Majority Votes to Furnish Cash for Cars.

## LIMITS ON CIRCLE

Height of Buildings Fixed Without Hearing.

Anti-administration sentiment which has ruled action of the majority of the city council for several weeks, was lacking in the regular meeting last night. The council unanimously voted a transfer of money to purchase automobiles and motor trucks in the city civil engineering department, refused several weeks ago.

An ordinance authorizing issuance of \$50,000 worth of bonds to pay the city's share of the cost of permanently improving several streets under the connecting link law, an administration measure, was passed without opposition. Another bill backed by the mayor's department heads, was an appropriation of \$1,950 with which to repair the damage in the Kentucky Avenue sewer into White River. This also was unanimously passed.

### DIVISION AS TO HOSPITAL BONDS.

The only anti-administration feeling expressed during the meeting was when President Theodore J. Bernd and Councilman Heydon W. Buchanan voted "no" on an amendment to the city hospital bond issue. The amendment reduced the amount from \$1,000,000 to \$500,000. It was passed by a vote of seven to two. The board of health advocated the amendment when some councilmen said they thought \$500,000 was too much to spend at this time.

The ordinance was not advanced further than amendment. If it is passed as amended the board of health will be able to build a hospital which it is expected the board will attract young women to the training school and thus relieve a shortage of nurses.

**LICENSE FOR GASOLINE PUMPS.** A bill, the first amendment in which Councilman John E. King took the negative and Councilman Walter W. Wise the affirmative, the ordinance licensing each pump in gasoline filling stations and public garages \$15 a year was passed by a vote of 6 to 2. President Bernd and Councilman John H. Thompson also cast negative votes.

When property owners spoke against it, the council unanimously voted to strike from the files the ordinance to annex territory bounded by Thirty-Fourth and Fifteenth streets, Keystone avenue and the east corporate line of the city. Two minor annexation measures were passed without dissent.

President Bernd appointed Councilmen Lloyd D. Claycombe and Otto Ray on a committee to obtain a report from the committee empowered to administer the \$1,000 relief fund voted the National Disabled Soldiers' League early in the year.

After the committee reported, a friend of the league proposed the action.

use the fund, which was to be used to operate the relief station, sponsored by the league, during the cold months.

"Up to the present time no report has been made as to how this fund was spent and the committee has therefore not been charged with the responsibility for it as we are aware," the league officials said in their letter. "Information is desired as to the status of this matter as there are several bills which were contracted by this committee or a member of the same which are still unpaid."

Mr. King said he understood some of the fund went for salaries and he would like to have it investigated. He said he had heard the same report.

**DELIGHTFUL HAIR WASH**

You can enjoy a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggist's a package of camphor and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the daintily perfumed preparation that thoroughly dissolves and removes every bit of dandruff, excess oil and dirt. After rinsing the hair dries quickly with a fluffiness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure.

Shades of that arbiter of masculine fashion, Beau Brummel!

The old gentleman would turn in his grave at the sight of the newest style in men's apparel that has made its appearance in Indianapolis. They call it the "Tux," "Tux," which proves their relation to the masculine vamp of the dinner table, who introduced the "jazz boy" into public life and made the twenty-four-inch waistline fashionable.

But the "Tux" is the very latest. Its under layer is a close fitting vest from which all but three buttons are missing, and these are right at the top, so that the lower edge of the vest spreads widely apart to reveal the wearer's shirt (it is a shirtwaist) with its collar and cuffs.

There is a lot of insane ones at large, from two hundred to two hundred and fifty.
