

BANKERS OF WORLD MAY BE CALLED ON

Suggestion Is Made for Untangling Maze.

IS UP TO HARDING

President Is Giving Idea Careful Thought.

WASHINGTON, May 23.—Suggestion that an international conference of bankers be called, in Washington to devise means of untangling the economic maze in Europe has been made to President Harding by certain of his advisers, it became known today.

While the President's attitude on such a conference has not been divulged, it is thought by those in close touch with the Administration, that he will give the subject careful consideration.

The meeting would be another Washington conference with the subject shifted from excessive armaments to the economic ills, which are burdening the world, according to the plan of those who are pushing the movement.

BIG 3 SPEAK FIRST DAY OF CONVENTION

(Continued From Page One.)

As far as is known, Albert J. Beveridge, who is in favor of the primary, has not interfered with the program, except to let his attitude be known.

The tax law which may provide one of the important issues for the fall campaign, was drafted today by State officials for the consideration of the committee on resolutions. The Republican State nominating plan will constitute an endorsement of the work of the State board of tax commissioners' work and also amendments of the last session of the Legislature. If the plan prepared which is said to have the approval of high State officials is accepted, TONER URGES

PRIMARY SUPPORT.

Edward C. Toner of Anderson, former Progressive, is the author of a letter to delegates to the convention, urging them to take a stand against the repeal of the primary law. Delegates arriving today appeared to be divided on the subject, and some indicated their belief that the committee on resolutions would not prepare a plank asking the abolition of the law.

MOSES WILL TAKE PART.

Mrs. Martha Gend, formerly of Knox, Ind., who is a member of the United States senatorial committee interested in the election of Republican Senators, and who is secretary to Senator Moses of New Hampshire, said Senator Moses will take part in the campaign for the election of Beveridge. She is here to make arrangements for Senator Moses' participation in the early months of the campaign. If possible, she said that Senator Moses would also take a large part in the senatorial campaign in New England.

Friends of Henry Roberts, who is a candidate for clerk of the Supreme and Appellate Courts, were claiming they had the support of Governor McCray and Senator Watson. Supporters of Robert J. Lynch, who is a candidate for re-nomination were confident that he would win.

Although there is only one contest for the offices on the ticket, much interest is being shown in the convention. All of the candidates have established headquarters and were giving the "good hand" to the early months of the delegates.

The delegates will meet at 7 o'clock Wednesday evening by districts in rooms that have been assigned at the state house. Each district gathering will name one vice president and one delegate. The delegates will meet at 7 o'clock Wednesday evening by districts in rooms that have been assigned at the state house. Each district gathering will name one vice president and one delegate.

GATHERING AT

MAYOR'S OFFICE. A gathering of city hall political chieftains was called at 11 o'clock today. State Chairman Lawrence Lyons, accompanied by William E. Kelley, chairman of the Seventh district, came to Mayor Shank's office. The meeting was hurriedly called, some of the department heads and others asserting they did not know what it was for. William H. Armistead, Jesse E. Miller, Taylor E. Greer, William H. Freeman, county chairman, and the mayor were in the conference.

After Mr. Lyons left the mayor said he had called merely to pay his respects and to thank the city administration for what it had done for him in his fight to obtain the State chairmanship. The vote of the Seventh district, came to Mayor Shank's office. The meeting was hurriedly called, some of the department heads and others asserting they did not know what it was for. William H. Armistead, Jesse E. Miller, Taylor E. Greer, William H. Freeman, county chairman, and the mayor were in the conference.

It is understood the State chairman discussed with the mayor what stand the mayor will take upon various issues in the convention. City hall leaders denied this, but it is known State leaders are nervous whenever Mayor Shank appears.

The mayor himself said "you never can tell when I get started talking." He is to speak at the Thursday morning session of the convention. He is known to favor abolition of the public service commission and retention of the direct primary, both of which opinion do not jibe with those of the standpatners. Hence it is understood Mr. Lyons went into the conference with the mayor and his aides to get some line upon what his honor is thinking about.

WILL HAVE ADVANCE COPY OF SPEECH.

An indication that the mayor has discussed his speech with some one was contained in his announcement, after the conference with Lyons, that he will have an advance copy for part of his speech. This is not characteristic of the mayor. In only one occasion in his campaigns for the nomination and election in 1921 did he speak from manuscript. This was on the night of the keynote meeting of the primary fight. Then he followed the manuscript only in part, digressing when ever a new thought struck him.

In announcing he would have a manuscript for part of his talk, the mayor said: "I want to be pretty careful about what I say."

Meanwhile the city hall crowd is lending all its influence to get Corporation Counsel Groninger named as the Marion County member of the resolutions committee. Mr. Groninger will fight to the last ditch to prevent adoption of a platform plank calling for a change in the primary law. He said so himself, today.

ACCIDENTAL ADVERTISING.

CHICAGO, May 23.—After a motor car smashed his store window, a south side druggist hung out this sign: "Even automobiles know this is the place to come."

CARL MURDER JURY MOSTLY COMPOSED OF FARMERS

SHELBYVILLE, Ind., May 23.—The jury in the case of Mrs. Clara Carl of Hancock County, on trial here for the murder of her husband, Frank Carl, is composed largely of farmers.

In the front row of the picture, left to right, are John Babb, George B. Stafford, Zeno Kopley, Frank Gillespy, Fred J. Deltzer and Russell Cochran. Back row, left to right—Baillif Val Schoellch, William F. Robinson, John R. Means, Thomas J. Marshall, George Schrader, William J. Morris and Garrett Hart.

SAYS CANCER CAN BE CURED BY NEWSPAPERS

Doctor Believes Gospel of Early Examination Should Be Taught by Press.

ST. LOUIS, Mo., May 23.—"The newspapers can cure more cases of cancer by preaching the gospel of immediate examination and treatment than the doctors can by improving their present methods," said one of the important issues for the fall campaign, was drafted today by State officials for the consideration of the committee on resolutions. The Republican State nominating plan will constitute an endorsement of the work of the State board of tax commissioners' work and also amendments of the last session of the Legislature. If the plan prepared which is said to have the approval of high State officials is accepted, TONER URGES

CHEMISTS WILL TESTIFY AS TO ARSENIC POISON

(Continued From Page One.)

A few months following the death of Robert Gibson, the first husband of Mrs. Carl.

"That two months after her marriage to Carl, Mrs. Carl filed a divorce proceeding in the Hancock County Circuit Court on the grounds that Carl had misrepresented his wealth to her prior to their marriage and that as a matter of fact his property did not exceed \$1,300."

"That Carl had a life insurance policy for \$2,000 with the Modern Woodmen of America and Mrs. Carl was named beneficiary and collected the money."

"That in the latter part of July, 1921, Carl became ill with a strange sickness and the symptoms were similar to those of arsenic poisoning, although the doctor treated him for flu."

"That Carl was a 'hardy, vigorous gentleman' about 45 years of age."

"That Mrs. Carl purchased arsenic at a store in Greenfield a short time before the death of Carl on Aug. 6, 1921."

"That an autopsy and chemical investigation showed the organs of Carl contained traces of arsenic poison."

"STATE RELIES ON CIRCUMSTANCES."

"It is evident that the State will rely upon the circumstances upon which evidence and upon the two main allegations that arsenic was found in the organs of the dead man, and also that Mrs. Carl is alleged to have purchased arsenic shortly before the death of Carl."

"The State as its first witness introduced John C. Pasco, undertaker at Greenfield, who embalmed the body. The embalming fluids used by Pasco, the embalming fluids used by the undertaker did not contain arsenic. The State examined Pasco at length relative to the embalming of Carl's body in January and February of this year before the indictment was returned."

"During cross examination Pasco maintained that a chemical examination of the embalming fluids used by him failed to show any trace of arsenic."

"Pasco said Hancock County commissioners allowed him \$200 for aiding in the funeral of Carl. He testified that an Indianapolis chemist examined the contents of the organs of the dead man."

"The position of the defense will not be presented to the jury until the State has completed its case, counsel having reserved that right."

"Indications are that the State will not let the jury to reach the death penalty, although attorneys excused three jurors who said they did not believe in capital punishment."

"The jury is composed of John Babb, farmer; George B. Stafford, farmer; Zeno Kopley, farmer; Frank Gillespy, farmer; Fred J. Deltzer, coal merchant; Russell Cochran, farmer; William F. Robinson, farmer and former county commissioner; John R. Means, farmer; Thomas J. Marshall, saw mill operator and former farmer; George Schrader, merchant; W. J. Morris, farmer, and Garrett Hart, merchant."

"The court is permitting the jurors to go to their homes in the evenings, but he warned them not to discuss the case and not to read newspaper accounts of the trial."

"Indications are that the case will go to the jury late Saturday."

Operators Shown to Have Financed Treason Hearing

CHARLES TOWN, W. Va., May 23.—The Logan County coal operators have contributed at least \$25,000 for the prosecution of the treason cases against United Mine Workers leaders in West Virginia, now being tried here. W. R. Tibbmonds, president of the Logan County Coal Operators' Association, testified at the trial of Bill Blizzard here today.

Thurmond's admission follows his frank statement that the Logan County operators paid out \$60,000 in deputy sheriffs' salaries during the first nine months of 1921.

Baltimore Firm Buys 8,000 Acres of Coal. BLUEFIELD, W. Va., May 23.—Tracts aggregating 8,000 acres of coal across the ridge from Hinton, in the angle formed by the junction of Glade Creek with the New River, have been purchased from different owners by the Eastern Coal and Mining Company, a Baltimore corporation, which plans development on a large scale. The purchase price aggregating \$500,000. According to surveys the property contains 90,000,000 tons of coal. A railroad is now being built up Glade Creek to serve the mines to be opened on the property.

Rubber Tongue Restores Speech

PARIS, May 23.—Medical science has found something new under the sun. Sergeant Vialla, whose lower jaw, blown away by explosives during the World War, was reconstructed with a complete set of false teeth, now is able to talk and sing.

Surgeons at the Val de Grace Hospital experimented for many months in an effort to build back Vialla's tongue, the base of which remained after the reconstruction of his jaw.

The efforts of Dr. Eugene Quenelle were crowned with success and now Sergeant Vialla has a rubber tongue, which enables him to sing and lead conversation.

Self-Made Savages Come Out to Tell Experiences

Mr. and Mrs. Carl Sutter Wear Birchbark Suits, Held Together With Vines.

HOXBROOK, Maine, May 23.—Carl A. Sutter and his wife, the modern Adam and Eve, who entered the Maine woods on Saturday to live for a month as close to nature as a human can get, emerged for a few minutes today to tell their adventures.

Both wore birch bark suits, lashed together with vines, but they had failed to protect the flesh and their bodies were lacerated by thorns. They were pale, haggard and somewhat exhausted, but said they were "game" and would continue their adventure.

"When we entered the woods it began to rain, and my wife was chilled through," said Sutter. "I know shelter was the first requisite, so I built a lean-to with branches and spruce boughs. When it was done it was not exactly the kind of love nest one reads about in novels, but it was comfortable."

Sutter started a fire by rubbing a dry stick rapidly against a set one. Finally a spark flew into a handful of birch shavings and a blaze sprang up. It required only half an hour's time to start it.

"I made snares with tough fibers from the inside bark and waited patiently for some wild animal to come along and stick his head into one of them, but none was caught," continued "Adam."

"Night fell rapidly and we had nothing to eat but roots and bits of green stuff and our stomachs were pretty empty."

"I could hear wild animals prowling around and was afraid to go to sleep, but finally I dozed off and was awakened by an unearthly scream. It was my wife, who had awakened out of a nightmare, during which she thought she was being eaten by a wild animal."

On Sunday the Sutters took an early morning plunge in a stream and then made a hearty breakfast of lily roots. Copyright, 1922.

MORGAN SAYS NOTHING ON GERMAN LOAN

Big International Bankers Open Conference in Paris Wednesday.

PARIS, May 23.—J. P. Morgan of Morgan and Company, New York bankers, arrived here today.

Mr. Morgan refused to talk regarding the conference of international bankers which is to convene here tomorrow at 11 a. m. to discuss an international loan to Germany.

Finance Minister Herms of Germany, who has been in Paris for several days will go to Berlin to consult the members of the German cabinet. He is expected to return before June 1 with satisfactory proposals for the German government.

EXCURSION TO SEE LAKE, PLAN

Mayor Shank today set out to organize an excursion to Decatur, Ill., Sunday, June 12, in order that interested citizens of Indianapolis may view a new municipal lake, established at a cost of \$3,000,000. The mayor hopes citizens who see the Decatur lake will be won to his proposal to dam White River at Northwestern avenue and make a lake in the bottoms to the northwest and north of the city.

The excursion will be over the C. I. & W. railroad. The railroad has promised to supply first class accommodations, W. T. Bailey, named head of the committee on arrangements by the mayor, said.

The mayor and Chamber of Commerce of Decatur are making plans to entertain the visitors, Mayor Shank said.

On the committee of arrangements with Mr. Bailey are Frank C. Jordan, E. O. Sweeney, J. L. Elliott, L. V. Suerd, William H. Armistead, the city council parks committee, J. L. Hooge, R. Walter Jacobs, F. F. Radtke, Jesse B. Miller and George O. Hutsell.

Gunboat Squadron on Way to Nicaragua

WASHINGTON, May 23.—Rear Admiral Cole, commanding the American special service squadron, will arrive at Corinto, the Pacific seaport of Nicaragua, on Thursday with a squadron of gunboats, the State Department was advised today. Officials here feel the situation in Nicaragua is now well in hand, despite the agitation among natives as a result of the revolution on Sunday.

Two Chicago Men Held as Grafters

CHICAGO, May 23.—Indictments were returned in Criminal Court today against William A. Bither, attorney for the Chicago board of education, and Henry W. Kaup, a real estate man. The two men were charged with conspiracy to operate a confidence game to obtain money under false pretenses in connection with transactions involving the Forestville, Wendell Phillips and Irving Park schools.

WHITE SCHOOL MAY BE GIVEN TO NEGRO RACE

Shifting Population Prompts Suggestion to Transfer Pupils.

NEW BUILDING READY

Pupils of public school No. 4, Blackford and West Michigan streets, probably will be transferred in a body to the new building at No. 5, California and West Washington streets, and No. 4 converted into a negro school as the result of suggestions made by E. V. Graft, superintendent of schools, at a special meeting of the board today.

The change should be made, Mr. Graft said, because of the fact that the white population in the neighborhood of No. 4 is decreasing rapidly and the negro population increasing at a corresponding rate.

If the change is made as suggested, it will be the first time pupils have been moved in a body from one school to another. Changes of this character have been made in the past, but they always have been made by moving a class or two at a time.

The new building at No. 5 is now ready for occupancy, and if Mr. Graft's plan is adopted by the board it will be effective in the fall of 1922.

CONTRACT GHOST WON'T STAY PUT. At almost every board meeting for the last year, the ghost of the old contract between the board and legally Snider, former building advisor of the board, and the firm of Snider & Rotz, engineers, stalks through the proceedings for a half hour or so, and today it made its regular appearance.

This time it arrived through the medium of a letter from Albert A. Baker, attorney from the board. Mr. Baker gave it as his opinion that the courts would hold the board liable for all that has been done by Snider & Rotz by way of designing and supervision in pursuance of the contract of August, 1921.

This contract provided for the temporary employment of Snider & Rotz after they had resigned as engineers and canceled their contract.

Determination of the validity of those old contracts is now pending in the State courts.

Mr. Baker apparently does not regard highly the opinion of the State board of accounts, that the board cannot legally employ engineers, but should have its supervisory work done by its own superintendent of buildings and grounds, for speaking of this he says:

DOESN'T THINK RULING WELL-FOUNDED. "The claim that the statutory definition of the duties of the superintendent of buildings and grounds with respect to engineering work withdraws from your board the power to employ engineers to supervise the erection of work that has been designed by me, I think is pretty well grounded to warrant the board at this time in acting on the correctness of that position."

"If I were a member of the board, and if I thought the condition of friction existing between the board and Snider & Rotz interferes with the board's work, I would vote to terminate all relations with that firm and leave to the courts the decision what damages, if any, are collectible from the board for so doing."

The old contract of the board with a frontage of 108 feet on Ray street and 78 feet on Wilkins street, has been appraised at \$11,553.46 by James E. Berry and Frank T. Brown, appraisers, according to a report submitted to the board.

Bids were ordered advertised for June 19, and the will be opened at the board meeting June 20.

Auction of Bullet That Killed Hero

WASHINGTON, May 23.—The bullet that killed him is included in the personal effects of Private Harry Fisher, a Marine killed in the Chinese Boxer war of 1900, which were sold at auction recently after failure to find any heirs to the dead soldier.

How the fatal bullet happened to be included in the possessions of the soldier is not known. It was so listed, however, Stranger items than this occur in the lists of personal belongings of dead soldiers, which effects are kept at headquarters in Washington for a specified time, then sold.

Prayer Books are conspicuous in their number. In the case of Marines many queer foreign relics also abound. These range from Chinese rings to foreign coin collections from every corner of the globe. A pair of Romeo slippers formed a part of the collection kept for the possible relatives of one dead Marine. A collection of ladies' bar pins was another feature of a recent batch of belongings.

Court Says Forgery Game Is Unbeatable

"When you get out of this you had better quit the game. It is an unbeatable game," said Judge Delbert O. Wilmett today in city court as he bound Richard A. Hutchinson, 23, of Columbus, Ohio, to the grand jury on the charge of forgery. Hutchinson's bond was fixed at \$2,000.

Admitting he had passed eleven worthless checks receiving a total of \$107 for them, Hutchinson insisted he was not guilty of forgery as he signed his own name to the checks. The checks were on a Columbus, Ohio, bank and Hutchinson, Detectives Peats and Fleetwood pointed out, had signed his name as manager of a Columbus paint company, which position he admitted he did not hold.

PLANS INQUIRY ON FERTILIZER

Senate Committee on Agriculture Will Call Secretary Wallace to Testify.

WASHINGTON, May 23.—An investigation of the alleged "fertilizer trust" was ordered today by the Senate agriculture committee in connection with the leasing of the Government nitrate plant at Muclos Shoals, Ala.

Secretary of Agriculture Wallace will be among the witnesses called to testify regarding activities of the alleged trust, Chairman Norris, Republican of Nebraska, announced.

The probe was ordered as a result of the testimony that seven great fertilizer concerns controlled 50 per cent of the fertilizer output.

I. U. EXTENSION OFFERS AWARDS

Will Give Scholarship to Six Graduates.

Indiana University extension division announced today it will give scholarships next year to one boy and one girl in the graduating class of each of the three city high schools. Each of the six scholarships will consist of one year's free tuition in the late afternoon and evening classes of the Indianapolis center.

The scholarships will be awarded on the basis of high scholarship and the recommendation of the principal. They are intended for students who are unable to attend the day school because of financial conditions.

They will undertake to do at least three subjects. They will enable the possessors to work in the day and attend the university classes at night. Students will have an opportunity to choose from over fifty different courses under university instructors.

They may take the regular freshman courses in Liberal Arts subjects such as English, French, Spanish, history, science, hygiene, or special courses in such commercial subjects as accounting, advertising, and secretarial work. The scholarships will be awarded about May 25.

Policewoman Shows She Can Handle Gun

When Mame Shelton, policewoman, saw that a suspect was about to escape, she did not hesitate to draw her gun and brought Nathaniel Freeman, 1201 Hiawatha street, to a sudden stop. Freeman was convicted in city court today of stealing a watch belonging to Pat Griffin, 429 Indiana avenue, and was fined \$30 and costs by Judge Delbert O. Wilmett.

WOMAN "MESSIAH"

MOSCOW, May 23.—Algo Fodorobitch has proclaimed herself a "Messiah" come to drive out Lenin and his creatures, and has already gained a large following in South Russia.

There are many women who first used our Vegetable Compound during their girlhood days. They nurse it a valuable help during trying periods. In later years they try it whenever they feel those annoying symptoms which women often have.

It is prepared carefully from medicinal plants, whose properties are especially adapted to correct the troubles women have.
