

# MAY RESORT TO MARTIAL LAW TO OPERATE MINES

Illinois Executive Likely to Be Driven to Extremes by Peculiar State Law.

By United Press  
SPRINGFIELD, Ill., July 19.—By reason of its peculiar law, Illinois may have to resort to martial law, if the Governor is to comply with President Harding's call upon the State executives to give military protection for the resumption of coal mining.

The statute requires all miners to pass a safety test before a board of three men, miners themselves to qualify for work in underground work. It is certain that this board would refuse to pass strikebreakers for such employment. Attorney General Brundage holds, however, that the law can be nullified by a declaration of martial law.

**Troops Are Ready**  
A dispatch from Battle Creek, Mich., says that Governor Small has sent orders to the Illinois troops at Camp Custer to prepare for a general review, and it is reported at the camp that this is preparatory to transfer to the coal fields.

Acting Governor Fred E. Sterling, who is here, refuses to comment on President Harding's call further than to say that "the situation in Illinois is different from any other coal-producing State."

President Frank Farrington of the Illinois United Mine Workers of the World is on his way to Springfield, and Sterling says he may confer with him concerning the situation.

**Will Reopen Mines**

PITTSBURGH, July 19.—Western Pennsylvania coal operators today accepted President Harding's invitation to reopen mines under protection of State police and National Guards.

The wages will be those in effect in November, 1917.

The following statement was issued: "The operators generally feel that the statement made by the President of the United States, together with assurances of proper protection, have greatly clarified the situation, and will result in an increase in the production of coal. This will be particularly true in the non-union fields of the State, inasmuch as the many promises made to the unfortunate men who ceased work at the request of the union have failed to materialize."

**Issues an Appeal**

DES MOINES, Iowa, July 19.—Declaring the general welfare of the public transcends in importance the issues in the coal dispute, Governor Kendall today urged the Iowa operators and miners, as a "patriotic duty," to at once resume mining operations. The Governor declared the full protection of the State and national Government was back of the move for resumption of mining.

**GOING TO CUBA**

Ocean-Going Vessels With Our Equipment Permitted to Pass.

DETROIT, Mich.—Sea-going vessels with only our equipment are now traversing the Detroit River. A small punt, less than seven feet in length, loaded with whisky, was spied by a United States patrol boat in the river.

Officers of the patrol boat and Government agents hurried to the punt with the expectation of seizing the liquor, but it was not to be.

"What have you there?" they asked the small man who was sculling the boat.

"Whisky," he replied.

"Where is it bound for?" he was asked.

"To Cuba," he responded, and to prove his statement he produced clearance papers from Canada.

He was allowed to proceed.

**SMOKY CITY GROWING**

Unparalleled Building Program Uses Available Labor.

PITTSBURGH—With an era of building activity such as this city has never seen, following closely on building trades tie-up, contractors are confronted with the serious problem of finding tradesmen sufficient to keep the present program under way.

It is estimated that by the end of the year no less than \$25,000,000 will have been spent in the erection of buildings, mainly office and apartment. One apartment will cost \$5,000,000, it is said. Mercantile structures are being built with similar rapidity.

**HAS UNIQUE RECORD**

Lieut. S. W. Service Has Served U. S. Sixty-five Years.

SHERIDAN, Wyo.—Lieutenant S. W. Service, 95, claims the unusual distinction of having been in the military service of the United States for a period of sixty-five years. With the exception of six months all of his service has been in the Army.

A further distinction of having been the first man in the United States Army to hold a commission in the veterinary corps goes to Sheridan.

Wyoming has seen fit to honor her aged veteran.

**Coal Firm Formed**

Chester A. McKamey, James E. Mullican and E. H. McKamey, all of Indianapolis, have incorporated the Central Coal Company for \$15,000. The company will sell coal and wood.

**Will Get Bridge Bids**

Bids will be received for the erection of ten bridges in the State Aug. 8 at 10 o'clock by the State highway commission.

**HERBS USED IN MEDICINES**

A Manchester, England, paper urges the renewed cultivation of old-fashioned medicinal herbs in English gardens. In the United States they have also gone out of fashion as a feature of the small garden, although they are imported in large quantities from Turkey, India and China, where they are grown purely for commercial purposes, as their medicinal value is recognized by many leading physicians.

Tons of medicinal herbs are used annually in the preparation of Lydia E. Pinkham's Vegetable Compound, a most successful medicine for women's ailments. It contains no narcotics or harmful drugs, and women afflicted with such ailments should try it.—Advertisement.

# Hospital Rules Often Displease Patients

By NORA KAY

Hospital life has its humorous phases, even though often it is hard to decide whether a case is amusing or just plain aggravating, according to Dr. Richard A. Poole, superintendent of the city hospital.

"For instance, there are the cases of foreigners. They can't understand what we are doing, and they always suspect the worst," said Dr. Poole.

**Thought Son Dead**

"One woman who couldn't understand English, brought her son to the hospital. We found he had scarlet fever and put him in the contagious ward.

"The next day, his mother came and was refused admission to the room. She concluded he was dead and set up such a wall that we finally had to move the patient's bed so that it could be seen from the door. If we hadn't done that I bet she'd have been waiting yet.

**Anti-Bath Patients.**

"Then there are the anti-bath patients. Once in a while we pick one up who looks as if he didn't know what the purposes of water and soap are. Of course, that may strike some people as funny, but it didn't seem that way to the orderly who had to give one of our recent patients his first bath.

**Allowed to Soak**

"He put him to soak for an hour or so, perfumed the water with our strongest disinfectant and re-enforced it with the most dirt-dissolving soap he could find. Then he took a big chew of tobacco to counteract the mingled odors and announced, 'I can go through it now.'

"Drug cases make trouble for us, too. We get them here who don't want to be cured, and their families try in every possible way to slip drugs in to them. They even try to conceal dope in innocent looking food.

**Doughnuts Not Palatable**

"And, speaking of food, it seems to be the idea among a lot of people that if a patient wants greasy doughnuts and the hospital won't feed them to him, it's because the hospital is opposed to making patients happy. Give them just what they want, seems to be the motto of the visiting relatives, and they think we are selfish because we insist on censoring the food they bring in.

**Booze Conditions Better**

"Things are much better now than they used to be in some lines of our work," Dr. Poole concluded optimistically. "It's been months since we have had a real case of D. T. in the ward that used to be full of such cases. Of course we get men in once

in a while who have ignored the 'poison' label and used denatured alcohol too freely, but all we have to do in a case like that is to pump them

out, give them a few days rest and they are back to normal again, ready to take another chance. And that's just what most of them do, too."

# MAIL SERVICE BY AIR SHOWS MARKED GAINS

One Year of Continuous Operation Without Single Death Is Record.

By United Press  
WASHINGTON—The Government Air Mail Service has completed a year's daily service without a single fatal accident. During this time planes flying on the New York to San Francisco route covered 7,750,000 miles. More than 49,000,000 letters, totaling 1,224,500 pounds, were transported by air.

Through every kind of weather, summer and winter, over mountains, deserts and forest, the postal planes flew, setting up a new record in the percentage of trips actually completed.

While routes totaling \$20 miles were discontinued during the last fiscal year and only the transcontinental route of 2,680 miles maintained, the air mail service nevertheless carried the same amount of mail as it did last year, or 23 per cent more in each airplane load.

Officials of the air mail service attributed the record of no fatal accident in a year to the fact that all their pilots now are experienced and tried and know the route. During the fiscal year ending June 30, 1921, seventeen persons died in accidents in the air mail service. Many of the fatalities occurred with the metal monoplanes which were abandoned. During the last fiscal year one pilot was killed, on July 18, 1921. No man has met death in the Government air mail service since then. In the last year on flyer has been in the hospital more than five days.

Great speed, possible by the use of the air mail, is shown by the fact that mail sent from New York has been delivered to San Francisco three days later.

# Pimples

The shame of a blemished face!

Oh! if I had only accepted Mother's advice and taken S. S. S.

Skin eruptions, pimples, blackheads, blotches, boils, etc., are outward appearances of the impurities which are in the blood.

S. S. S. will purify your blood. S. S. S. is the world's standard blood purifier and has been for over 50 years. Begin today to purify your blood by taking S. S. S. Any druggist can supply you.

S. S. S. makes you feel like yourself again.

# AWAIT A SUNNY DAY WHEN LODGE IS RE-ELECTED

Bay State Farmers, Republicans, Dislike Travel to Polls in the Rain.

By ROBERT J. BENDER, United News Staff Correspondent.  
WASHINGTON—While Massachusetts political leaders believe there is little likelihood of Senator Henry Cabot Lodge falling from his pinnacle in the November elections, they declare they'd be more certain if they knew what the weather would be.

Paradoxical as it might seem, a big rainfall in Massachusetts at the right time might defeat Lodge. Massachusetts, and in fact all New England, originated that political saying that "rainy weather is Democratic weather."

The reason for this is that a hundred Bay State political battles have demonstrated that the cities generally go Democratic, rain or shine, while the Republican majorities are piled up in the farm districts only in fair weather.

Massachusetts is actually a doubtful State—always is. It has now one Democratic and one Republican Senator. Lodge, in his last election, won by only a narrow margin over John J. Fitzgerald, his Democratic oppo-

# 'ARTHUR' FOOLED 'EM

Had a Bank Account But Had to Have It Changed.

A patron of the Marion County State Bank spoke to John L. Duvall, president of the bank, regarding the opening of a savings account for the new baby, Arthur. The account was opened in the name of the father as trustee for Arthur as is customary in such cases.

About ten days later the same bank patron again spoke to Mr. Duvall regarding the account he had opened.

"I wonder if I might change that name to Mary Margaret," the patron said, with a smile. The change was made.

# BUYS DIVORCE FOR MAN SHE DESIRES TO WED

Wealthy Widow in Petition for Revocation of Big Trust Bequest.

By United Press  
CHICAGO, July 19.—Mrs. Katherine Gordon Thorne, wealthy widow of the former vice president of Montgomery Ward & Co., bought and paid \$40,000 for the divorce of William C. "Billy" Camp so that she could marry him, Attorney Charles E. Erbestein charged before a master in chancery Tuesday.

Mrs. Thorne has petitioned for revocation of a \$350,000 trust fund established by her for Camp. Erbestein represents Camp in the hearing.

**Demands an Accounting**  
The wealthy widow charges that Camp induced her to provide a trust fund of 3,480 shares of Montgomery Ward & Co. stock, and demands an accounting of proceeds in the sale of 1,000 shares of the stock, which she claims he sold for \$90 a share, but told her he received \$70, and kept the balance.

Attorney Markheim, for Mrs. Thorne, characterized Camp as a "cold blooded Lothario of the bright lights who lured the widow of hundreds of thousands of dollars."

Attorney Erbestein charged that a trust fund had been settled on Camp's former wife by agents of Mrs. Thorne, and that the latter "chased Camp from town to town, wrote letters to him and proposed marriage to him in a public place before a crowd of people."

**Hearing on Rate Raise**  
A hearing on the petition of the Union Traction Company of Indiana for authority to charge 3 cents a mile within Indianapolis will be held before Oscar Ratts of the public service commission, July 31 at 10 o'clock.

**Thriller?** Sure! Isabel Ostrander's detective stories are real thrillers. Hop to "The Tattooed Arm" in the Times Thursday, July 20.

# FIRE DRILL AND SMOKE OF MANY CIGARS ENJOYED

Visitors at State Meeting of Firemen Are Thrilled by Exhibitions.

By NORA KAY  
All the thrills of a regular fire except the flames were put on for the benefit of the Indiana State Firemen's Association at the demonstration today in the drill yard at fire headquarters. There was considerable smoke, but only from the cigars of the visiting delegates.

The fire alarm was there, and the shiny red trucks and the 65-foot ladder and little nozzles and big nozzles and a lot of real water to go through them. One interested spectator from Chicago became so absorbed that he didn't notice the water being turned on until his new Palm Beach was generously sprinkled.

Battalion Chief H. H. Fulmer clanged into the drill yard in true business style and an interesting program was executed, ending with demonstrations of how to go up the sixty-five-foot ladder and down again in much less time than it takes a flapper to powder her nose.

# STRIKE BENEFITS NOT LIKELY NOW, OFFICIAL STATES

Some Shop Unions Weak, Others Strong—No Calls for Assistance Heard.

Strike benefits probably will not be declared by shop unions in the present walkout, a local union official said today.

Some crafts have treasuries which can stand heavy drains and others do not. In fairness to all the reserve funds may not be generally taxed. Cases of need among strikers will be dealt with individually, it was stated.

Thus far strikers do not need money, the official said. Some of them have taken employment in other trades and a majority have not used up their last pay.

An open meeting for women relatives of strikers and the public was held at 2 o'clock this afternoon at Machineists Hall.

Thriller? Sure! Isabel Ostrander's detective stories are real thrillers. Hop to "The Tattooed Arm" in the Times Thursday, July 20.

# TO DISCUSS COSTS Paving and Improvement Matters on Civic Association Program.

The Southeastern Civic Improvement Association will consider a report from a committee on extending membership and club activities at a meeting at the home of M. C. Churchill, 1850 Fletcher Ave., tomorrow evening. Plans for future development of the Fletcher Ave. and State St. playground and adjustment of street paving and resurfacing costs will be discussed.

# OLD ORDER GETS FRESH BLOW AT NEBRASKA POLLS

Primary Count Indicates One More Progressive Victory Over the Regulars.

By United Press  
LINCOLN, Neb., July 19.—Early returns today indicate another progressive victory over the regular Republicans at the Nebraska primaries.

R. B. Howell, Progressive Republican candidate for the Senate, is leading Congressman A. W. Jeffries, who made his race on the Harding Administration record.

The Republican gubernatorial race between C. H. Randall and Adam McMullen is close.

Senator Gilbert M. Hitchcock was renominated by the Democrats by a large majority.

Dan Butler, Democrat, for Governor, leads, closely trailed by I. N. Norton and C. W. Bryan, a brother of the "Commoner."

# ICE MEN DISCHARGED

Three Individuals in Trust Case Released.

Three of the men involved in the "ice trust" case were discharged as individuals by Judge W. H. Eichhorn.

They are Stanley Wyckoff, secretary of the Indiana Ice Dealers' Association; John S. Kittle of the City Ice and Coal Company, and Henry L. Dittmer, of the South Side Ice and Coal Company.

The court found they had nothing to do as individuals with the combination in restraint of trade and competition. Their discharge does not apply to the defendant companies, the court pointed out.

The final finding in the case will be announced Saturday.

# Will Address Advertisers

"Advantages to an Ad Man of Increasing His Circle of Acquaintance," will be the subject of an address by O. E. Haring of the E. W. Steinhart Company at the regular weekly meeting of the Advertising Club at the Chamber of Commerce Building at 12:15 o'clock tomorrow.

# New K. of C. Addition

Knights of Columbus today were granted a permit for a 75x119 foot two-story brick and concrete addition to their home at Thirtieth and Delaware Sts. The cost will \$85,000.

# RAILROAD MEN ESCAPE DEATH IN YARDS' FIRE

Early Morning Blaze Destroys Four Bunk Cars Owned by Pennsylvania.

Ten men had a narrow escape from death by being trapped when fire, early today, destroyed four bunk cars in the Hawthorne yards, Pennsylvania Railroad. The cars were near a roundhouse, half mile west of Emerson Ave.

The loss is estimated at about \$10,000. Firemen said the fire was caused by defective wiring. Railroad men declared it started near a water heater in one of the cars.

The alarm was received at 1:20 a. m. When the fire department arrived the flames had gained such headway four coaches were destroyed. The firemen prevented the flames from reaching two others.

The two coaches not destroyed were the diner and wash car. The cars destroyed were old wooden passenger coaches with seats removed and in which bunks had been placed.

The cars were used by men employed on the St. Louis division and were used by the Jacobson Commissary Company.

# MARRIED IN SECRET

Miss Morris Becomes Mrs. Anderson in Shelbyville Ceremony.

Marriage of Miss Mary Gertrude Morris, 2166 Barth Ave., to Frank Anderson, Philadelphia, Pa., was announced today. The wedding was celebrated secretly in Shelbyville Saturday. They will reside in this city after Aug. 1.

Miss Morris is a stenographer in the city engineering inspection department.

# Brooklyn Man Is Held

John R. Morgan, Brooklyn, was arrested when he went to police headquarters to report a poolroom fight. He was charged with assault and battery and operating an automobile while under influence of liquor.

# Lieber Coming Home

Richard Lieber, head of the department of conservation, who has been abroad for three months, is expected to return next week. Mrs. Lieber will meet him in New York and return with him by way of Washington.

# Furnas Ice Cream

The Cream of Quality.

ICE CREAM—Good, wholesome ICE CREAM. What is better for you these hot summer days?

Furnas Ice Cream is the added touch of good taste to your picnic, auto trip or party. Its purity makes it the ideal summer food and dessert.

Sold by the leading druggists and confectioners.
