### REPORT EXAGGERATED

Dry Leader Says Atlantic City Is Not as Wet as Rumor Tells It.

By United Press  
WASHINGTON, Aug. 1.—Reports of a "wide open" Atlantic City are exaggerated, E. S. Henson, leader of the "dry" moppers-up, informed Prohibition Commissioner Haynes Monday. Furthermore, Henson declared, the places professing to sell beer with a "kick" in reality are merely passing over the bar the less than one-half of 1 per cent variety.

### KENTUCKY COAL LEADS WAY IN PRICE BOOSTING

Government Will Test Its Plan  
Soon for Curbing  
Profiteering.

By ROBERT J. BENDER,  
United Press Staff Correspondent.  
WASHINGTON, Aug. 1.—The efficacy of Secretary Hoover's coal distribution plan against profiteering soon will be tested in the non-union fields of western Kentucky and its outcome may influence against continuance of the strike.

The western Kentucky district operators did not enter into the price agreement with Hoover. As a result, where a majority of the spot market coal is priced at \$3.25 per ton fixed by Hoover, prices at the mine reached \$11.50 a week ago. Eastern coal is on the heels of Kentucky prices. The average spot price a week ago was nearly \$2 a ton higher than for the week previous.

Operators themselves are beginning to register bitterness against the profiteers within their ranks. Hoover has stressed the necessity of curbing profiteering with a panicky buying public. He will see that coal cars are not provided those operators who do.

It will be necessary, Secretary Hoover says, for Federal control of coal distribution to continue for two or three months after the strike ends as the coal shortage will continue for many weeks.

There will still be a serious car problem in the producing fields and the tendency toward profiteering will be as strong as ever.

### THRILLS VARY TRIP

Passengers See Whale, Meteor and Electrical Storm on Voyage.

NEW YORK.—When the Scandinavian-American liner Fredrik VIII arrived at her pier in Hoboken from Copenhagen and Christiania her passengers said the voyage had been far from monotonous.

According to Captain Frederik Mehlendorf, the electric storm followed a display of lightning which illuminated the sky for three hours. The rain fell in buckets, to use the nautical phrase, and the thunder crashed so heavily most of the first cabin passengers remained in the public rooms and gazed at the storm. Sensen, the ship's cat, became greatly excited and rushed to the after end of the deck and mewed fiercely at the storm—defying it, the quartermaster said.

Before the storm had ceased, the captain said, a fiery mass was seen to fall from the sky and strike the ocean about 400 feet away on the starboard side, sending a column of water 100 feet into the air. A whale was passed in mid-Atlantic in full daylight so that many passengers were able to take snapshots of it.

## FRENCH DEMANDS ON GERMANY MAY DEVELOP CRISIS

Refusal to Grant Lateral Requests for Indemnity  
Creates Stir.

By United Press  
BERLIN, Aug. 1.—With the refusal of Germany to grant the latest French demands in connection with the payment of war indemnities, the Franco-German situation is expected to come to a head.

The German reply said the French demands cannot be fulfilled, and criticized the course of France in acting independently of the allies.

The situation developed as an outgrowth of Germany's request for a reduction of payments in compensation for private property claims. The French reply was severe in tone, and threatened penalties. The German note said the request was addressed to all the allies, and there is no reason to meet the French demands alone.

Apparently the cabinet is relying on help from Great Britain and Italy.

Bourse Is Pessimistic  
Gossip on the bourse indicated there would be no surprise if the mark descended to a thousand for a dollar. The international difficulties have reacted generally on business. Department stores hiked textile prices. Prices of food and other commodities increased tremendously.

Officials are inclined to believe the panicky reaction may influence the allies to the advantage of Germany.

## WOULD DISPENSE WITH BIG SALARY

Jay A. Craven Declares \$18,000 Man on New Plant  
Unjustified.

Charles H. Hurd, who draws \$18,000 a year as consultant for the sanitary board in construction of the city sewage disposal plant, will not be permitted to plan and supervise the proposed garbage reduction plant at Sellers Farm, President Jay A. Craven of the board said today.

If Hurd was put on the garbage plant job his connection with the board would be prolonged a month or two, Craven said. His \$18,000 salary also would be prolonged.

Commissioner Lucius B. Swift is said to favor retention of Hurd. In reply to reports that West Indianapolis citizens will oppose the new garbage plant Craven said:

"If they are going to oppose it why will they drop it and let them carry along with the present objectionable plant. The new plant will be odorless and it was with the idea of relieving West Indianapolis we planned it."

## POLITICAL FATE OF REED DEPENDS ON STATE BALLOT

Missouri Senator Awaits Result of His Contest With Wilsonites.

### 'O. G.' HAS NO CANDIDATE

R. R. Brewster Comes Nearest Being Choice of G. O. P. Reactionaries.

### PRIMARIES

By United Press  
Five States today were voting at primary elections and in three red-hot contests over United States Senatorships were being decided. In Missouri, Virginia and West Virginia the seats now occupied by Senators Reed, Swanson, Democrats, and Sutherland, Republicans, were being sought by other members of their parties. In Kansas and Oklahoma almost equally interesting struggles were being waged over House seats and State offices.

By United Press  
ST. LOUIS, Mo., Aug. 1.—The political fate of Senator James A. Reed, long a figure in Democratic national politics, was at stake today as Missouri voters went to the polls to select nominees in the State-wide primary election.

Breckenridge Long, former assistant secretary of State during Wilson's administration, and Robert Young of St. Joseph, are Reed's opponents.

Throughout the campaign Long has enjoyed the indirect, at least, support of former President Woodrow Wilson. The names of seven aspirants for the Republican senatorial nomination appear strictly regarded as the "old guard" candidate, R. R. Brewster, Brewster, Kansas City attorney, comes nearest to earning that title.

### COAL SHORTAGE FELT

Duluth and Superior Docks Have Only One of Usual Millions of Tons.

By United Press  
DULUTH, Minn., Aug. 1.—The docks at Duluth and Superior, where mountains of coal usually are growing at this season, are virtually bare.

Ordinarily there would be 9,000,000 tons of coal or more at the head or the lakes by Aug. 1. Today there is said to be less than 1,000,000 tons and coal storage in the cities to be supplied is estimated to be not more than 2,000,000 tons.

The total shortage is estimated at between 6,000,000 and 7,000,000 tons.

## GERMAN FINANCE LEADER RESENTS ALLIES' ATTITUDE

Minister Hermes Says Nations Fail to Understand Real Financial Situation.

By United Press  
BERLIN, Aug. 1.—Resentment at the allies' attitude toward Germany, particularly France, was expressed by Finance Minister Hermes in an exclusive interview with the United News.

"Germany is bound hand and foot," Minister Hermes said. "Many people do not yet understand the real situation. It is very easy to say no, but it is more useful for us to co-ordinate our policy with our means of resistance."

"This does not involve surrendering our own will. On the contrary, we want to be respected as an independent nation and the time may come when we will have to say: 'So far and no further.'"

The moment may come very soon, he added, although Germany will first seek to prove the reparations burden imposed by the allies is unbearable.

"We have proved the London ultimatum as well as the Carnegie agreement is impossible of fulfillment," the German finance minister continued. "Certain of the allied governments say they want to examine our real situation. This is not humiliating. It is business-like. We have nothing to hide. Let them come and see."

"But my three unalterable conditions are, first, hands off the German sovereignty; second, no impediments to our administration of our own affairs, third, no interference with our private tax secrets."

"Should any of these conditions be infringed upon, I would declare most energetically. The utmost limits of our good will have been passed," but if we want a practical policy, we can not refuse any measures therewith which are compatible with our honor."
