

G. O. P. DOVE COOS SOFTLY AND SWEETLY

However, Politicians Agree
Task of Chairman Free-
man Won't Be Easy.

IS HARMONY REAL?

So far as public announcements go all was peace and harmony in the Republican party in Marion County today. Politicians of all faiths agreed, however, that William H. Freeman, the newly elected county chairman, faces about as difficult a task in bringing real harmony about as does Will H. Hays in keeping the movies from getting in bad. Despite the professions of brotherhood and good feeling by Charles W. Jewett and Mayor Shank toward each other in the Republican county convention Saturday, there still was bad blood between the two factions. This was forcibly demonstrated by an incident just before the convention opened.

Although both Mr. Jewett and George V. Coffin, leaders of the anti-Shank forces, had personally conveyed word to the Shank leaders there would be no opposition to the Shank program in the convention the Shank people did not trust them. For two days they had feared the opposition intended to trick them on the convention floor. Shank precinct committeemen had been given their certificates of election by County Chairman Harry C. Hendrickson while anti-Shank committeemen had, it was said.

SHANK FORCES ARE DEBILITATED.
The Shank people feared the Jewett people would refuse to let the Shank committeemen vote or get into the convention without certificates of election. So steps were taken to prevent the suspected Jewett ruse.

Twenty policemen were assigned to the convention and stationed about the doors and in strategic points all over the Criminal courtroom, where the convention was held. Capt. Edward Schubert of the police department and Henry Fleming, negro politician, were put on duty at the door. As committeemen came in their certificates of nomination were collected. Committee men who did not have them were passed in without them, but practically no one who had one got in without surrendering it. When the courtroom was filled the police blocked the door and rushed the certificates of election to police headquarters, where they were looked in a safe.

The convention was scheduled to open at 1 o'clock, but the minutes slipped by and Chairman Hendrickson did not call for order. The anti-Shank faction had discovered the collection of the certificates of election and held a council of war on H. About 1:15 o'clock, a Shank leader asked Hendrickson why he did not open the convention. Hendrickson replied the convention would be opened as soon as the certificates of nomination were brought back and laid upon the chairman's desk. It is said.

DECIDE TO SUBMIT CREDENTIALS.
Shank leaders debated several minutes over whether it would be advisable to bring back the credentials. They decided to accede and at about 1:25 o'clock they were laid in front of Hendrickson. The convention then was opened. The chairman announced committeemen could have their credentials back after the convention closed.

The regular order of business proceeded, but Shank leaders kept their eyes on the pile of credentials until William H. Freeman was proclaimed the new chairman. Then the harmony speeches came in a flood.

Among other moves in the promotion of harmony will be the making of peace

POCKETED

DOVER, Ohio, May 8.—A negro handit shot at Samuel Groff, butcher. The bullet went through a window, a showcase, and a ham and landed in Groff's vest pocket. Groff was not even scratched.

with the new leaders by a number of Republican county candidates. The fourteen factioned most of the state of county nominees. These men refused to attend a conference with Shank leaders before the convention. Mayor Shank threatened the city hall would not turn over its hand for the Republican ticket this fall if he did not get control of the county organization. Now that the mayor and William H. Armitage, captain of city hall politics, have triumphed, it is conceded there is nothing left for the Jewett faction candidates to do but come into the Shank-Armitage camp and be good little fellows.

KEALING ELATED OVER VICTORY.
The city hall politicians were not the only ones made very happy over the victory Saturday. Joseph B. Kealing, Republican national committee from Indiana, is understood to feel much more secure than he did before the convention. Two years ago, it is said, he slid into the national committeeman'ship by the skin of his teeth and it was the product of the New State faction to out him this year. When Beveridge triumphed in the State, things began to break Kealing's way, but there still was a chance for trouble if he lost out in Marion County. But with William E. Reller, Shank candidate, whom he openly endorsed, elected chairman of the Seventh District, opposition to Kealing appeared to have dwindled to practically nothing.

BOARD MAKES FEW CHANGES IN TIMES LIST

Official Primary Tabulations
Bear Out Earlier News-
paper Reports.

Official primary election figures show few changes from the results indicated by The Times unofficial tabulations, of the official returns.

On the Democratic side, there was only one change. It was originally announced that Philip M. Kiley was nominated for auditor, whereas the nominee was Charles A. Grossart. Grossart's plurality over Kiley was 293.

On the Republican ticket, the unofficial figures showed that Judge W. W. Thornton was nominated for Superior Court, room 1, and that Richard L. Ewbank was nominated in Superior Court, room 5. The official figures show that James M. Leathers had a plurality of thirty-three over Judge Thornton. They also show that Judge T. J. Moll had a plurality of 299 over Mr. Ewbank. In every other respect the Times unofficial announcement of winners was correct.

Edwards in Jail for Bootlegging

NORBERTVILLE, Ind., May 8.—Emory Edwards, proprietor of a poolroom and restaurant at Curtisville, nine miles east of here, is in the Hamilton County jail for drunkenness and bootlegging. He was found in possession of a quart of white mule. Later the home of Joseph Parr, where Edwards lived, was raided and a pint of mule confiscated. No charge was placed against Parr.

Ludina Loechele, dwelling, 4354 East Twenty-First, \$270.

Test Head Phones With Coin Stack

The telephone head receivers of a radio set are perhaps the most sensitive part of the apparatus. Whenever they are not in use they should be hung up alongside the set, so as to avoid their being knocked off the table. Any kind of shock might cause injury to the delicate diaphragms of the earpieces.

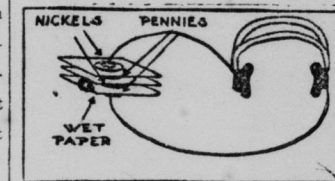

These diaphragms vibrate at several thousand times a minute, when signals are being heard, and for this purpose they must be exact in every particular, to reproduce a voice or message accurately.

For any reason, the head set is believed to be damaged in any way, there is an easy way to test them. Place a 1-cent piece on the table and on that place a slightly larger piece of tissue paper that had previously been soaked in vinegar. On the wet paper a five-cent coin. Then another vinegar-soaked paper, another cent piece and so on for four or six layers.

Place the head set over your ears, and take a tip of the telephone cord in each hand. Touch one tip to the bottom coin, which should be a cent piece, and the other tip, to the top coin—a nickel without any paper on it.

By holding the phone cord tip to the

bottom coin and tapping the top nickel coin lightly with the other tip, a clicking noise will be heard if the receivers are in good condition. This noise is

HOW TO TEST HEAD SET.

caused by the closing of an electrical circuit between the coins and the phones. The stack of coins and wet paper form a delicate electric generator. The efficiency of the phones can be estimated from the amount of coins used in the stack. The lower the stack the better the phones.

British Royalty to Visit in Belgium

LONDON, May 8.—King George and Queen Mary left today for Belgium to visit King Albert and Queen Elizabeth. The Queen was attired in a new spring suit of gaberdeen blue. While in Belgium the British King and Queen will visit the most famous of the World War battlefields.

AUTO STRIKES 300-POUND MAN; ARREST DRIVER

Two Men Taken After Col-
lision in Which Car Was
Damaged.

William Ford, 22, 743 West York street, was arrested early today on charges of assault and battery, and driving on the left side of the street. The arrest was made as the result of an accident Sunday in which a light automobile in which Ford and James Eaton, 180 North Blackford street, were riding struck Lawrence Johnson, 300 pounds, negro, 435 West Court street. Johnson was slightly bruised. He was so heavy that when the automobile collided with him the force of the impact drove the radiator of the automobile back over the hood and caused the hood to break the windshield of the machine. Eaton was arrested following the accident on charges of assault and battery and operating a motor vehicle while under the influence of liquor.

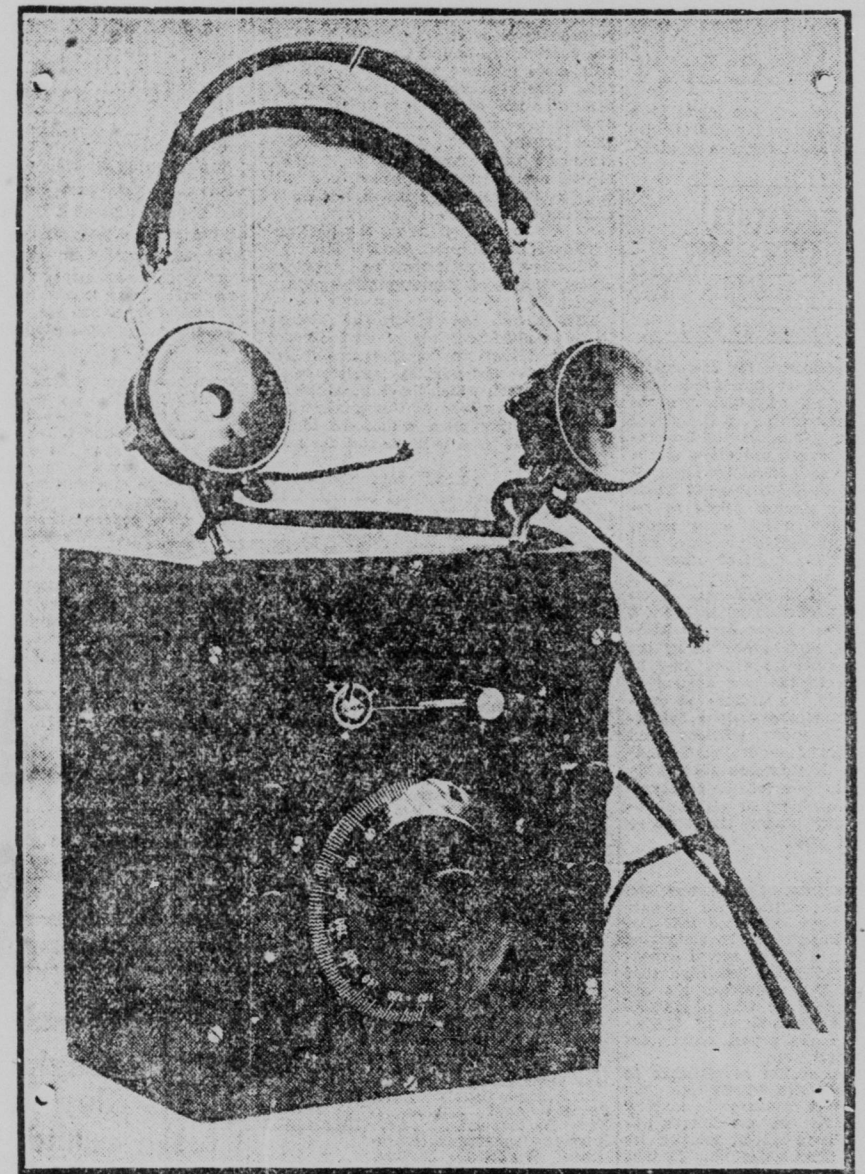

Police Fail to Halt Speeding Auto Truck

Patrolmen Fleming and Caldwell late last night attempted to halt an automobile truck in which five negroes were riding. There were no license plates on the truck. The driver of the automobile sped east on Tenth street and turned north on Brook street. The police fired three shots in the air, but the negroes only increased their speed.

BOYS! LISTEN IN

On the Complete Radio Receiving Set Now in Operation at the Office of the DAILY TIMES

The Indiana Daily Times super-sensitive Radio Receiving Set, comprising Tuner Cabinet and head set with Two Receiving Phones. Actual size of Tuner Cabinet, 7 3/4 in. x 6 3/4 in. x 4 1/4 in.

This Set has been tested and approved by the Engineering Department of the Hatfield Electric Co., Indianapolis.

YOU CAN GET THIS RADIOPHONE WITHOUT COST

Anyone can secure this wonderful set, in a few hours of spare time. Ask any of the boys who have got Daily Times Radiophones and now are "listening in" on the local and other broadcasting stations.

THIS SET IS NOT A TOY. It is on exhibition at the Daily Times Office. Come in and see it. You will find it is superior to any other crystal set. Every other Radio outfit of crystal type is a single circuit and only works under most favorable conditions. With the Daily Times set you can tune out any disturbance. Here is the description of it:

No taps, continuous wave length variation, equipped with primary and secondary coils. Mahogany or oak cabinet, bakelite panel, beveled and graduated dial, sensitive and permanent crystal adjustment. No batteries needed. No maintenance cost. Everything complete. Can be used with other units to build a loud speaking set. Wave length range, 750 meters. Note: While this is rated as a 50-mile in-

strument, music and voice from more than 200 miles away, has been brought in clearly. The receiving radius varies, depending largely upon atmospheric conditions. The head set consists of two receiving phones, 2,000 ohm resistance, navy type. Briefly, the finest, most sensitive and compact radiophone of its type. But it is only available under the terms of THE INDIANA DAILY TIMES' great offer—you cannot buy this set anywhere.
