

MEMORIAL PLAZA PLAN CHANGED TO INCLUDE OFFICES

Additional Buildings to Divide
Utilitarian Features and
Monument.

Utilitarian and monumental features of the State war memorial will be separated by the addition of one or more office buildings for the housing of the recognized patriotic societies, it was announced today. This was decided by the war memorial commission, in conference with F. R. Walker and C. W. Stedman, Cleveland, O., architects for the memorial, Thursday.

The chief feature of the building originally planned will remain the same. The office buildings will be located on the Plaza, with their exterior harmonious with the original building.

The architects were instructed to prepare plans to be submitted to the board the first week of September.

A model of the entire area as it will appear when completed will be ready for the public early in fall. The construction of the office buildings probably will be commenced in

the fall, if present plans carry, said Marcus S. Conntag, president of the board. By spring he expects work on the monument to be begun. The erection of separate office space is expected to be more economical, since the massive features inside of the buildings can be eliminated.

ROAD PAVING ORDERED

Gap in Indianapolis-Kokomo Highway to Be Closed.

Pavement will be laid over the gap in State Road No. 1, through the town of Carmel, within a few weeks, the State highway commission announced today. C. Gray, chief engineer of the commission, has instructed the contractor to proceed with the paving in order to have the direct hard-surface road between Indianapolis and Kokomo completed this fall.
