### "PUTTING NEW LIFE IN ME"

Mr. W. H. Pennington, Wharton, Ark., writes: "I am taking Cadomene tablets and they are putting new life in me. I had a bad case of the grip last winter, and my physician's prescription did me no good. I saw that Cadomene was recommended for cases like mine and I sent twenty miles to get them. Now, after using only one week, I am gaining strength, eating with relish, and sleeping like a baby, etc."

Cadomene should be taken by any one who has symptoms of impoverished blood and weak nerves, like the following: Nervousness, sleeplessness, irritability, weakness, nervous indigestion, headache, backache, trembling at slightest mental excitement or physical exertion, cold extremities, uneasiness for worry or fear, lack of energy and "high spirits." Cadomene supplies iron and phosphorus with other tonics that build up blood and nerve force. Take them and see how quickly they bring astonishing benefit to your poor "frazzled" nervous system. All good druggists sell them. Ask for Cad-o-mene tablets. Goldsmith's Drug Co.—Advertisement.

### Margaret's Business Career

By Lula Lufkin

Margaret Bailem was considered one of the most capable of the staff of the great manufacturing plant. She always kept in touch with affairs, knew just where to find important papers, was conversant with the business on all points and her Chief depended on her to such an extent that he felt free to spend many hours at golf and the club, knowing that he left everything in as capable hands as his own.

Margaret was a young widow. Her husband had suddenly died of the "flu" and she worked as a stenographer in a big auto plant. For two years she steadily improved her salary was raised and her knowledge that she was making good was a source of happiness, until the time came that she found herself losing interest in her work, going home all tired out, unable to devote any time to her boy, refusing to eat the appetizing meals prepared by Dr. Dinh. She was beginning to be discouraged, even thought of resigning her position, of taking a leave of absence, and in addition to her failing strength, Margaret, who was a very pretty young woman, noticed that her complexion was losing its fresh red color and smoothness. Nearby lived old Dr. Scott, who believed Nature's healing power to be found in the roots and plants of the fields and forests. He was like a father to her, having known her from a child. When she had stated her case, he said: "My dear child, your manly is most indigestion. You need a stomach and blood tonic."

"If the blood is not pure, you will be dull, heavy and drowsy, the brain

suffers as well as the stomach, your 'pep' is gone and with it the desire and ability to do your work well. I will prescribe an old and tried remedy, made of roots and herbs, which I know to be pure as I have analyzed it. It is Dr. Pierce's Golden Medical Discovery."

Margaret lost no time in following his advice and was gradually restored to health and strength and enjoyed her leisure hours with her boy as of yore.

Many in this state have reported equally beneficial results. Here is one: Vincennes, Ind.—"I have taken Dr. Pierce's Golden Medical Discovery to build up my general health when I was in a weak, rundown condition and it soon built up my health and I gained back my lost strength in a very short time. I can highly recommend the 'Discovery' as a general health restorer."—Mrs. Mary E. Vickie, 826 Upper 1st St.

On sale by all druggists or send 10c for trial sample to Dr. Pierce's Invalids' Hotel, 665 Main St., Buffalo, N. Y.—Advertisement.

"I am sixty years old, but Tanlac fixed me up so fine I feel like I could beat many a younger fellow in a foot race," declared Herman Schultz, construction worker, of 468 Freedland Ave., West Hammond, Ill.

"Stomach trouble, nervousness and a badly run-down condition had me so played out I could hardly keep going. I lost weight, kept getting weaker, and my nerves were so maddened I was afraid I would fall when climbing around on buildings. Indigestion, gas and heartburn kept me in misery, and there was such an awful pain in my back that when I bent over it felt like my back would break."

"I thought it impossible for Tanlac to do what it did for me, but the way it ended my troubles settled that question. I gained fifteen pounds, have a fine digestion and never felt better. My wife took Tanlac after she was all run-down by the flu, and she is also enjoying fine health. I am Tanlac's friend for life."
