New \$50,000 Structure of St. Catherine of Sienna Church Completed.

IS MODERN THROUGHOUT

Congregation Now Registers 225 Families—Shows Big Growth.

St. Catherine of Sienna Catholic Church, Shelby and Kelley Sts., will dedicate its new \$50,000 parochial school and residence for the teachers at 4 p. m. Sunday.

The congregation at that time will realize its dream of thirteen years. In 1909, the present combination church and school was erected and dedicated for a small number of families.

In developing the church, a men's fraternal benevolent society was organized to keep the men together. A young people's club has been organized and this has been a valuable medium in obtaining church support.

At present the register shows a church membership of 225 families at St. Catherine's. The new building is modern.

The parade will start at 2:45 o'clock and arrive at the church at 3:45 o'clock. The services will be held in the church at 4.

# Dramatics Figure Prominently in Church Life of Indianapolis

By THE VISITOR  
Dramatics today figures prominently in the social and educational life of the young people of Indianapolis churches.

The Epworth League of the Methodist churches of the city have been among the leaders in developing the dramatic and comedy talents of the young people.

All the new churches of the city include in its building plans an auditorium and stage where plays may be presented.

Miss Gladys Hatch, who is active in dramatics at the Heath Memorial M. E. Church, states the position as follows:

Religion Has Progressed

"Running neck and neck with athletics, dramatics are taking a prominent part in church activities of today. Several years ago it would have been thought a crime to even see an innocent specimen of home talent or any other kind of talent for that matter, moreover connect it with a church organization. But religion has progressed just the same as science, art, music, and many other things we consider necessities today. There are so many forms of amusement that are injurious to the young folk of today, yet youth will follow them for want of cleaner employment of their time. The churches saw this necessity for the uplifting of youthful amusement and came to the rescue.

with church athletics and dramatics. "The home talent is very highly praised by all who are interested in this kind of work, and it well deserves the credit given it. "Not only do the actors gain by this clean dramatic work but also it is very educational for the audiences, since only the best kind of plays are chosen to be represented in the churches. It is a form of amusement to which no one can object. "One church, for instance, has a play of some kind in preparation practically all of the time. This church netted considerable amount of money for its building fund. The actors have gained educational and mental development, the audience has enjoyed clean amusement and received a certain amount of educational development also, and the church has gained financially," she states.

Heath Memorial Methodist Church, Commerce and Windsor Sts., has taken a lead in dramatics for some time. They have just finished one of the finest productions of the year, "The Early Bird," which was presented Thursday evening, Aug. 31. Mrs. Bertha Pellam, the director of the Heath productions, is very talented and has had much experience in this kind of dramatics.

What is true at Heath church is true with many other of the leading churches of the city.

per cent of the Nation's retail business and more than ninety per cent of the Nation's wholesale business is done by check. Our banks carry an enormous number of accounts with average balance of less than \$500. A bank account for the home is as common as a talking machine in the home.

We get the banking habit early. We learn the proper way to write checks, their proper indorsement, and to compute our balances as soon as we get our first jobs and earn our first money. Sometimes certain individuals acquire too great fluency in check writing and it becomes the duty of the law to administer a forcible education on the wisdom of writing checks only when funds to meet them are in the bank.

The other day a customer appeared at the window and demanded angrily why payment had been refused on a certain check he had issued. His account was good for four times the amount. The signature on the check was compared with that on his signature card in the paying teller's cage. There was considerable dissimilarity and the customer vouchsafed that he had written the check on his knee while seated in his automobile. He was surprised at the care the bank takes in guarding signatures. That is one way the bank watches its customer's interests.

HER AILMENTS ALL GONE NOW

Mrs. Sherman Helped by Lydia E. Pinkham's Vegetable Compound

Lake, Michigan.—"About one year ago I suffered with irregularities and a weakness and at times was obliged to stay off my feet. I doctored with our family physician and he finally said he could not understand my case, so I decided to try Lydia E. Pinkham's Vegetable Compound. After I had taken the first bottle I could see that I was getting better. I took several bottles of the Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and I am entirely cured of my ailments. You may publish this letter if you wish."

Mrs. M. SHERMAN, Route 2, Lake, Mich. There is one fact women should consider and that is this. Women suffer from irregularities and various forms of weakness. They try this and that doctor, as well as different medicines. Finally they take Lydia E. Pinkham's Compound, and Mrs. Sherman's experience is simply another case showing its merit.

If your family physician fails to help you and the same old troubles persist, why isn't it reasonable to try Lydia E. Pinkham's Compound?

It is here that what was referred to as our "banking habit," manifests itself. Statisticians working for a congressional money and banking committee have estimated that more than sixty
