It strengthens the system and drives out the poisonous waste matter—builds up the body. It is this power that has made it so successful in treating colds and throat troubles. No weakening stimulants, morphine or other dangerous drugs.—Advertisement.

## We Want Motor Car Salesmen

### Monroe Motor Cars \$875

In the inauguration of the new Monroe sales plan—from the factory to the owner—we want salesmen to direct intensively small units of territories—men who can represent us in supervising the service stations which, through the rendering of perfect service on Monroe cars, will be the big force in the sale of Monroes. Our sales plan eliminates the distributor and the dealer, with the big commissions and expenses which go with those men. Salesmen and service station men desiring to associate themselves with us should write.

## THREE EVILS ARE NAMED.

DETROIT, March 9.—Liquor, the red-light district and gambling are the three evils menacing Detroit homes and threatening to ruin the young men and women of this city, the Rev. H. C. Gleiss, general superintendent of the Detroit Baptist Union, told members of the Federal officers.

## INDIA Cord Tires

We wish to announce we are the Marion County Distributors on INDIA TIRES.

INDIA has never been quite satisfied with making a tire that merely runs out the standard guarantee of 8,000 miles—but have always used the very finest materials the market affords and that is why INDIA TIRES average over 15,000 MILES. You'll marvel at the wearing qualities of INDIA CORDS and wonder how anybody can build a tire which will stand so much abuse and give such unerring service.

Undoubtedly if you ask any user of INDIAS he will instantly suggest that you equip your car with them, for they have proven to him they are the best made.

Other manufacturers try in vain to produce a tire that will equal INDIA for service. It is simply impossible unless you get INDIAS.

The value of a tire is not alone what you pay to buy, but what you get in SERVICE.

The treacherous kind of economy is that wherein the saving is secured through the price tag.

The worth while kind of economy is that wherein the saving is secured through the value of the service a product renders.

Remember, we can buy tires and sell at less than we pay for INDIAS—but it is simply impossible to make any truthful statements as to any satisfactory service. We are not interested in merely selling tires, but you want service, and if you'll buy INDIAS we pledge our word you'll be more than satisfied. INDIA CORDS priced reasonable. Let us show you INDIAS.
