

## STEEL LABOR SUBJECT FOR DINNER TALKS

President's Session With Leaders Surrounded by Cloak of Mystery.

### OFFICIALS ARE PUZZLED

Special to Indiana Daily Times and Philadelphia Public Ledger.

WASHINGTON, May 18.—President Harding has invited the heads of the steel industry of the United States to dinner at the White House tonight and to a subsequent conference on conditions in the industry.

Although the exact trend of the discussion has not been disclosed at the White House, it is understood that the ways and means for the abolition of the twelve-hour day in the industry will be discussed and proposals for a more general observance of the eight-hour day will be laid before the steel men. Details of the conference were refused at the White House and elaborate pains were taken to surround the meeting with an air of mystery. Mere knowledge of the fact that the steel men had been invited was obtained from reluctant White House officials only when meager information regarding the dinner leaked out.

### SECRECY ABOUT SUBJECT MATTER.

The secrecy maintained regarding the affair tended generally to confirm the suggestion that the labor situation in the steel mills was the main reason for Mr. Harding's invitation to the steel mill heads. Those familiar with the situation were led immediately to the belief that the subjects to be discussed involved more than routine phases of the steel industry, such, for example, as its relationship to railroad rates. Nor was it clear that the President expected to discuss with the steel men the proposed merger of the six big independent steel companies which is expected to follow the recent combination of the Bethlehem Steel Company and the Lackawanna Steel Company. The fact that invitations have been extended to Judge Elbert H. Gary, chairman of the board of the United States Steel Corporation, and James A. Farrell, president of that corporation, is regarded as excellent indication of the merger question. If it is discussed at all, will not constitute the main topic.

Since President Harding already has announced that he will dine a group of railroad executives Saturday night, ostensibly to discuss freight rates, with the idea of inducing substantial reductions, there is little reason to believe the present secrecy tactics would be maintained regarding the steel dinner, if the discussion was to move along the lines announced for the White House railroad session.

**NOT CONNECTED WITH COAL STRIKE.**  
It was said officially also that the conference was in no way connected with the coal situation. The President and his advisers have been studying the steel industry, with the growing conviction that a certain amount of Government interest or suggestion regarding some of its methods would not be amiss.

"The Administration, it is understood, now realizes the importance of bringing about changed working conditions in the steel industry and convinced that governmental suggestions will go a long way toward inducing the operators to make the changes voluntarily. No coercion on the part of the Government, is expected, but the steel men will be appealed to remove to the causes which unquestionably caused the steel strike of 1919," Copyright, 1922, by Public Ledger Company.

### Planning for 10,000 Visitors at Gebault

TERRE HAUTE, Ind., May 18.—Arrangements are being made for 10,000 visitors at the dedication of a new dormitory at the Gebault home, State Knights of Columbus home for delinquent boys, May 28. The State convention of the K. of C. will be held here the following day. Ten thousand box lunches will be served at the grounds with enough coffee to wash it down. Special trains will run from Evansville, Bedford, Indianapolis, Logansport and Washington, Ind.

**FIND NO BURGLAR.**  
The police were called to the home of Charles Crippen, 2815 North New Jersey street, on the report that a burglar was in the attic. When the police arrived they searched the house from cellar to attic, but the burglar was not found.

### Building Permits

C. C. Peterman, shed, 237 Mason, \$75.  
C. H. Jenner, dwelling, 4614 East Washington, \$8,000.  
A. Peters, addition, 1518 East Kelly, \$700.

Your Guarantee of Service

# Run Your Car For Less Money

That's good business and you can do it easily. Remember the quality of the gasoline you use has a very intimate bearing on your repair bills.

If your car starts hard you are putting unnecessary wear on the generator, starting motor, and on the batteries.

If your car does not accelerate smoothly you are putting a terrific strain on the rear axle and playing hob with the tires.

If the gasoline you use does not contain an unbroken chain of boiling point fractions a slap is being imparted to the piston which racks the engine shamefully.

# Use Red Crown

## The High-Grade Gasoline

It enables your car to start easily, to accelerate smoothly; it imparts a steady, steam-engine like pressure to the piston that makes power without racking your engine.

Red Crown vaporizes to the last drop. That's why it gives such wonderful mileage and it costs less than some so-called high-test gasolines. You add to the efficiency of your motor and save in many ways by using

# We Stop Falling Hair in 3 Weeks

Grow New Hair Within 90 Days—  
or Your Money Refunded

## This New Way

Science discovers falling, lustreless hair due to simple infection (Sebum). Now quickly overcomes it. Hair actually grown on 91 heads in 100!

### Pay Nothing

Unless we grow hair. The Van Ess treatment is absolutely guaranteed. You are the sole judge. The warrant is signed by your own druggist. You assume no risk making this test.

### Note This New Way

—It Massages the Treatment Directly into the Follicles of the Hair

You can see from illustration that Van Ess is not a "tonic." It combines a massage and lotion in one treatment. You do not rub it in with your fingers. Each package comes with a rubber massage cap. The nipples are hollow. Just invert bottle, rub your head, and nipples automatically feed lotion down into follicles of the scalp where it can do some good. At the same time the nipples give your head a massage. It is very easy to apply. One minute each day is enough.

the hair. Its natural function is to supply the hair with oil.

But frequently it becomes infected. It cokes on the scalp; clogs the follicles and plugs them. Go to the mirror and you can see it in your hair, either in the form of dandruff or in that of an oily excretion at the hair roots.

Germs by the millions breed in it, then feed upon the hair. Soon your hair begins falling. You note too how lifeless it appears. In a short time, all the natural lustre and beauty are gone.

But—and note this scientific fact—remove the Sebum and the hair reverts back to the softness and brilliancy it displayed when you were a school girl.

The Van Ess treatment accomplishes that result. We know you will doubt it. So we guarantee it.

New hair grown in 90 days. Falling hair stopped in two weeks. Your own druggist gives you our guarantee to do these things. He signs it. If we fail, your money will be refunded without argument.

We urge you to give this new way a fair trial. It is folly not to test it; for remember, you take no risk.

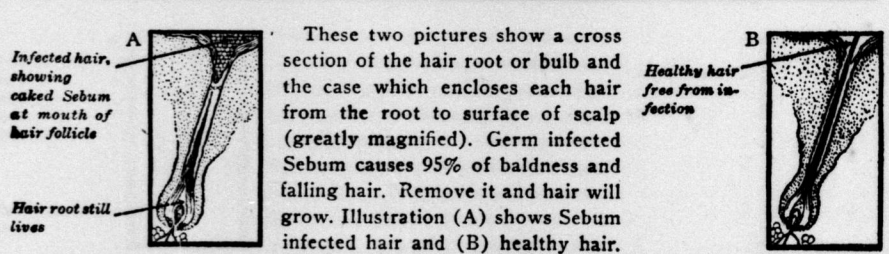

Go to any druggist or department store today. Ask for the Van Ess Liquid Scalp Massage. Written guarantee accompanies it.
