4,000 Delegates in First Session of Annual Gathering of Workers.

### INTERESTING PROGRAM

Special to The Times.

EVANSVILLE, Ind., June 12.—Carrying blue program books, shaking hands with each other, more than 4,000 delegates to the Indiana State Sunday school convention went into session here today.

Rain, which started early this morning, and which threatened to mar the first day of the meeting, ceased shortly after 7 o'clock and a bright sun added pep to the delegates.

Mayor William Blumendorf gave the delegates an official welcome.

Routine business matters were taken up this morning, with the morning going into full swing this afternoon.

The Indianapolis delegation arrived on a special train and the leaders plunged immediately into the business of the convention. John N. Evans, who is State president of the association, made the official response to the address of welcome at the opening session this morning.

Mr. Peasey has set the attendance goal at 4,500 delegates and indications are the attendance records will be shattered.

One of the features of the convention will be the presentation of a program under the direction of H. Augustine Smith tonight in the Soldiers' and Sailors' Memorial Coliseum. Several hundred young people will take part in the program, which will represent the growth of the Sunday school movement.

## BRITAIN ASKS OATH OF IRISH

Churchill Explains Position in Reference to Free State.

LONDON, June 12.—Great Britain does not require an oath of allegiance from the members of the provisional parliament in the Irish Free State, but it does ask for such an oath from members of the Irish Free State Parliament after the adoption of the proposed Irish constitution, Colonial Secretary Churchill announced in the House of Commons this afternoon. Secretary Churchill said, however, that Great Britain does require adherence to the Anglo-Saxon peace treaty from the members of the provisional government now in existence in Dublin.

This statement explained the oath issue, which has been little understood by the public and has been the subject of much speculation in the press.

## CLOWN ON TRIAL AS AUTO THIEF

Fred B. Cosgrove Faces Court as Theft Suspect.

It is a long way from sawdust ring of the circus tent to the Federal prison at Atlanta, Ga., but the gray walls must have seemed uncomfortably close to Fred B. Cosgrove of Chicago, circus clown of wide reputation, as he took his seat at the defendant's table in Federal Court this afternoon to make his fight for freedom.

Cosgrove, together with Morris Stokes of Elwood, is on trial charged with being implicated in the transportation in interstate traffic of an automobile which was stolen in Chicago. Cosgrove landed in Clinton after an exciting series of experiences in Muncie and Elwood.

Lester Thompson, a third defendant, entered a plea of guilty and probably will testify for the prosecution. A fourth defendant has never been arrested.

According to Government officials the story centering about this stolen car, which also has been the subject of honor among thieves. They say the car was stolen in Chicago and taken to Muncie. There, after a double-cross among the first set of thieves, it was stolen again and taken to Elwood. Here the double-crossers themselves were crossed and the automobile was taken to Clinton, where it was captured.

## Drops 5,000 Feet With Parachute Refusing to Open

DAYTON, Ohio, June 12.—Refreshments at an altitude of 24,200 feet, a 5,000-foot fall through space and then a thirty-minute gradual descent to earth, with the refreshments still digesting normally.

Stevens went up in a Martin bomber plane with Lieut. Leitch Wade, McCook field pilot. The altitude of 24,200 feet, reached after two hours of steady climbing, was said to be a new record for a twin-motored craft carrying three passengers.

"When I left the plane, at the ceiling of the digit, my parachute was closed," Stevens said. "I must have dropped 5,000 feet before it opened and checked my flight."

"We had just had refreshments, and I seemed to be dropping faster than the speed of light, but I held on and the 'grab' stuck."

When Stevens leaped the plane was over Springfield, he said. After sailing for thirty minutes he landed safely in Jamestown, twenty-five miles south of Springfield.

## 20 Cents for Soap Against 50 for Make-Up

MILWAUKEE, June 12.—Although Americans have rather prided themselves that soap is something of a national institution, the fact is, according to Bert Butterworth of Los Angeles, that Americans economize on soap. The total per capita annual expenditure for soap, in the United States is 20 cents.

Butterworth made his revelations in an address before the Associated Advertising Clubs of the world in convention here.

As for cosmetics, Butterworth declared, the charge that the "dapper" and the "vamp" spend all their change for beautifiers is slanderous.

The per capita expenditure in the United States, he said, for lipsticks, rouge, face cream, brow pencils, henna, paint, powder and other cosmetic concoctions is just 50 cents per annum.

He failed to obey their call to halt and jumped a fence. Then the police fired. The fugitive returned the fire as he was crossing a second fence and the negro fled.

The police fired seven shots at him. The negro fired three shots at the police.

Later a snick and a flashlight were found lying at the spot where the negro had been hiding. Within a few feet of the spot was a chicken coop, in which were twenty-four young chickens.
