

## PLANT TO END SOIL NUISANCE IS PROPOSED

Engineer Suggests Remedy for Practice Which Stirs Citizens' Wrath.

Construction of a plant to dispose of night soil at Sellers farm in a manner to eliminate features of the present method of dumping on the open ground, which citizens of West Indianapolis consider outrageous, has been recommended to the board of sanitary commissioners by Charles H. Hurd, consulting engineer for the board. The plant could be constructed for \$10,200 and, if made so as to be utilized in part as a sewage disposal plant, the net cost would be \$1,700, Mr. Hurd reported.

The engineer also recommended more sanitary equipment be used in hauling the material through the city to Sellers farm. He said private contractors now haul filth in leaky barrels and wagons. Such equipment should be replaced immediately by airtight containers and steel wagon beds, the whole covered with oiled canvas, according to Mr. Hurd.

"One-third of the homes of this city are not connected with sewers," said Mr. Hurd. "This is a condition which exists in no other city of this size. It ought to be eliminated at once. But, in the meantime, we must take care of the problem as best we can."

Mr. Hurd recommended the material be rendered odorless and harmless by being dumped into a concrete lined trench six feet deep, eight feet wide and from 200 to 300 feet long, such container to be almost filled with water. Biological action in the water will purify the sewage, render the material harmless and prevent breeding of flies and mosquitoes. A heavy film of disinfecting oil should be spread over the top of the water, Mr. Hurd said. This is the system the Government used in Army camps during the war.

## YOUR SHARE OF SUGAR 97.8 POUNDS

Figures Show Consumption Continues Large.

WASHINGTON, April 4.—America has a sweet tooth, and it's been getting sweeter right along for the past ten years.

If you got your share of the sugar consumed in the United States last year you did away with 97.8 pounds, and that was thirty-two pounds more than you were entitled to in 1904.

The Department of Commerce has been figuring out how much sugar the people of this country used in 1921, and a total has been placed at 10,555,651,000, which is quite a lot of sugar and which represents an increase of 84 per cent over the consumption in 1920 and is 25.9 per cent greater than the sugar consumption for the ten-year period ending in 1920.

The per capita consumption last year—97.8 pounds—was the largest in the history of the country, and the sugar produced in this country was not enough to supply the demand.

Although this country used ten and a half billion pounds of sugar in 1921 only one and a half billion pounds were produced in continental United States during the year.

The non-contiguous territories of the United States supplied 2,132,926,730 pounds, which included 977,738,902 pounds from Hawaii, 518,043,880 pounds from Porto Rico and 357,143,948 pounds from the Philippine Islands.

Sugar imports in 1921 totaled 6,673,041,567 pounds, supplying more than half of the consumption. Exports of sugar decreased 45 per cent during the year.

Reliable estimates made for the Commerce Department show that Great Britain will use 3,000,000,000 pounds of sugar this year, an amount 2,500,000,000 pounds less than last year and an annual consumption before the World War of 3,800,000,000 pounds. American commercial agents in the United Kingdom figure that sugar consumption will be larger this year if sugar gets the benefit of a lighter duty under the anticipated reduction in British taxation in the next budget estimates.

British refineries will melt about 1,100,000 tons this year, leaving 400,000 tons of refined sugar to be imported, the bulk of which must be drawn from American sources.

In the case of France it is reported that the sugar production this year will be scarcely half the consumption, which is rising, but it not back to the pre-war level.

## POSTAL FIGHT LEAVES SORES ON MAYOR NEWT

Robinson Gets Office While Clark County G. O. P. Raves.

Special to The Times.  
JEFFERSONVILLE, Ind., April 4.—With the naming of William E. Robinson, an employe of the Louisville postoffice as postmaster of Jeffersonville, a long fight has been ended and a soreness created among Republicans of Clark County which this alone cannot heal.

Newton H. Myers, former mayor of Jeffersonville, and the boss of the Republican organization, is miffed, with the result that many Clark County Republicans may vote for Albert J. Beveridge for the nomination for the United States Senate, Tuesday night.

Robinson is the brother of Lee Robinson, private secretary of Senator Ernst of Kentucky. Clark County Republicans accuse Senator Newt of allowing Senator Ernst to prevail upon him. Congressman Dunbar, who is not a candidate for reelection, is said to have favored William Thornley, former city clerk, and a man who has worked hard for the Republican party in years when its cause seemed hopeless here.

"The immediate result," says the Jeffersonville News, the local newspaper, "in the primary in May will be a large majority for Senator Beveridge over Senator Newt in this county, as the postmaster is not identified with party politics in this city and has rendered no service to the party. They cannot, they say, understand why the Administration should go to the Louisville postoffice and select one of the subordinates who has held office there for ten years, as postmaster of this city."

"Mr. Thornley and his friends are asked to believe that he would do it. On the other hand are rejecting as it means a walkover for them in the election, not only this fall, but for some time to come."

## MAYOR BOSSE, STATE LEADER, OF PARTY DIES

(Continued From Page One.)

facturing concern of which he was president. He also was president of a bank in Evansville.

In 1920 he became chairman of the Democratic State committee, succeeding Frederick Van Noy, a prominent attorney. He has been mentioned prominently as a candidate for Governor on the Democratic ticket.

Just before Mayor Bosse's death, he looked at his wife, who had been at his bedside constantly for four days, and said: "I shall not live long."

Mayor Bosse was 47. Oxygen had been administered three times during the night in an effort to save the mayor's life. A short time after his death, he gave hope to those at his bedside.

Mayor Bosse realized his condition. Shortly before he became delirious at 3:30 a. m. he said: "I shall not live long."

Mrs. Bosse was in a serious condition, suffering from collapse this morning.

Born on a farm near Evansville, Bosse came to this city when he was 14, and secured a place in a grocery store at \$10 a month and board.

**WILL REPRESENT STATE COMMITTEE**  
The following committee, to represent the Democratic State committee at Mr. Bosse's funeral, was named today: A. C. Sallee, Indianapolis; Dale J. Crittendon, Anderson; Robert Bracken, Frankfort; A. C. Thomas, New Harmony; D. Frank Culbertson, Vincennes; Miss Emma May, Terre Haute; Mrs. James Riggs, Sullivan; Mrs. Fred Lausten, Evansville, and Miss Gertrude McHugh, Indianapolis.

A number of local Democrats, including Frederick Van Noy and Charles A. Greathouse, national committeeman, and former Governor Samuel L. Ralston will attend the funeral.

On behalf of the State committee the following telegram was sent to Mrs. Bosse:

"Out of hearts filled with sorrow the Democratic State committee sends to you this message of sincere sympathy. Chairman Bosse was our able and sincere champion. He was leader in all that the word implies. His loyalty, fearlessness and enthusiasm for the cause of Democracy strengthened and sustained all who came into contact with him. We sorrow with you and yet we share in the thousand pleasant memories of our long association."

**COCONUT OIL BUTTER.**  
European factories each week produce about 10,000,000 pounds of artificial butter with coconut oil as the base.

**ARID LAND RECLAIMED.**  
In fifteen States the United States reclamation service has reclaimed 3,000,000 acres through irrigation projects.

**Leaps From Car**  
Sherman Bramblett asked for more time for his committee to consider the ordinance annexing Broad Ripple and was granted it.

An ordinance to increase the license fee of movie theaters charging 25 cents or more admission from \$100 to \$500, and prohibiting the sale of a ticket unless a seat for the purchaser is available, was proposed by the city welfare committee.

Mr. Elliott said he needed money in the maintenance fund to provide enough to buy a light truck for the food prevention gang, and an automobile for himself, the senior assistant chief of the board. The residents of the city, the sewer engineer and the superintendents of the asphalt repair and the brick, block and asphalt repair departments. He said the cars are badly needed to enable the officials to supervise the public engineering problems in scattered localities, but Councilman Bramblett, Clauer, King, Ray and Thompson voted "no" and the ordinance was lost.

**Change in Teachers' Body Loses Support**  
By a seven to six vote, a new constitution for the Indiana State Teachers' Association, the main change in which was a proposed wholesale reduction of the governing body, which was said to be unwieldy, has been voted down by the executive committee of the association. It was announced today by Miss Cora L. Steele of Terre Haute, chairman of the board. The deciding vote was cast by Miss Steele.

The change of constitution has been an important factor at the meetings of the association for some time, and it was not planned that it should be discussed at the Saturday meeting.

It was also announced that the spring meeting of the history section of the society will be held Friday and Saturday at the Hotel Severin. The meeting will be opened Friday with a dinner in the evening.

Saturday's session will be devoted to a discussion of whether the present method of instruction in history and civics is of such a nature as to develop a satisfactory response to civic duty on the part of the students.

**EMELINE KWAKERNAAK.**  
Grand Rapids, Mich., girl and student at Western State Normal School, Kalamazoo, who was injured recently when she jumped from the roof of the Detroit, Detroit millionaire, after she and two companions had accepted Dodge's invitation to let him drive them home. Miss Kwakernaak is still in the hospital.

## Succeeds Bosse

A. C. Sallee of Indianapolis became Democratic State chairman today upon the death of Benjamin Bosse. Mr. Sallee was vice chairman of the State committee and succeeds to the State chairmanship automatically. He also is Seventh District Democratic chairman.

Mr. Sallee will continue as State chairman until the regular meeting of the committee, following the primary election, when a chairman will be named. The new chairman headed the party in the State preceding the incumbency of Mr. Bosse.

Mr. Sallee is in the advertising business. He always has been an active party worker and for several years was closely associated with Thomas Taggart in party affairs.

This was made plain by President Charles L. Barry at a special meeting of the board today, after board members had stated they had received numerous telephone calls from property owners asking if the board had authorized certain real estate dealers to obtain options for school property. In some instances these options have been given only with property owners in the real estate dealers would attempt to exploit the needs of the school city for additional ground. Mr. Barry said: "The school city is in need of every cent of its disposal, the need for additional ground at some schools where crowded conditions exist is great, and I certainly believe the board should deal only with property owners in the purchase of property. I intend to hold to this course and to oppose the purchase of property from any option holders who are trying to profit from the needs of the schools."

**OTHERS AGREE WITH BARRY.**  
Other members of the board seemed to have the same idea as President Barry.

Publication of "The Bulletin," official publication of the board, either will be discontinued or the magazine will be conducted along entirely different lines next year. At present the paper is published on private contract and contains a great amount of advertising matter. Superintendent E. W. Graf said he was in favor of discontinuing its publication or having it wholly controlled by the board and made more literary in character. In this connection a resolution was adopted forbidding the distribution of any advertising matter to the schools without the approval of the board.

The name of the William Watson Woolen school was officially conferred on School No. 45, 2201 Park avenue, on petition of the January graduating class of the school. Mr. Graf said there was practically a unanimous demand for this honor in the sessions of the school.

**DIRECTOR'S LIST IS APPROVED.**  
The list of sixty-eight persons submitted by W. A. Hacker, director of the school, to take the school enumeration beginning April 10 was approved. These positions will pay from \$3 to \$4 a day. The average earnings of each enumerator amount to about \$8.90.

A request that the schools of the city take part in the celebration of the 100th anniversary of the birth of Ulysses S. Grant, April 27 was received from the Grand Army of the Republic. Superintendent Graf explained the observation of the anniversary is to be nationwide and said the Indianapolis schools already have made arrangements to celebrate the day.

**Wholesale Grocers to Assemble Here**  
The annual convention of the Indiana Wholesale Grocers' Association will be held at the Claypool Hotel April 19 and 20. The first session convenes at 2 o'clock, April 19. The annual banquet will be held that evening. Officers are Carl E. Bauermeister, president, and Fred R. Pitcher, secretary.

**Mexico May Soon Get Recognition**  
WASHINGTON, April 4.—Progress is still being made in the negotiation of a treaty for recognition of Mexico, but it is as yet impossible to forecast a definite time when recognition will be extended, it was learned officially at the White House this afternoon.

**A HOME-MADE GRAY HAIR REMEDY**  
You Can Make a Better Gray Hair Remedy Than You Can Buy.

Gray, streaked or faded hair is not only unbecoming, but unnecessary. Any one can prepare a simple mixture at home that will darken gray hair, and make it soft and glossy. To half pint of water add 1 ounce of bay rum, a small box of Barbo Compound and ¼ ounce of glycerine.

These ingredients can be bought at any drug store at very little cost, or the druggist will put it up for you. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is easy to use, does not color the scalp, is not sticky or greasy and does not rub off.

**Use Balsamea for All Lung and Bronchial Trouble**

## NEW DIRECTOR OF TRAINING AT CITY HOSPITAL

Miss Josephine Mulville Is Named to Succeed Miss Cowles.

Appointment of (Miss Josephine Mulville as superintendent of the nurses' training school at the city hospital was announced today by the board of public health. Miss Mulville, who comes from the city hospital of Framingham, Mass., where she is superintendent of nurses, will fill the vacancy created when Miss Annette Cowles resigned March 3. Miss Mulville will report here in a few days.

The new superintendent has had wide nursing experience. She is a graduate of the Massachusetts General Hospital Training School. Before the war she served as superintendent of nurses at the city hospital of Holyoke, Mass., and the city hospital of Brooklyn, N. Y. She served as an Army nurse in France for twenty-two months. Returning to the United States she lectured on a chautauqua circuit for several months.

While in the city Miss Mulville said she considered the outlook for the city training school to be hopeful, provided housing accommodations for student nurses are improved so that the young women. The present condition is not attractive, board of health members say. They have been trying for several weeks to have the city council pass an ordinance authorizing a bond issue to construct a modern nurses' home. Lack of such a home has cut enrollment of student nurses to the point where the city hospital is unable to train more than a few.

Which, if continued throughout the year will be ruinous to health department finances, it was said.

Miss Mulville announced that she will retain the present force of supervising nurses and teachers.

**MONEY IS NOT SUCCESS GAUGE, AVERS BANKER**  
Achievement Held More Important Than Piles of Gold.

CHICAGO, April 4.—Success is not to be reckoned wholly in dollars and cents, John A. Mitchell, veteran banker, declared in an interview recently.

"Broadly speaking, the measure of a man's success is the proportion in which he has been of value to the world and to fellow men and women during his lifetime," said Mitchell, who is regarded as a highly successful man. He is chairman of the board of directors of the Illinois Trust & Savings Bank and the Merchants' Loan-Trust & Savings Bank.

Mitchell said that success "measured by the modern yardstick" is generally accepted to mean the amount of money or material wealth that a person accumulates during a lifetime. Most of the articles he had read treated the subject of success from that viewpoint, he stated.

"This is not remarkable in view of the times we live in," Mr. Mitchell commented. "But I can see that the mere question of making money does not fit the success in life."

"Success to any man means the greatest achievement possible to him in the line of endeavor for which he is best fitted to make money and should be met only a very moderate degree of success, if any."

Mitchell said he would advise young men who might want advice on success to first study themselves and find out the line of work to which they are the best fitted.

Men succeed best in what they like most to do," the banker continued. "Education, of course, is a big factor—in fact, one of the strongest foundations for success in life."

The question of a young man's life work is decided he should take up the work itself and pursue it perseveringly from the beginning. Superficial effort in any direction is bound to meet with failure at the moment of need.

Mitchell added that a man must be logical and have himself in hand at all times. Also, he must be able to control others. And, above all, he must not forget that to win success he must work—and work hard.

**Beeman's Daily Pep**  
The Great Gap  
"I didn't know that people suffered so badly."  
"Life doesn't matter at all, but he promised to write for me."  
"I am not sure, and it leaves his conversation full of it."

## 7 ARE HELD IN ALLEGED WHITE SLAVE ATTEMPT

Girl, 16, Minister's Daughter, Declares Captors Tried to Sell Her.

CHICAGO, April 4.—Seven men and a woman are under arrest here today in a plot to kidnap Marjha J. Janick, 16, daughter of an Oak Park minister. White slavery is believed to have been the motive of the abduction plot.

The girl was leaving the office where she worked last Saturday evening when a young man accosted her and suggested an evening's entertainment, she told the police. On his representation he would obtain an automobile to drive her home, she said, she accompanied him to an apartment on the West Side. There, the girl declares, she was held prisoner without food for two days.

The men and the woman told her on Sunday night, Miss Janick said, they had arranged to sell her to a roadhouse but, if she would get another girl for them, they would pay her a commission. She telephoned her father, who told Miss Janick's father and he told the police. A raid on the flat, liberation of the girl and arrest of her alleged abductors followed.

**'Peace' in Ireland Brings Death to 90**  
LONDON, April 4.—The total casualties in Belfast from Feb. 1, to March 29, were ninety killed and 201 wounded, colonial Secretary Winston Churchill announced in the House of Commons this afternoon. Of the victims, thirty-six dead and eighty-six wounded were Protestants and the remainder were Catholics.

Sir Hamar Greenwood, chief secretary for Ireland told Commons that the Irish provisional government at Dublin, is planning the strictest measures to prevent anyone from the maximum naval except in the performance of police or military duty.

**67,000 Men Limit in Navy, Harding Hears**  
WASHINGTON, April 4.—President Harding today was told by Representative Madder, Illinois, and Representative Keller, Michigan, of the House Appropriations Committee the maximum naval enlisted strength the House will vote is 67,000 men.

This is a reduction of 33,000 from the present strength.

**MOTHERS AND DAUGHTERS**  
Read This Letter from Mrs. W. S. Hughes

Greenville, Del.—"I was under the impression that my eldest daughter had had some trouble as ever since the first time her sickness began. She had to go to bed and even had to quit school once for a week. I always take Lydia E. Pinkham's Vegetable Compound myself so I gave it to her and she has received great benefit from it. You can use this letter for a testimonial if you wish, as I cannot say too much about what your medicine has done for me and my daughter."

Mother and oftentimes grandmothers have taken and have learned the value of Lydia E. Pinkham's Vegetable Compound. So they recommend it to their daughters. They know what it did for them and are glad to tell others. In your own neighborhood are women who know of its great value.

Mother's—daughters, why not try it?

**If Ruptured Try This Free**  
Apply it to Any Rupture, Old or Recent, Large or Small and You are on the Road That Has Convinced Thousands.

**Sent Free to Prove This**  
Any one ruptured, man, woman or child, should write at once to W. S. Rice 164 A Main street, Adams, N. Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together so that the opening is closed. The need of a support or truss is then done away with. Don't neglect to send for this free trial. Even if your rupture is old and bad, what is the use of wearing supports all your life? Why suffer this nuisance? Why make the risk of surgery and the dangers from a small and innocent little rupture, the kind that has thrown thousands of men and women into a hospital? Why not prevent them from getting around. Write
