

ELGIN MOTORS TO MOVE PLANT HERE

\$400,000 Factory Will Start
Operation Soon.

Indianapolis will have a new automobile industry.

The plant of the Elgin Motors, Inc., will be moved here from Argo, Ill., immediately and production will begin in September, according to Joseph H. McDuffey, president.

The factory will be located in the old Federal Motor Works, a subsidiary of the Willys-Overland Company, 323 W. Fifteenth St., which the new company purchased.

The new corporation was formed by stockholders of the old Elgin company, which has been in receivership for some time.

McDuffey formerly was assistant general manager of the Cole Motor

The new car will be a six-cylinder model and will retail at less than \$1,500, McDuffey said.

MARKS DROP FURTHER

New Low of Approximately 85,000 to Dollar Is Set.

By United Press
LONDON, June 1.—Marks dropped to 330,000 to the pound on the London exchange today, a new low record. This was a drop of 15,000 from yesterday, when a mark of approximately 70,000 to the dollar was set.

PESKY BED-BUGS.

(Pesky Devils Quietus) P.D.Q. is the new chemical that puts the everlasting to the pesky bedbugs, moths and roaches—impossible for the pesky devils to exist where P.D.Q. is used.

Recommendations for Hotels, Hospitals, Railroads and other public institutions are a guarantee to the public that the safest, quickest and most economical way of ridding the pesky insects is by the use of P.D.Q., a chemical which kills the eggs as well as the live ones, and will not injure the clothing.

A 35c package makes a full quart, enough to kill a million bedbugs, moths and roaches—and also contains a patent sprout to get to the eggs in the hard-to-get-at places and saves juice. P.D.Q. can also be purchased in sealed double strength, "mild" form.
