

PASTORS ATTACK AGENTS OF CHURCH CONVENTION HERE

Chicago, Detroit and Brooklyn Presbyterian Leaders

Open Fight.

Various actions taken by the Presbyterian General Assembly here last week, today were the target for a storm of criticism from various parts of the country. They were vigorously assailed Sunday in sermons preached by leading Presbyterian ministers in Chicago, Detroit and New York.

Adoption of the resolution backed by William Jennings Bryan that clergymen and laymen sign a pledge to abstain from liquor aroused the wrath of Chicago pastors.

"I shall refuse to sign such a card," the Rev. G. C. Whitsett, pastor of the South Chicago Presbyterian Church, said. "It is an insult."

Fosdick Defended
A strong defense of the Rev. Harry Emerson Fosdick of New York was rebuffed by the assembly for alleged denial of the virgin birth of Christ, was made by the Rev. Dr. Charles William Cochran, pastor of the Woodward Ave. Presbyterian Church of Detroit.

"The tendency of the Christian Church to ape politicians by regarding freedom of thought or speech as a crime is most unfortunate and stupid," he said.

The Rev. Dr. L. Mason Clarke, for twenty years pastor of the First Presbyterian Church of Brooklyn, N. Y., also attacked the action of the assembly.

Pastor Admits Unbelief
"The assembly declared," he said, "that it was necessary for a Presbyterian minister to believe in the inferrancy of scripture, the virgin birth of Christ, a particular theory of Christ's death on the cross, the physical resurrection of Christ, and the genuineness of miracles attributed to Him."

"In all frankness, I do not believe one of the five points."

FAIRGROUND BOND ISSUE DEFENDED

I. Newt Brown Denies Politics in \$1,000,000 Deal.

The State board of agriculture did not play politics in the disposal of the \$1,000,000 fairground bond issue, I. Newt Brown, secretary, declares in reply to charges of Walter S. Chambers, Democratic State chairman.

Brown pointed out today the original intention was to sell the bonds at par with interest rate of 5 per cent, but they were sold at a discount of \$30,000 with an interest rate of 4 1/2 per cent. Brown said the interest saving would amount to \$55,000, while the discount was only \$20,000.

The bonds were sold to the Northern Trust Company of Chicago in cooperation with the Fletcher American Company of Indianapolis.

Brown denied the Indiana Farmers Federation opposed the bond issue.

JEALOUSY CAUSES WIFE TO END LIFE

Picture Found in Husband's Coat Leads to Fatal Act.

A little funeral party, in Junction City, Ky., today, told the story of the tragic results of a wife's suspicions.

Funeral services were to be held in Junction City for Mrs. Braide Wilson, 21, of 2657 Burton Ave., Indianapolis. She died at 10:30 p. m. Saturday at the city hospital, after drinking poison. A picture of a woman, found in her husband's coat pocket, was given as the cause for her act.

In the funeral party today was Mrs. Wilson's husband, John.

As Mrs. Wilson exclaimed: "This will send me where I want to go," after finding the picture, her husband tried to knock the bottle of poison from her hand.

"She had no reason to suspect me," Wilson told police. "The picture was that of a friend. She gave me no opportunity to explain."

Friends of Mr. and Mrs. Wilson said Mrs. Wilson had been despondent since the death of her mother several weeks ago.

The Great Speedway and Prest-O-Lite grew together

The same spirit which created Prest-O-Lite created the Speedway. The organization which built Prest-O-Lite into a name that signifies the oldest service to motorists evolved and carried to successful completion the idea of the Speedway. The Speedway and the Prest-O-Lite plant are almost one and the same. Separated only by a highway, each of them typifies devotion to advancement in motor cars.

It is fair to say that if there had been no Prest-O-Lite there would have been no Speedway. The many thousands of visitors who will attend the Speedway races will also be welcome at the Prest-O-Lite plant, devoted to the manufacture of Prest-O-Lite Batteries, Prest-O-Gas Tanks and Appliances.

To Increase Energy and Strengthen the Nerves When You Are Run Down

People Who Have Been Weak, Anaemic, Nervous and Ailing For Years Quickly Gain Amazing New Vim and Vigor From Magic-Like Health-Giving Power of ARIUM.

ASTONISHING RESULTS FROM MARVELOUS FRENCH DISCOVERY EXPLAINED BY NEW YORK DOCTOR.

WITH the discovery of a marvelous yet harmless element of Nature which can be safely used by any man or woman to quickly help renew strength, vitality and give a more youthful appearance, restore normal activity to the glands, internal organs and nervous system, and most surprisingly increase mental vigor—Prof. Henri Secquard of the Ecole Polytechnique of Paris has won a new victory for French Science. Most astonishing results are reported—so much so that doctors predict we shall soon have a new age of far more beautiful, healthy women and strong, vigorous men.

Although only recently introduced to the American public, this magic-like health-giving element prepared in the simple tablet form known to physicians, hospitals and druggists as ARIUM has literally taken the country by storm and thousands are now using it.

In a recent discourse, a well-known New York doctor said: "Altogether too many people, especially those between the ages of 40 and 50, are suffering from weakness, nervous disorders, kidney and liver complaints, dangerously high blood pressure, stomach and intestinal troubles, sleeplessness and general debility. Yet with the revitalizing power of ARIUM it should be easy for them to quickly enrich the blood, strengthen the nerves, put youthful power into the veins and fortify the body against disease and signs of premature old age."

So definite is the action of ARIUM that Hook's Dependable Drug Stores, Haag's Bros. and Pearson's—Advertisement.
