## FRANCE DEMANDS RUHR RESISTANCE CEASE AT ONCE

Poincare Declares Sabotage Must Stop Before Agreement on Reparations.

By United Press. PARIS, June 8.—France sent to Germany today a strongly worded note demanding resistance to the inter-allied military control commissions cease immediately.

Poincare will communicate with the other allies regarding the advisability of replying to the latest German reparations offer, but in the meantime has made it clear to Germany that the latter's policy of sabotage and resistance must end before any agreement can be reached.

The inter-allied commissions will resume at once surveillance of German military organizations.

After the occupation of the Ruhr, Germany disclaimed responsibility for possible attacks upon the commissions.

The French cabinet will meet tomorrow to discuss the reparations situation.

Premier Poincare favors a policy of completely ignoring the Cuno proposal.

Belgian and British interests, however, believe some sort of reply should be made and Poincare may be pressed to their view by the desire to present a united allied front.

On the other hand Italy is understood to join the British and the Belgians in the belief the newest German offer is at least more conciliatory than any previous proposal.

## BODY OF WOMAN FOUND IN CULVERT

Was Fashionably Dressed—Anonymous Note Is Clew.

By United Press. YOUNGSTOWN, Ohio, June 8.—A fashionably-dressed body of a woman was taken from beneath a culvert near here today following receipt of an anonymous note to police.

Marks on the body indicated the woman had fought desperately with her slayer.

Sheriff Donahue believes it to be a "plain case of murder," and the body placed in its watery crypt some time after the slaying.

The body was clad in a gray dress, gray shoes and stockings and a gray fur.

Handwriting experts were immediately put to work on the anonymous letter.

## CREWS SAVED AS TWO SHIPS WRECK

Both Vessels Pile on Reefs in Double Sea Disaster.

By United Press. SEATTLE, Wash., June 8.—Crews of two ships, victims of a double disaster on the hidden rocks near Chirikof Island, 100 miles south of the Alaskan peninsula, were saved today by the U. S. S. supply ship, Cuyama.

The mine-sweeper Cardinal and the survey ship Discoverer were both wrecked when wind-whipped waves dashed over the vessels on Rocky Reefs.

The Cardinal piled up on the rocks late yesterday and it was apparent she might become a total loss. The Discoverer answered her calls for aid and met the same fate.

Early today radio advices said the Chinaman removed the crews of the two vessels safely in small boats.

A total of 135 men were aboard the ships.

## ANOTHER THEORY IN M'GROARTY DEATH

Relatives Do Not Believe Park Secretary Drowned Self.

Miss Sadie McGroarty, secretary of the park board, whose body was found Monday in Niagara River below Niagara Falls, did not meet death by her own hands, according to a telegram received by Mrs. Hubert S. Riley, sister of Miss McGroarty, from her husband, at Buffalo, today.

Mrs. Riley said this conclusion was based upon the facts that there was no outer clothing on the body when it was found and that more than \$100 which Miss McGroarty had with her had disappeared.

The body will arrive in Indianapolis Saturday. The funeral will be held Monday at 9 a. m. at St. John's Catholic Church. Burial will be in Holy Cross Cemetery.

Doubt as to the identity of the body was removed late Friday when positive identification was made by Riley.

Miss McGroarty, who had been in ill health for a long time, disappeared more than a month ago.

## DROWNING VICTIM IS UNIDENTIFIED

Body of Man Found Floating in Fall Creek.

Efforts to identify the body of the man drowned in Fall Creek had been unsuccessful today.

A number of persons visited the funeral parlors of Royster & Askins, 837 N. Illinois St., Thursday night and today in an attempt to identify the body.

The dead man was described as six feet high and weighing 160 pounds. He had long, straight, black hair. He had brown eyes. His teeth were regular. There were no scars, moles, warts or tattoo marks on the body. The feet were unusually small for a man his size. The age was estimated at 23 to 26 years. His hands bore no evidence of hard work.

Waldo Carter, 1226 Bryum Ave., discovered the nude body floating in Fall Creek near Thirty-Fourth St. late Thursday.

Motor Police Heller and Pett recovered the body.

George Edwards, 2233 Yandes St., said he was fishing Tuesday and saw clothing on the bank of Fall Creek. The clothing included a blue serge suit, silk shirt, low black shoes, and black hat. Police failed to find the clothes.

The body appeared to have been in the water for some time.

This is the third drowning during the week. Last year eleven persons were drowned while swimming in streams of Marion County.

Brimming Over With Vim and Vitality That Keeps Him Keen, Active and Alert

Magic-Like Power of ARIUM is What Helped Him to "Come-back" With Old-Time Strength.

In a recent discourse a well-known New York doctor said: "I have known too many people, especially those between the ages of 40 and 60, are suffering from weakness, nervous disorders, kidney and bladder troubles, rheumatism, neuritis, dangerously high blood pressure, stomach and intestinal troubles, sleeplessness and general distress. Yet with the discovery of ARIUM it should be easy for them to rapidly restore much of their strength, power and youthful activity."

"I know of one man 50 years old who was broken in health from several of these distressing ailments, but after taking ARIUM found that his blood pressure had been reduced to that of a boy of 20; he was able to enter easily into the sports of the young folks, go at his business with a keen, alert mind and pull in long hours without fatigue. In fact, thanks to ARIUM, he was really a full of vigor, vim and manly as when a young man."

So definite is the action of ARIUM that it goes right to work the minute it enters the body and sets up healthy functioning of the blood, glands and organs almost immediately. You often begin to feel this amazing revitalizing influence on your system within only 24 hours—even if it is so harmless that even a child may take it with perfect safety.
