

REAL BATTLES PROMISED IN COUNTY RACES

Both Major Parties Have Candidates for All Offices.

108 SEEKING VOTES

Contests of Commissioners and Treasurer Popular.

Real contests for both Republican and Democratic nominations for places on the Marion County ticket are assured by the list of candidates on file in the county clerk's office today. Saturday was the last day for filing. A total of 108 men are seeking nominations, of whom forty-five are Democrats and sixty-three are Republicans.

Fourteen Republican office holders seek to succeed themselves, with Sheriff George Snyder facing the most competition. He has nine opponents. On the Democratic side seven are seeking the nomination.

Only two of the fourteen Republicans who seek re-election are opposed.

These are Judge Mahlon E. Bash, of the Probate Court, and Prosecuting Attorney William F. Evans.

Seven Democrats are sure of nominations, being the only candidates announced for the places. They are Clarence E. Weir for Judge of Superior Court, room 4; Harold K. Bacheler, for Judge of the Probate Court; James D. Ernsont, for Judge of the Criminal Court; Jackson K. Landers for treasurer, and Albert H. Loesche for clerk of the court.

TWO INTERESTING FIGHTS PROMISED. The fights which are expected to be most interesting on the Republican side are those for the county commissionerships and county treasurer.

Opposition to Commissioners Carlin E. Shank and Harry D. Tutwiler has been brewing for many months in various quarters. William D. Havestick and Arthur F. Eickhoff are opposing Shank for the nomination in the First district, and Robert F. Miller, former sheriff, John Rikhoff, Harry W. Heath and Benjamin A. Branson are against Tutwiler in the Second district.

The last minute entrance of Henry M. Cochran into the Republican race for the treasurer complicated this situation materially. Edward J. Robinson and John L. Duval had been conducting active campaigns for the place for several weeks.

DEMOCRATS EAGER AS REPUBLICANS.

Democrats are no less eager than Republicans to get on the ticket as candidates for county commissioners. John Kitley, Enoch W. McCord and Albert M. Thomas filed for the First district and Harry J. Quigley, Charles H. Hensley, James M. Ballard and John C. McCloskey for the Second district.

Judge Arthur R. Robinson, Republican, of Superior Court, room 4, did not file for re-nomination. Neither did Judge Solon J. Carter, Republican, of Superior Court, room 2.

The list of candidates for nomination to fill the major offices follows:

Washington Briefs

WASHINGTON, April 3.—Secretary Denby has parted with the services of his chief aide, Capt. David F. Sellers, U. S. N., in order to let him take command of the United States' newest and most powerful battleship, U. S. S. Maryland, 32,600 tons. The Maryland, now preparing at the Brooklyn Navy yard for flagship service on the Pacific coast, heads the list of capital ships itemized in the naval treaty as the eighteen vessels which may be retained by the United States.

Senator France of Maryland, who unenviably immortalized himself by casting the one vote recorded against the naval limitation treaty, wants Congress to appropriate \$55,000 for converting Ft. McHenry, Md., into a permanent memorial to Francis Scott Key. The France bill purposes turning the entire site into a national park in honor of the composer of "The Star-Spangled Banner."

Five weeks of the senatorial fight over the conference treaties ended with the last of the Mohicans—Alice Roosevelt Longworth—waiting faithfully to the bitter end for the final vote. The strenuous daughter of a strenuous father is the most indomitable gallery occupant modern Washington has ever known. Mrs. Longworth, unperturbed by the fact that all but her had vanished from the loquacious scene, as far as the section for distinguished visitors was concerned, held the fort until the hour of adjournment came. Another woman participant in the day's proceedings was Representative Alice Robertson of Oklahoma, who, exercising her congressional prerogative, mingled among Senators on the floor.

A side light on trading with Red Russia, as reported to American firms from British conferees at Constantinople: "We are trying to obtain business with the Soviets. Our last venture was to send goods to Rostov and we received in part

payment: American paper dollars, American gold (a small amount), American checks (near East express and others) American exchange (bankers) English notes and checks, Turkish gold, checks and paper notes, French notes and checks, Russian gold rubles.

"Of the checks not one was over 40 pounds. Five different currencies were used and about as many different rates of exchange.

"We also had given to us wool, gins, horsehair, pigs bristles and cement; and after these are sold we credit them with the difference. Their methods are hopeless. In this country nothing is beyond repair. It is now about 2½ million rubles to a pound sterling. Soviet money will eventually have to be sold as waste-paper and weighed as such."

Professor Milyukoff, the Russian liberal statesman who narrowly escaped assassination in Berlin, was in Washington during the armament conference, together with Prince Lvoff, watching proceedings in the interest of the Russia—that-hopes-to-be. He also lectured at Lowell institute in Boston during the winter. Professor Milyukoff calls himself "half American." For many years he was professor of Russian language and literature at the University of Chicago and only returned to his native country following the establishment of the first Duma to take an active part in the regeneration of the realm on democratic lines.

He was foreign minister under the short-lived Kerensky government—the regime still nominally accredited to the United States Government.—Copyright, 1922, by Public Ledger Company.

RECEPTION FOR CANDIDATES. A reception and dance for Republican candidates will be held by the South Side Republican League at Fountain Square Hall Wednesday evening. The reception will begin at 8 o'clock.

WAGES LOST BY WAR. Australian statistics show that the workers lost \$1,150,000 in wages by 554 industrial disputes during 1920.
