

FIRST ACTUAL PICTURES OF DEMPSEY-GIBBONS SHELBY FIGHT

This picture shows Gibbons trading punches with Dempsey in the second round of the Shelby fight. This round was given by newspapermen to Gibbons. He hammered the champion while the crowd gasped. It seemed a new champion would be crowned. These pictures were taken at Shelby by the NEA Service Staff Photographer and rushed by airplane to Chicago, 1,500 miles away, and developed there. They were brought to The Times office this afternoon by special courier.

Although Jack Dempsey successfully defended his title as world's heavyweight champion in his Independence Day bout with Tomm J. Daugherty at Shelby, Mont., Gibbons surprised the fight world by staying 15 rounds. This photograph shows Referee Tomm J. Daugherty, Philadelphia, acclaiming Dempsey the winner on points. Daugherty ducked from the ring as several pop bottles showered down upon the canvas. Gibbons is shown ready to shake hands with the champion following the decision.

PUBLIC MAY USE DUNES HIGHWAY BY EARLY FALL

State Rushes Construction on Chief Roads for Heavy Traffic.

With all the right of way for the Dunes Highway secured, excepting grade separations at Miller and Baileytown, and contractors laying concrete, it is believed this road will be completed and open to traffic early in September, John D. Williams, State highway director, said today. Approximately three miles of pavement yet to be laid will complete the twenty-five-mile road from Gary through Michigan City to the Michigan State line.

Heavy grading is in progress on State Road No. 4, east of Versailles; a new detour is established around a bridge eight miles north of Muncie, and another detour has been made between Edwardsville and New Albany. Traffic is advised to go slow over fresh tar north of Bloomington, on State Road No. 22, and to watch for blasting between Bedford and Harrodsburg. Careful driving is advised east of Bainbridge, on State Road No. 31, because of grading. State Road No. 32 is closed for construction near Bloomington, Spencer and Cloverdale.

Detours and condition of roads radiating from Indianapolis follow:

No. 1 (New Albany, Indianapolis, South Bend, Michigan line)—Closed from two miles north of Crothersville to five and one-half miles north of Crothersville. Crothersville-Seymour traffic take Dudleytown detour. Detour from Scottsburg to a point five miles north, account of construction. Closed from four miles north of Westfield to three miles south of the end of concrete pavement just south of Kokomo, and from three miles south of Lakeview to Lakeview. Follow marked detour.

No. 3 (National Road, Terre Haute, Indianapolis, Richmond)—Closed from four miles west of Stilesville to Manhattan, and from Pleasant Gardens to one and one-half miles west. Turn right to Reelsville and follow old road. Closed two miles west of corporation line of Richmond. Good detour marked north of No. 3. Under construction from Richmond to Ohio line; proceed cautiously.

No. 6 (Madison, Indianapolis, Monticello)—Closed north of Flackville to two miles north of Royalton. This is a bad detour a short distance out of Indianapolis. Lebanon-Indianapolis traffic can take thirty-three east to Michigan road. Bridge under construction south of Vernon. Heavy stone being applied near North Madison.

No. 22 (Bedford, Bloomington, Marionville, Indianapolis)—Watch for fresh tar north of Bloomington and blasting between Bedford and Harrodsburg. Heavy grading south of Mooresville.

SING SING IS NOT SO POPULAR AS IN 1922

By United Press NEW YORK, July 7.—Day by day in every way the world is getting better and better.

Five hundred and ten fewer prisoners were taken to Sing Sing during the fiscal year which ended June 1, than the previous year, official figure show.

THEN THE FIGHT WAS ON

Lawyer Said to Have Resented Remark of Messenger.

When Clarence A. Tucker, 45, attorney, College Ave. and Eleventh St., went to the Western Union office to report a remark made to him by Edgar Coers, 31, a messenger, 1024 Bellfontaine St., which he is said to have resented, a fight started, according to police.

Both are charged with assault and battery.

(SIGNED): (Parent, friend or organization)

BOYS WHO WANT TO ENTER THE NAVAL RESERVE TRAINING SCHOOL AT CAMP SHANK, ON WHITE RIVER IN RIVERSIDE PARK, OPENING NEXT MONDAY, SHOULD FILL OUT THIS APPLICATION AND ADDRESS IT AS DIRECTED ABOVE IMMEDIATELY.

NAMING OF BOARD MEMBER DELAYED

Health Body May Meet With No Democrats.

Although officials have agreed on the appointment of a Democratic member of the State board of health to succeed Charles B. Kern of Lafayette, whose term has expired, no suitable recommendations have been received, it is understood. The board probably will be one member short at the next regular quarterly meeting next Tuesday unless Robert Bracken, State auditor and a member of the State committee to choose new members, names a man. Bracken, Governor McCray and Ed Jackson, secretary of State, compose the committee.

Dr. John H. Green of North Vernon has been named to succeed Dr. J. H. Hewitt of Terre Haute, whose term has expired. At present there are no Democrats on the board.

ASSOCIATION TO BATTLE HEART DISEASE FORMED

Statistics Show It Is More Destructive Than Cancer and Tuberculosis.

More deaths in Indianapolis occurred last year from heart disease than from the other great destroyers, cancer and tuberculosis.

In fact, heart disease claimed more in Indianapolis than both cancer and tuberculosis. The score was: Heart disease, 720; cancer, 330; tuberculosis, 292.

The vital statistics in Indiana for 1922 show how destructive heart ailments, compared to cancer and tuberculosis, 4,688 persons dying from heart disease, 2,784 from cancer and 2,533 from tuberculosis.

These statistics are offered by the Indianapolis Association for the Prevention and the Relief of Heart Disease, which has established headquarters at 135 E. Market St. The new officers are:

McIntyre President Dr. C. J. McIntyre, president; William R. Stuart, vice president; Henrietta E. Ellington, secretary, and Martha Allardice, treasurer.

The directors are: Dr. J. R. Eastman, Louis Hollweg, G. A. Schnull, Herman B. Gray, C. H. Winders, William J. Sumner, Albert S. Goldstein, Dr. John W. Carmack, Dr. C. H. McCaskey, Dr. W. A. Ocker, Dr. F. A. Henshaw, D. D. S. Dr. W. E. Pennifington, Dr. Edward F. Kiser, Dr. James A. Wynn, Dr. Robert M. Moore, George J. Aultman, Dr. George Bond, Carl D. Lucas, Dr. Louis Hollweg.

MOTION PICTURES

D. D. S.; Dr. L. W. Riggins, Fred Dickson and Dr. James C. Carter. The object of the association, according to Dr. C. J. McIntyre, is to gather information upon heart disease, to develop and apply measures which will prevent heart disease; to seek and provide occupations for patients with heart disease; to establish special dispensary and better hospital care for patients with heart disease; to give adequate care for cardiac convalescents and to provide for

the permanent institutional care for such cardiac patients as are hopelessly incapacitated from self support.

Highlights of the statement issued by the association are:

The causes of heart disease are chiefly infectious diseases, unsuitable modes of life and dietary habits. Rheumatism is one cause of many cases of heart disease, the infection entering in most cases through decayed tonsils, adenoids and decayed teeth. Obviously the removal of these

decayed parts serve as preventive measures.

Not Enough Exercise

Heart disease frequently occurs among adults leading sedentary lives whose activities are chiefly mental and who get little out-of-door exercise. Effect on the heart of poisons developed by this mode of life, coupled with the use of tobacco, tea and coffee, is said to play a definite role in degenerative diseases of the heart.

The prevalence of heart disease among children and young people with ensuing years of incapacity, puts a severe burden on society, a burden which can be better met with prevention.

These handicapped children lose much elementary education. They may even fail to become self-supporting. They are excluded from all but few occupations, and they are usually dependent upon their family or upon the public throughout their lives.
