

CITIZENS MEET IN SUPPORT OF BUTLER MOVING

Open Air Gathering July 29 at Fairview Park to Boost Proposal.

CIVIC ASSOCIATION LEADER

Harry Calland Has Reasons for Advocating Change of College Plant.

An open-air meeting of citizens interested in moving Butler College to Fairview Park will be held in the park July 29, Harry E. Calland, president of the Majetton Civic Association, announced today.

At a meeting today plans for a campaign to move Butler were discussed. It is probable that subscriptions will be solicited to purchase the site as an inducement to college authorities to move the institution.

Calland said the issue is larger than a neighborhood issue.

"While it will without doubt be of special benefit to people living near Fairview, a larger school is something which every Indianapolis citizen should work for," said Mr. Calland. "It is more than possible that a university here in Indianapolis could have an enrollment of 10,000."

"A thriving university would not only keep our own young people here but it would bring young people from all over the country, and be a positive factor in the growth of our city. With a larger enrollment Butler could develop her activities in athletics, also."

JUDGE DENIES KISS IS ENOUGH TO FORCE MATCH

Refuses Annulment of Marriage on Plea of Woman.

NEW YORK—Supreme Court Justice Arthur S. Tompkins, denied the application of Mrs. Ellen Bedstone Dow, Bryn Mawr Park, to annul her marriage to Horace G. Dow, which she said was forced by a kiss.

Mrs. Dow testified she was "coerced" by Dow into entering the ceremony. She had kissed him in a hammock, and, she alleged, married him because he threatened to tell about the episode.

Mrs. Dow declared her parents were very strict, and she was afraid of them learning of it. She married Dow, but never lived with him. The marriage, she added, had been kept a secret, and not even her parents knew of it.
