

LABOR OPPOSES AGE PENSIONS AS NOW PROPOSED

Contention Is That 'Doles' Would Rob Workers of Initiative.

WASHINGTON, Feb. 15.—The contention that "such doles would rob the workers of initiative" and the will to make their old age secure from poverty.

Pensions under the proposed measures would range from \$25 monthly to citizens over 60 in Texas to \$1 per day to citizens over 70 years old in Pennsylvania.

Opposition is based on the contention that the American Federation of Labor is quietly organizing opposition to old age legislation proposed in Illinois, Pennsylvania, Texas, Colorado, Wisconsin and other States.

To qualify for pension the applicant must show ten years or more of useful service to the State in which he applies for such aid and prove poverty.

While the federation of labor is opposed to the principle of the proposals, it nevertheless realizes the strong appeal it has to many workers.

Mike Was Mike Until 'He' Became a Mother

By WALTER D. HICKMAN
MICHAEL, just a plain dog, appeared with Laurette Taylor during the lengthy run on the stage of "Peg O' My Heart."

"Peg" called the dog "Mike" and he was catalogued as belonging to the masculine gender.

Mike kept the secret for years until some time ago Mike became a proud mother.

This happened shortly before Miss Taylor started to the western coast to make a screen version of "Peg O' My Heart."

All Miss Taylor could do was to bundle Mike and the puppies in a basket and cart the whole family to the Pacific coast.

Michael made "his" appearance in the movie and no one would have suspected that Mike was leading a double life until Miss Taylor permitted the world to know the truth.
