Returned as Principal  
of School 13.

Shortage of funds of the school city to pay the salaries of teachers caused the authorization of a temporary loan of \$300,000 by the Indianapolis board of school commissioners last night. Interest not to exceed 6 per cent paid on the loan.

A delegation from the Mothers Club of school No. 13, Buchanan and Noble Sts., presented to the board a petition bearing 150 signatures asking that Miss Cora Taflinger be returned in the place of Miss Ada Riker, now serving as principal. Members of the delegation pointed out that it was not especial dissatisfaction with the present principal as much as a desire for Miss Taflinger's return that caused them to present the petition.

## MAYORS ORGANIZE TO INQUIRE INTO UTILITY RATES

Indiana Executives May Form  
Body Similar to 'Indiana  
Municipal League.'

### OPPOSE BELL BOOSTS

Interest Centers in Friction Be-  
tween Phone Company and  
Service Commission.

Mayors of Indiana cities served by the Bell Telephone system have stepped into the line of battle against increased rates and have joined the ranks of the public service commission to contest with the Bell company its proposed rate increases throughout the State.

Tentative plans made public today indicate efforts will be made by the city officials to form an organization for concerted action, much as the "Indiana Municipal League" once did.

### Increase Is Granted

At the instigation of Dr. John C. Quick, mayor of Muncie, a number of mayors met here about six weeks ago and formed the nucleus of an organization. Since the public service commission granted a rehearing of the Muncie telephone rate case, in which an increase previously had been granted and denied an increase in the Indianapolis area and for toll rates.

The support of the mayors of the cities affected is welcomed by the commission as an indication that the public generally is appreciating its efforts to keep down increases, commission members said. Other committees,

among which will be included the "lobbying committee" to protect towns and cities during sessions of the State Legislature, probably will be formed.

### DECISION WITHHELD

Additional time was wanted for the presentation of evidence for the railroads.
