

## CITY WILL BOOST WAGES OF LABOR 10 TO 15 PER CENT

Conferences This Week Will  
Adjust Pay Scale for Municipal Employees.

City employees, including labor, working in the street commissioner's, city engineering and the street cleaning departments and the municipal asphalt plant for less than \$1,500 a year are to be given a general wage increase ranging from 10 to 15 per cent.

Heads of the above departments, a council committee and City Controller Joseph L. Hogue met Tuesday night to discuss wage adjustments. According to Hogue, the committee agreed on the raise for the low-paid employees.

Another conference is to be held tonight, where other departments under the board of works will be under consideration. Wages of police and firemen will be discussed Thursday and Friday.

John L. Elliott, city engineer asked the committee to consider these increases: Melnotte, N. Bebe, senior assistant engineer, from \$3,000 to \$5,000 a year; assistant engineers William L. Lacey and Charles A. Brown, from \$2,400 to \$4,000; junior assistants Charles Culley and Edward Doepfers from \$2,160 to \$3,000 and chemical engineer Chambers H. Underwood, \$3,400 to \$5,000.

Elliott declared the city cannot retain high class employees unless salaries are raised. No decision on these recommendations was reached.

Hogue stated that it is expected that Mayor Shank's recent recommendation of a 10 per cent wage increase for city employees receiving less than \$1,500 a year will be agreed upon for all city departments.

Four men arrested early today at West and McCarty sts. were alleged to have stoned a street car.

The men slated are James Lamahan, 429 N. Arsenal Ave.; Harry Percey, 513 W. Henry St.; Emmett Griffith, 824 S. Senate Ave.; and Joe Sullivan, 824 S. Capitol Ave. They were charged with drunkenness and vagrancy.

## FRIEDA'S FOLLIES

Who couldn't be enticing!  
She used the most exotic perfume.  
I know I am old fashioned.  
I prefer wood violet.  
It is so modest.  
Her bottle was huge.  
She could easily have given me half.  
Women are so stingy.  
I asked her for the name.  
She had forgotten it.  
I picked it up.  
It was an accident.  
I spilled it.

## A Puzzle a Day

149-525  
MARYLAND 1923

The drawing illustrates a typical Maryland automobile license plate. Three men saw an automobile go by with a Maryland license. All agreed that they saw six figures on the tag. One man remembered seeing a two and a nine; another saw two eights together. Third man saw the figures 06 followed by another figure. Can you puzzle out the number of the license?

Yesterday's answer:  
If one son was three times as old as the other, and if the age of the first multiplied by itself, added to the age of the second, multiplied by itself, produced the sum of 860, the age of the elder must have been 18 and the younger 6.

For 18 equal 3x6, and 18x18 equals 324, plus 36 (6x6) equals 360.

## FLOWER SHOW ARRANGED

See how perfectly nature has assembled this prehistoric animal. So do we assemble our false teeth so as to give the most lifelike appearance. Each set of teeth we make is tried in the mouth on what we call a trial plate, before finishing, so as to allow you to make any change you may see necessary. If you are wearing false teeth, and are disappointed in the work, if they are loose and drop when you eat or speak, remember
