

PENNSYLVANIA GIVEN RIGHT TO LEASE DIVISION

Parent Company May Take
Over Panhandle for 999
Years.

4 PER CENT IS GUARANTEED

Increase in Rental Dating From
End of Year 1925 Is
Provided.

By United Press

WASHINGTON, July 17.—The Pennsylvania Railroad today was authorized by the Interstate Commerce Commission to acquire control by lease of the Pittsburgh, Cincinnati, Chicago & St. Louis Railroad.

Authority for the making of the lease, which is to run "for the time of 999 years from Jan. 1, 1921," was given under the express condition that the Pennsylvania shall not "sell, pledge or otherwise dispose of" the capital stock of the Panhandle road, now owned or controlled by it without the consent of the commission.

Under the terms of the lease the Pennsylvania proposes to pay the P. C. C. & St. L., as rental, a sum equivalent to 4 per cent per annum of that carrier's now outstanding capital stock until Dec. 31, 1925, and 5 per cent thereafter. A further sum, sufficient to enable the "Panhandle" to maintain its corporate organization, will be paid.

Dan Beard Tells How to Make Birchbark Thing

By DAN BEARD,
National Scout Commissioner.

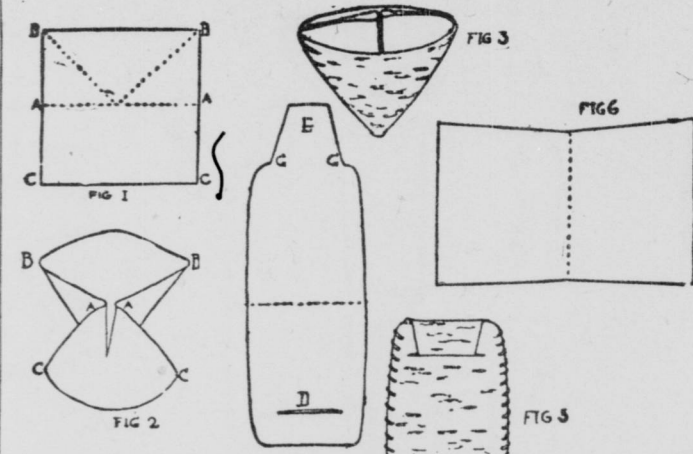

Be good woodsmen, girls. That means, remember the laws of the open when your "bunch" is off on a hike for birchbark.

You know, of course, that to cut bark from a tree, leaving a bare band entirely around the trunk will kill the tree. However, small pieces of bark reaching up and down the trunk, peeled off, will not prove fatal to the trees. But do not take too much from one; let several trees furnish you with bark.

Soften the thick bark by soaking it in water. When

birchbark five and one-half inches square. Bend forward and crease the bark through the center (Fig. 1AA), then crease backward the two diagonal lines, B and B, from corners to center, and bring the two side edges of center line together only at the points A and A (Fig. 2). Now bring the two points B and B (Fig. 2), forward against the outside of cup part (Fig. 3), and fasten the B points to top edge of cup. Thorns can be used as pins, and you will have a serviceable woody drinking cup that will not leak (Fig. 3).

For your card case have a strip of bark like Fig. 4, with slit, D, cut near lower edge through which to pass the tongue, E. Fold up lower end to meet the lower edge of flap, and with very coarse darning needle and twine of inner bark fibers, or ordinary soft twine, sew the two sides of pocket part together, which fin-

to be made into various articles. When necessary to sew edges of an article together the bark must be wet and soft.

The diagram (Fig. 1), represents a woody drinking cup in the making and it calls for a flawless piece of

ishes the card case (Fig. 5). You can also make most attractive sheets of letter paper from perfect strips of birchbark, on which letters may be written with pen and ink (Fig. 6).

Last Week OF PEARSON'S \$180,000 FIRE SALE

The remodeling of our former store is nearing completion and by next week will be ready for our occupancy. Therefore we must dispose of the remainder of our fire sale stock as we do not intend moving any of these instrument.

We have had just 680 pianos to offer in

this sale. These instruments were divided into four groups and now the fourth and last group will go on sale Monday morning. This group represents the cream of our former stock, highly desirable instruments, guaranteed by us to be in first-class condition in every respect.

JUST 137 PIANOS-PLAYERS-GRANDS Remain to be Sold This Week Final Price Reductions NOW PREVAIL

Rather than move a one of these pianos back to our former store we have again made a drastic cut in price. We are going to give the people of Indianapolis and vicinity such values as we be-

lieve will never again be equaled. Come in Monday—only by seeing and hearing these fine instruments can you fully appreciate the wonderful bargains we are offering.
