

MINE WORKERS HIT RADICAL MOVES

'Progressive Committee' Con-
demned by Officials.

Disapproval of actions of all radical
organizations hinging on Bolshevikism

was condemned by the international
executive board of the United Mine
Workers in a meeting here Thursday.
Actions of the so-called Progressive
International Committee of the United
Mine Workers of America were con-
demned. The board said many of the
workers of this organization were for-
merly connected with organizations
antagonistic to the American Federa-
tion of Labor.

The organization has been listed as
a dual organization and United Mine
Workers were warned against giving
them aid.
Several members of the new organi-

zation are alleged to have entered
ranks of the United Mine Workers and
created discord and confusion. The
international board stated they were
without trade union standing, and
were of questionable character.

Diamond Sent to Prison
LA PORTE, Ind., June 22.—Porter
County officials fearing another at-
tempt at jail-breaking, sent Harry
Diamond, convicted wife slayer, to
the State prison at Michigan City.
Attorneys for Diamond said they will
make every effort to save him from
the electric chair.

Jumping Mustard Seeds May Be Spiders—or Just Anything

Jumping mustard seeds!
Skilled technicians of the entomol-
ogist's office at the Statehouse are
perplexed.
Even the big books won't tell what
makes a handful of funny-looking ob-
jects resembling mustard seeds jump
about as if intoxicated.
C. J. Casey of Hope dug them up at
the foot of an oak tree and sent them

to State Entomologist Frank Wallace,
after they had jumped all over his
premises. For three days they have
been jumping about in a glass con-
tainer in Wallace's office, where Harry
Dietz, assistant, is keeping them.
They are too small for the Mex-
ican jumping bean and too small for
animals. Dietz says they don't be-
long to the vegetable kingdom. He

believes they are a variety of spider
that closes itself to the world during
hot weather. At any rate, they jump
livelier when in the sunlight. Dietz
said today he would send them to the
Department of Agriculture at Wash-
ington and have their trouble diag-
nosed.

In the meantime they continue hop-
ping about in their glass house.
