

NEWBERRY MAY LOSE HIS SEAT VIA PRIMARIES

Only One More Vote Needed, Which May Come From His Own State.

KELLY STARTS CAMPAIGN

Opponent of Townsend Says He Stands for Senator's Removal.

BY LAWRENCE MARTIN, United Press Staff Correspondent.
WASHINGTON, July 8.—Results of recent and forthcoming primary elections may cause Senator Truman Newberry of Michigan to lose his seat in the Senate.

Elimination of Senators New, Indiana, and McCumber, North Dakota, means two more votes against Newberry when his case is reported at the next session of Congress, anti believe.

Only One Needed.
If the successors of New and McCumber line up against Newberry only one more vote would be needed to unseat him, provided the rest of the Senate votes as it did on January 12 last, when Newberry retained his seat by a vote of 46 to 41.

The one vote will be asked of the people of Michigan, Newberry's own state.

Kelly Starts Campaign.
Representative Patrick Kelly, opposing Senator Townsend for the Michigan senatorial nomination, today begins his active speaking campaign with an address at Charlotte, Mich.

He will announce in that speech that if nominated and elected he will vote to unseat Newberry.

New Flapper Activities

BUILDING A FIRE AT THE GIRL SCOUT CAMP.

Ten to sixteen—the true flapper age. Robbed hair and knickerbockers—the approved—or disapproved—flapper costume.

But if all flappers were as charming as the twenty-four who make up the first Girl Scout camp, the anti-flapperists would complain against feminine frivolity in vain.

For under the tall elms and beeches that shade Ada-Boy-Holiday, as the new camp is called, the Girl Scouts have put up their tents, hoisted their flag, built their campfire and are learning the joys of living as boys have always delighted to live.

No boy could build a better camp fire or do more effective police duty than the girls.

Nor could any boy excel the new order of Scouts in the more feminine activities which fall to the waitresses, lighters and scribes, cooks and water scouts.

The water scout's duty is to bring in the water for washing dishes and apply the same to the dishes very thoroughly, afterward boiling out the dishcloths.

The lighters and the scribes have a double duty—to polish and fill the lanterns which light the camp at night and to keep the camp "log," as the record book is called.

Among the contributions reported at the meeting was one for \$5,000 from Dr. and Mrs. Lafayette Page and one for a similar amount from Mrs. W. H. H. Miller.

Tuning in Maybe
A burglar entered the house of W. F. McClintock, 35 N. Gladstone Ave., last night and carried off a radio set.

Contributions Reported by Captains of Memorial Teams at Meeting.
Additional contributions to the James Whitcomb Riley Hospital for Children, amounting to approximately \$28,000, were reported at a meeting of team captains and workers at the Chamber of Commerce.

Among the contributions reported at the meeting was one for \$5,000 from Dr. and Mrs. Lafayette Page and one for a similar amount from Mrs. W. H. H. Miller.

Still Higher
Prices of Food Stuffs Are Expected to Reflect Effects of Tariff.
BY KENNETH W. CLARK, United Press Staff Correspondent.
WASHINGTON, July 8.—Further increases in the cost of food are in prospect, Senator Walsh, Democrat, Massachusetts, forecasted today on the heels of the Labor Department announcement that eighteen out of twenty-two cities registered increases during the past month.

Officials of the Department of Commerce likewise predicted increases. Walsh charged that the high food schedules in the tariff bill would operate to push prices still higher.

Commerce department officials held that agricultural prices, now on the rebound after the severe slump, are responsible.

GASOLINE DROPS

Standard Oil Announces Freight Rate Cut Goes to Consumer.

By United Press.
CHICAGO, July 8.—The first big price cut as a result of lower freight rates was announced here today by Standard Oil of Indiana.

Effective Monday, the price of gasoline, kerosene and all other petroleum products will be reduced to the full extent of the freight rate reduction.

This is estimated will mean a saving to the retail buyer of gasoline ranging from one-fifth to two-fifths of a cent a gallon.

No Orders Here.
No instructions to cut the price of gasoline have been received by the local office of the Standard Oil Company.

No reductions greater than one or two-tenths of a cent a gallon are anticipated in the near future.
