

## WORLD DAIRY CONGRESS TO MEET IN 1923

Delegates From All Parts of World Will Attend Big Meeting.

WASHINGTON, May 26.—The suggestion of the Argentine Republic in 1919 that the United States Government take the lead in a movement for the holding of a great international dairy conference is to bear fruit next year.

In October, 1923, the World's Dairy Congress will convene in this city under the auspices of the Department of Agriculture. Under authority granted by Congress in 1921, President Harding is expected shortly to invite foreign Governments to send representatives to the United States to attend and to take part in the meeting. The dairy congress was to be held this year, but by a joint resolution of the Senate and the House in December, 1921, the date of the opening of the meeting was postponed from 1922 to 1923 so that its scope could be broadened.

Four cities have already entered into competition for the honor of entertaining the half a million persons who will come to the meeting. The cities of the world to take part in the discussions incident to the conference and to exhibit their dairy products and machinery. They are: Washington, Philadelphia, St. Paul and Indianapolis. Other invitations are expected to be received by the World's Dairy Congress Association when plans for the international meeting become more generally known.

The program for the conference has been placed under four general divisions as follows:

(1) The exchange of the scientific knowledge underlying the development of the dairy industry.

(2) The treatment of business conditions which make clear the world movements of dairy products, dairy cattle, dairy machinery and by the study of the forces that determine market prices.

(3) The study of the problem of regulation and control of the health of cities and the protection of the health of cities.

(4) The arousing of a wider appreciation of the food value of milk products.

The congress will be the first international dairy meeting ever held in the United States. Americans will have an opportunity at the show to study exhibits from foreign countries, and foreigners who attend will see a graphic presentation of the achievements of the United States in dairying, cattle breeding, machinery and methods in the dairy and allied industries.

The World's Dairy Congress Association, which is making arrangements for

the gathering, has as honorary president, Secretary of Agriculture Wallace. The active president of the association, however, is H. E. Van Norman, professor of dairy management, of the University of California, who is on leave of absence because of his work in connection with the forthcoming congress.

**MEMBERS LISTED.**

Among the other officers and prominent members of the association are:

Prof. C. W. Larson, chief of the dairy division of the Department of Agriculture; B. H. Rawl, San Francisco; Robert Scoville, New York City; J. A. Walker, Chicago; Loton Horatio New York; D. E. Austin, New York City; John Bell, Jr., Pittsburgh; E. W. Chandler, Chicago; W. L. Cherry, Cedar Rapids, Iowa; Hugh J. Chisholm, New York

City; J. F. Frandent, Lincoln, Neb.; C. E. Gray, San Francisco; A. T. Johnson, New York City; John Le Feber, Milwaukee, Wis.; E. B. Lewis, New York City; Dr. E. V. McCollum (discoverer of vitamins), Johns Hopkins University, Baltimore, Md.; E. M. Miner, Rochester, N. Y.; E. M. Bailey, Pittsburgh; H. M. Brewster, Somerville, Mass.; Milo D. Campbell, Coldwater, Mich.; H. E. Eccles, St. Paul, Minn.; William B. Hale, Rochester, N. Y.; Charles Harding, Omaha, Neb.; F. H. Harwood, Detroit, Mich.; Frederick L. Houghton, Brattleboro, Vt.; N. P. Hull, Lansing, Mich.; Wilson, New York City; C. W. Marple, Chicago; C. G. Morris, New York City; D. M. Mortenson, Ames, Iowa; M. D. Dunn, Chicago; Paul O. Heymann, Wheeling, W. Va.; Robert Scoville, New York City; J. L. Sammis, Madison, Wis.
