

FIGHT ON BUDGET FAILS TO AFFECT PARTY DIVISIONS

G. O. P. Victory on Reformatory Gives Democrats Material for Campaigns.

Party lines in the Legislature remained intact today, having survived the test of strength to which they were submitted in the division over the \$16,000,000 appropriation bill in the House late Tuesday.

The Republicans found the bill to their liking, including the \$2,000,000 appropriation asked by Governor McCray to be applied to the construction of the new reformatory at Pendleton.

Democrats found themselves in a position to continue shooting at the Republicans in campaigns on the grounds of extravagance.

Both Celebrate

Consequently, both sides are celebrating. Only one member of the House failed to stay in line.

Myron Post of Anderson, Democrat, voted with the Republicans against the amendment to reduce the Reformatory appropriation. He voted with the Democrats in every other instance. Post represents the county in which the Reformatory is being constructed.

When the smoke cleared away it was found the appropriation bill as submitted by the Budget Committee had not been changed materially. The net result was a reduction of approximately \$165,000 in the \$16,000,000 total.

Governor's Fund Cut

Here are the principal changes: Provision made for payment of a number of small bills, totaling approximately \$3,000.

Governor's emergency and contingent fund reduced from \$500,000 to \$300,000.

Appropriation for the industrial board reduced from \$100,000 to \$30,000. Provision made to maintain the historical commission instead of making it part of the State library. Appropriation increased \$10,000.

No Greenhouse

Appropriation of \$5,000 for a greenhouse for the Soldiers' Home eliminated.

An additional \$10,000 made for the reformatory parole department.

Fish and game division of the conservation department allowed to keep its fees instead of being allowed an appropriation of \$100,000. This is an indefinite increase in the appropriation.

Appropriation of the board of medical registration and examination increased \$2,000.

Appropriation of the board for the industrial aid of the blind increased \$15,000.

In a Sale of Manifest Great Importance

Famed Makes of Fine Qualities
Being Chosen for a Clearance

OUR only fear in announcing this sale is that women will not believe their eyes when they read the headlines, and that having read, will still be unable to believe that really smart, really fine corsets could be sold at such a ridiculously low figure. These are the makes:

Lily of France, Gossard, La Vida,
Stylish Stout, Frolaset, B & J

THE size range is from 21 to 36, but every style or every make can not be had in every size. Materials are those soft brocades and beautiful coutils found only in far more costly corsets. Without a doubt, the most impressive value we have ever offered.

At 25c—BRASSIERES—At 50c

THESE two insignificant prices are chosen because they represent the quality of brassieres selling ordinarily at decidedly higher prices. Priced low now to clear stocks. All sizes. —Ayres—Corset dept., third floor.

Does Your

Your Sickness?

The mouth harbors many varieties of bacteria which are constantly taken into the stomach. Through the air we breathe and the food we eat come the only infections of the body not introduced beneath the skin by deliberate injection or injury.

Instances have multiplied rapidly in the last few years proving that rheumatism and diseases of middle age are in many cases due to diseased teeth.

All doubt as to your ability to extract teeth without pain has been dispelled. I will surely recommend you to my friends.
