# COFFIN PROPOSES NEW GROUND FOR CITY HALL ANNEX

Mayor to Hear Plans for Purchase North of Present Building.

A proposal for purchase of the quarter block of ground on the southwest corner of Alabama and New York Sts., immediately north of city hall, for an addition to the present building will be made to Mayor Shank when he returns from Ohio this week.

On account of crowded conditions at city hall architects were recently assigned to determine the practicability of adding stories to the present building. In a report to Coffin, they advised this was impractical.

The proposed site is held by seven different owners and is occupied by four houses, an abandoned brick church and the Excelsior steam laundry. It has a frontage of 202.8 feet on Alabama St. and 135 on New York St.

Early in his administration, Mayor Shank sought a bond issue for purchase of the quarter block on the southwest corner of Alabama and Ohio Sts., as a location for a city hall annex and police headquarters. This was blocked by city council.

Coffin said the proposed plan would include moving police headquarters to the new building, besides giving sufficient space to the city engineering and other municipal departments.
