

# OFFICIALS DISCREDITED OF EGGS BELIEVED ACTIVE IN STATE

Officials Discredit Theory  
That One Gang Is Responsible.

The recent outbreak of postoffice robberies in Indiana was not the work of any one gang, was the belief expressed by postoffice inspectors today. During the past month postoffices at Warsaw, Connersville, Bedford, Columbus and Madison were entered and the safes cracked.

Acetylene torches were used to crack the safes in all instances except Warsaw, they said. Dynamite was used there.

However there was a wide difference in the workmanship at the different places. At Bedford the most skillful job of safe cracking was done. A small hole was cut in the safe door with acetylene is exactly the proper place. In other instances holes large enough to crawl through were cut.
