

WARNING TO KEEP EXPENSES DOWN GIVEN CITY HEADS

Traffic Rules to Be Lightened
for Visitors Coming to
Speedway.

City officials and heads of departments today had in mind a warning to be economical. Mayor Shank gave it to them in strong terms at the monthly cabinet meeting Monday.

"Be careful for the rest of the year—cut down all expenses," possible," Shank said. "It looks as if a business slump is coming and we have to figure on it. Try to get along on what you have and do away with all the help you can while prices are high."

The mayor emphatically stated that he did not intend to raise wages of any city employees except laborers and others making less than \$1,500 a year.

Chief Going to Meet

A resolution was adopted to send Police Chief Herman F. Rikhoff and the board of public safety to the National Police Chiefs' convention at Buffalo, N. Y. It was decided to ask cooperation of the Chamber of Commerce in an attempt to obtain the 1924 convention for Indianapolis.

R. Walter Jarvis, superintendent of parks, reported that golf receipts at municipal links Sunday were \$1,040, highest total ever received.

A shortage of help was reported in the street cleaning department by John F. Walker, superintendent.

Courtesy for Visitors

Walker suggested that strict regulations of the traffic code should not be enforced upon visitors to the Speedway race. Mayor Shank said that they would not and that he would ask Chief Rikhoff to order police to extend every courtesy to visiting motorists.

Mrs. Shank reported for the park board, "I understand the council does not favor the proposed artificial lake," she said. "But thanks to our good park board president we are going ahead with this proposition. If the council does not want to cooperate, we do not need their help."

City Finances Good

Joseph L. Hogue, city controller, said all city departments were in sound shape financially, with the exception of the board of health.

"After we receive our spring taxes and pay a temporary loan of \$300,000, we shall have about a million left in the general fund," he said.

Mayor Shank asked all department heads to make requisitions for purchases for monthly periods, rather than for small purchases. Jesse E. Miller, city purchasing agent, stated it would save time and money for all department heads to adopt this system. He stated that the department had made out about seven hundred fewer orders this year than for the same period in 1922.

Pig Great Aid to Clown Master

GEORGE R. WOOD AND CLOWNETTA.

Clownetta is a pig, but not an ordinary pig by any means.

When George R. Wood, her "clown" master, calls her, Clownetta, who is just about a month old, looks up at him with an air of rare intelligence—at least, Wood insists it is intelligence.

Wood and Clownetta travel around as representatives of the Axtion-Fisher Tobacco Company of Louisville, Ky. As Wood hands out packages of cigarettes, Clownetta shakes her head, with its little red cap, in approval.

No, Clownetta does not smoke the cigarettes she is so very young, and a lady.

Summit, N. C.—"My health is good and I can say with pleasure I owe it to Black-Draught," writes the Rev. J. H. Wilcoxen, local Baptist minister at this place. In the statement given here, Mr. Wilcoxen said that Black-Draught had been used in his home for fifteen to eighteen years.

"I have had a stomach trouble," said Mr. Wilcoxen, "so that after meals I would break out in perspiration and feel tight in the chest. I would go to my shelf, take a good dose of Black-Draught, and in less than an hour all this disagreeable tightness would disappear."

"I used it with my children for colds and constipation. I find it is a splendid remedy for gas and sour stomach and I would not be without it."

Mrs. Wilcoxen said: "In the spring when I would feel sluggish, have a bad taste in my mouth and a light feeling in my head when I would stoop over when about my work, I knew it was torpid liver, and that I must take something. Black-Draught is the best thing I know of. I use it in big doses at first, then small. It is fine—made me feel so much better. We feel that we couldn't get along without it."

The genuine, old, original Black-Draught powdered liver medicine has been in use for over 80 years. Insist upon, and see that you get it, the genuine—Theodore's. Sold everywhere; 25c.—Advertisement.

CANDY FIRM WILL BUILD AT M'CARTY AND UNION

Company to Move in Several Months—
Property Cost \$50,000.

The Indianapolis Candy Company, 225-27 E. Maryland St., will move into a new building to be erected at the northwest corner of McCarty and Union Sts. in several months, according to announcement by officers today. The purchase of the property from Wolf Davis, involving \$50,000, was completed Monday.

The property has a frontage of 190 feet on McCarty St. and 134 feet on Union St. Present buildings will be replaced by a modern four-story structure. The candy company will continue at the present location, where it has a lease which expires May 1, 1925, but will have the new building ready for occupancy before that time, it is said.

STOMACH TROUBLE DISAPPEARED

Baptist Minister, of North Carolina Says He Owe His Good Health to the Use of Black-Draught.

Summit, N. C.—"My health is good and I can say with pleasure I owe it to Black-Draught," writes the Rev. J. H. Wilcoxen, local Baptist minister at this place. In the statement given here, Mr. Wilcoxen said that Black-Draught had been used in his home for fifteen to eighteen years.

Combat that film on teeth

Watch the new beauty come

Go ask for this free test.

The results will delight you. They will show you a way which millions have found to whiter, cleaner, safer teeth. All in your home should know it. Show them at once what it does.

Why teeth grow dingy

You feel on your teeth a viscous film. It clings to teeth, enters crevices and stays. No ordinary tooth paste effectively combats it. That film is the teeth's great enemy. It absorbs stains, then forms a dingy coat. Tartar is based on film.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. That's why 49 in 50 suffer from tooth troubles. Germs breed by millions in film. They, with tartar, are the chief cause of pyorrhea, now so alarmingly common.

Now you can combat it

Dental science has in late years found two film combatants. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then a new-type tooth paste was created, based on modern research. These two film combatants were embodied in it for daily application. That tooth paste is called Pepsodent. Careful people the world over now use it, largely by dental advice.

A new dental era

Pepsodent also multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay.
