

## PROTEST ENTERED ON APPRAISAL OF PLAZA PROPERTY

Sum Called Both Too High  
and Too Low—Dates  
Set for Hearing.

June 4-6 have been set by Judge H. O. Chamberlain of Circuit Court as dates for arguments on reasons why an appraisal of \$18,225 on the Delano-Cambridge Apartments, 15-17 E. Michigan St., is too high and too low.

County commissioners say that is too much to pay for the property, which must be razed for the war memorial plaza.

The Delano-Cambridge Realty Company, owner, protests that it is not enough.

**Martindale Paid**  
The price was fixed by an appraisal committee appointed by the court when the county started to exercise the right of eminent domain to get four pieces of property in the block north of University Park which it will donate to the memorial.

The county Tuesday paid Charles Martindale \$202,887 for the property at 425-27-29 N. Meridian St., another of the condemned pieces of property. It was the price fixed by Circuit Court appraisers.

**Increase Sought**  
The Democratic Club will ask for an increase in the court's appraisal of its property, 22 E. Vermont St. It was valued at \$99,776.87, to which commissioners did not object.

Both county and heirs of W. J. Holliday, owners of the corner at N. Meridian and E. Michigan Sts., an-

## Shortest Railroad Makes Money, Report Indicates

The author of "On a Slow Train Through Arkansas" would not lack for material had he been able to peruse an annual report of the Huntington-Ferdinand Railroad in Dubois County, filed today with the public service commission. With its six and a half miles, it is said to be the shortest road in the State.

The total investment represents less than \$70,000 and the commission

nounced they were satisfied with an appraisal of \$231,500.

No arrangements have been started to acquire the two churches located in the block.

### LOCK PREVENTS THEFT

**Thief Deserts Car When It Fails to Steer.**

A locked steering wheel is the reason that James E. Manley, 5105 Washington Blvd., still has his automobile today. Special Policeman Diener, of the Palace Theater, saw a man stop an automobile in the safety zone at Pennsylvania and Ohio Sts., at 10:45 p. m. Tuesday, and then jump from the car and run. Motor Policemen Fisher and Schulz, investigated and found the car had been stolen from a parking space near where it was deserted by the thief, who left the car in a safety zone when he discovered the steering wheel was locked. Manley appeared and claimed his automobile while the police were investigating.

**Smoke Conference Saturday**  
Prof. C. W. Cole, head of the steam engineering department of Purdue University, is chairman of a committee of five appointed by the American Society of Mechanical Engineers to confer with Francis F. Hamilton, building commissioner, regarding a smoke ordinance, Saturday at the Chamber of Commerce.

## 'I JUST BOUGHT IT, MISTER COP'

Thefts From Bicycle Shop In-  
volve Many Boys.

Bicycle saddles, oil, a dozen boys in southeast Indianapolis and police were mixed up today in an effort to solve thefts from a bicycle store of Kelson & Kelson, 754 Virginia Ave.

Saddles were sold for cash, on the installment plan or "ridden out" on bicycles, police charged, as they went from house to house to find a boy who could tell them of the theft. In every case police were referred to another boy more or less involved.

Finally, evidence centered on one boy, who finally admitted he took one of the saddles. The oil was found near his home. All the boys will have a chance to explain in juvenile court.

## Hamil Relates Facts About Wife's Troubles

**Declares She Was Wasting  
Away After Flu At-  
tack, and Nerves Were  
On Edge. Tanlac Re-  
stored Her Fully, He  
States.**

"The Tanlac treatment has meant so much to my wife that we will always praise it," recently said John Hamil, of 654 Third Ave., Terre Haute, Ind.

"For six weeks, she was in the hospital with influenza, and it left her terribly weak and run-down. Her appetite was gone, and she got such

little nourishment from her food that she kept losing weight. Her nerves were unstrung, and she couldn't sleep restfully at all. For months she was in this condition and it was only when she got Tanlac that she finally recovered her health.

"The Tanlac treatment has done its work so thoroughly that she is eating hearty at every meal, has regained her weight and sleeps like a child at night. In fact, she is strong and healthy in every way, and we both think the world of Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.—Adv.

# The Value of Personal Contact

**P**ERSONAL contact is essential to the growth of complete understanding.

When business operations and business organizations were small, the employer could know his employees personally and the merchant could know his customers. All had the advantage that comes from the intimacy of close, personal acquaintanceship. Misunderstandings were easily adjusted. Every man knew every other man as a citizen and as a friend and there was no suspicion of motives.

Today, when big enterprise is the order of business; when large accumulations of capital are essential to the accomplishment of undertakings of real value to the public, the several groups are denied the advantage of this personal contact.

Recognizing this handicap, the management of the Standard Oil Company (Indiana) has established a system of direct personal contact with the great body of employees and through them, with the public.

The management maintains close, personal relations with the employees through the Department of Industrial Relations, where the employer and employee get together on common ground to discuss and settle, in friendly conference, questions of mutual interest.

To promote still closer relationship, the Board of Directors, as a body, make frequent visits to refineries and to the field, where they meet and confer with the great body of employees.

The value of this personal contact is reflected in the harmonious relations which exist between the Company and the earnest, loyal, hard-working employees, who thriftyly invest their savings in the Company's business and who have added interest in seeing that the Company's customers get efficient service.
