

BOOM IN U.S. RETARDED BY SLOW EUROPE

Fundamental Conditions on Steady, Slow Rise.

GAINS ARE NOTED

WASHINGTON, May 1.—An immediate business boom in the United States is unlikely because of Europe's tardy economic reconstruction, but fundamental conditions are much better and there is every reason to believe that they will continue to improve steadily, though slowly.

This was the opinion expressed today by officials of the Department of Commerce, basing their predictions on reports of increased production, more stable prices and larger export trade.

Improvements in the United States are noted by the Department of Commerce as follows:

1. Textiles—Imports of unmanufactured wool in March showed a steady increase over recent months, the total of 43,071,000 pounds being the largest since the emergency tariff went into effect in April, 1921.

2. Iron and Steel—Total exports in March were the largest since March of last year, when the total was also a big increase in exports.

3. Nonferrous Metals—With a total of \$5,533,000 pounds, copper exports showed a marked gain over recent months and registered the largest total for any month in nearly two years. Tin and zinc exports were also larger.

4. Automobiles—The production in March was the largest of any month in the year.

5. Fuels—Petroleum industry setting new high records in all directions, stocks amounting to 229,224,000 barrels which is far in excess of anything heretofore recorded.

6. Newspaper—Output larger with prices relatively steady and exports showing a noticeable increase.

7. Building Material—Production and shipments of lumber, brick and cement, and other materials increased in response to greater volume of construction.

8. Foodstuffs—Remarkable increase in exports of wheat, flour, corn, oats and cold storage products.

Wholesale prices, it was stated, seem to be stabilized at an average of about 60 per cent above the pre-war level, the slight increases have been noted. Retail prices, on the other hand, continue to decline. The greatest drop has been in the cost of food, although other items decrease slightly.

WOULD CLOSE SUNDAY SHOWS

Ministers Pass Resolution to Prohibit.

A resolution, to appeal to the prosecuting attorney of Marion County to prohibit all Sunday shows was passed Monday at the regular meeting of the Ministers' Association, C. H. Winders, secretary of the church federation, announced today.

The resolution reads: "Whereas, we, the undersigned pastors of Indianapolis and vicinity, holding Sabbath desecration and law violation detrimental to the spiritual and moral development of youth; and

Resolved, that we appeal to the prosecuting attorney of Marion County to prohibit all Sunday shows, which will include the various vaudeville theaters, variety shows on Sunday and the Osa B. Talbot concert."

Warns Parents Not to Give Boy Bad Name; Heart to Heart Talk by Dr. Robertson

CHARACTERS IN BIBLE PROVE DIVINE SOURCE

Major Hites Tells Tabernacle Audience Others Lack Inspiration.

One of the greatest proofs of the divinity of the Bible is the fact that it always tells the truth about the characters of its subjects, declared Dr. E. A. Robertson, pastor of the East Park Methodist Episcopal Church at Beville avenue and New York street, where Dr. E. A. Robertson, pastor, preached a sermon which was in building up community character.

Dr. Robertson in his pulpit driving home one of his points in Sunday morning's sermon, "Some Characters in Bible Prove Divine Source."

The sermon subjects were very close to his people. Sunday, Dr. Robertson had a big message, which he termed, "Some Things Parents Should Tell Their Children."

Sermons and singing of the Gipsy Smith choir at the tabernacle are being broadcasted by wireless. Messages of appreciation are coming from all parts of the city.

Dr. Robertson believes in being near his people on Sunday as well as every day of the week.

Mothers and fathers of the community seemed to feel that the pastor had an individual message which he desired to deliver individually to each father and mother.

The result was that the little church was packed Sunday morning when Dr. Robertson preached a sermon—a good right into one's heart. It seemed to the visitor that such sermons give the child as well as the parents a sort of peg upon which to hang their faith.

Dr. Robertson said, "Parents should tell their children that a child is not a piece of property to be bought and sold, but a child who is to be brought up to be a man or a woman."
