

SENATORS PLAN TERMINATION OF PENDING STRIKES

Coal and Rail Tie-ups Discussed
at Conference With
Samuel Gompers.

WANT TO KNOW BOTH SIDES

Suggestion Made That Workers
and Employes Be Called Into
Discussion Together.

By United Press
WASHINGTON, July 19.—A congressional plan is under discussion for settlement of both rail and coal strikes.

Senators Borah, King and Walsh of Massachusetts discussed the matter today with President Gompers of the American Federation of Labor. King has a definite plan, but is keeping it secret for the present. Later he is likely to submit it to President Harding.

Senator Walsh, who has been investigating the strikes independently, said that, as a result of the conference, the railroad and mine managements may be invited to join in a discussion with the workers.

"We want to hear both sides," Walsh added.

Senator Cummins, chairman of the Senate interstate commerce committee, also announced today that he will take up with his fellow committeemen soon a proposal to amend the transportation law so as to provide for a "living wage," to be definitely defined.

MONUMENT TO COMMEMORATE ARMISTICE SPOT

Fourth Anniversary of Event in
Compiègne Forest Will
Be Marked.

By United Press
PARIS, July 20.—Plans have been completed for the erection of a monument to commemorate the signature of the armistice in the forest of Compiègne, on Nov. 11 next, the fourth anniversary of the historic event. It will mark the spot where the German delegates admitted defeat and told Foch they had come to beg for peace.

The preparatory work is in charge of a committee of the League of Veterans, with Premier Poincaré as honorary president. At present the spot where the armistice was signed is marked only by two inscriptions on pieces of wood nailed to trees, one indicating the place where Foch's train stopped, the other where the German plenipotentiaries stepped from their train.

It is proposed to erect in the center of the clearing a tombstone similar to that under which France's "Unknown Soldier" reposes under the Arc de Triomphe, the idea of the committee being that the spot is memorable chiefly because there German imperialism was buried. On the stone will be an inscription, of which is a translation:

"HERE
ON NOV. 11, 1918,
PERISHED
THE CRIMINAL PRIDE
OF
THE GERMAN EMPIRE
VANQUISHED
BY THE FREE PEOPLES
IT TRIED TO ENSLAVE."
Marble plaques will mark the exact spot where Marshal Foch and the Germans stood.

Easiest Way to Remove Ugly Hairy Growths

(Beauty Culture)

Here is a method for removing hair from arms, neck or face that is un-falling and is quite inexpensive: Mix a thick paste with some powdered delatone and water and spread on hairy surface. After two or three minutes rub it off, wash the skin and every trace of hair has vanished. No harm or inconvenience results from this treatment, but be careful to get genuine delatone and mix fresh as wanted.—Advertisement.

PIMPLES ON CHILD'S FACE

Body and Scalp. Itched
Badly. Cuticura Heals.

"My grandchild's face, body and scalp were covered with a breaking out of pimples. They itched and burned so badly that he scratched and irritated the affected parts. He was cross and fretful and could hardly sleep, and his face was disfigured.

"I began using Cuticura Soap and Ointment which helped him, and after using one cake of Cuticura Soap and two boxes of Cuticura Ointment he was healed." (Signed) Mrs. A. Marshall, Blodgett, Mo.

Wolverine Most Generally Hater of All Animals

By PROF. M. J. ELROD,
Chair of Biology, University of Montana.
This Indian devil, an unlovable, sullen, shrewd, filthy and disgusting animal, is thoroughly despised and hated by all trappers and travelers who have in any way made its acquaintance.

From northern United States to the

limit of woodland northward, and even far beyond, this robber and thief craftily avoids traps and baits, pursues the secreted food of lynxes, martens, weasels and foxes, and lives more by its craftiness and heavy strength than by agility.

No amount of clever hiding will avail man or beast if a wolverine is in the neighborhood. Stefansson records that both himself and the Eskimo had no recourse except to build

a high platform which the glutton could not reach, or to cover with boulders or blocks of ice so heavy it could not move them. Even then the caches were frequently robbed, by what strange power could not be determined.

Rarely is the wolverine seen by man. Two and a half feet long, bear-like, black faced, shaggy haired, heavy, walking on the soles of the feet, it sneaks through the woods or across the tundra and ice, robbing man, stealing from his fur-coated, four-footed fellow hunters, invading the dens of foxes and eating the cubs, digging out mice and lemmings, robbing bird nests, killing and eating reptiles, feeding on insects, and skulking through swamp, among woods, across ice and prairie, ever alert to get an easy meal without extra exertion.

When fortune favors and an extra supply of food is on hand this repulsive animal buries the remainder, and so defiles the snow with his disgusting odor that it is said no other animal will touch it, even though hunger pangs may be very great.

The one recorded redeemable trait is given to the female. The mother shows much affection for her five or six little young ones, and will fearlessly attack man or beast that threatens their safety.

'BE PAL TO SON'

G. H. Shideler of State Reformatory Advises Fathers.

"If modern fathers would spend less time chasing the almighty dollar and more in companionship with their sons, the reform schools and penitentiaries of the country would not be half so crowded," said G. H. Shideler, superintendent of the State reformatory at Jeffersonville, today.

"Be a pal to your son and you will need have no fear for his future," Mr. Shideler advises fathers.
