Every boy had his hat off. Patterson complimented the boys on their excellent behavior. The boys cheered everything and, as usual, the clowns made friends with every boy. "It was a great night for the boys and the circus management did everything to give them one of the most enjoyable nights of the summer," remarked Dick Ring of The Times circulation department.

GERMAN FARMERS REFUSE MARKS AS PAY FOR PRODUCE

Nation Being Reduced to Old-Fashioned Mode of 'Bartering in Kind.'

By CARL D. GROAT, United Press Staff Correspondent
BERLIN, July 25.—The continued fall of the mark, not only in exchange value, but in domestic purchasing power, is rapidly bringing Germany to the point of old-fashioned "bartering in kind."

A strong tendency is developing among farmers to refuse to accept payment in marks for their produce. It has become a question in many cases, not of how many potatoes can be bought for so many thousand marks, but how many potatoes will be exchanged for a gold watch or a phonograph. The farmer looks with more favor on a piece of jewelry or household furniture in return for a bag of onions than upon a fist-full of paper marks.

With marks at 571,430 to the dollar, the effect is beginning to show, not only economically, but politically. The elections of the metal unions just held resulted in overwhelming Communist victories throughout Germany. The radical leaders in the metal unions were swept into complete control. Food prices are getting to the point where workmen are unable to make purchases. Food prices do not only follow, but surpass, the dollar quotation, while wages are regulated only twice a month to keep pace with the descending value of the mark.

Declare Every Effort Was Made to Prevent Rupture and Deny Governor's Statements He Was Unaware of Cause for Complaint.

By United Press
A joint statement from Senate President Quezon and Speaker Roxas of the Filipino house, explaining their position in the controversy with General Wood, is presented in the following dispatch by Filepe Buencamino, prominent attorney and editor of Manila. Mr. Buencamino visited the United States as a member of the Philippine independence commission in 1920, and is closely associated with political affairs in the islands.

By PELLEPE BUENCAMINO
MANILA, July 25.—"For some time past we have repeatedly served notice to the governor general by correspondence and through personal conferences and public speeches, we would extend cooperation only so long as he confirmed his acts to the Jones law, allowing the Filipino people to continue exercising that degree of authority already enjoyed by them."

This was the statement of Senate President Quezon and Speaker Roxas answering the statements of General Wood that he was not informed of the causes for complaint and was surprised at the resignation of the government. Also that he followed the advice of the departmental secretaries and that the resignations constitute an attack against the American representative.

Tried to Avert Rupture.
"For several days immediately preceding the crisis we made effort to avert a rupture," President Quezon and Speaker Roxas continued. "And earlier in the evening of the day when the resignations were tendered, we discussed the whole subject for two hours with the Governor, but to no avail."

"General Wood, the referee, was duly aware and informed of our protests and complaints."

"General Wood has tried running the Philippine government by himself, aided by military advisers."

"The resignation of the cabinet does not constitute an attack against American sovereignty or the lawful authority of its representatives in the islands."

"The resignations were simply an orderly but firm protest against injustice and the encroachment of rights guaranteed by the Jones law and secured by the laws of the country."

Order Is Undisturbed
Public order is not disturbed in the islands.

Manila Chief of Police Green interfered with peaceful gatherings, but afterward this was disavowed by General Wood. Then radio officials refused to transmit messages of the Philippine independence commission unless General Wood authorized them to do so. This is contrary to the usual practice, the radio refusing for two days messages intended for the islands.

CAMP CROSBY IS MECCA FOR STATE'S YOUNG ATHLETES

Fifty Youngsters From Hartford City There—Many Counties Represented.

By Times Special
NORTH WEBSTER, Ind., July 25.—There are more than 100 boys at Camp Crosby, the Muncie Y. M. C. A. camp on Tippecanoe Lake, near this city. Each week some of the boys return to their homes, but others come to take their place. This week fifty of the boys at Camp Crosby are from Hartford City. A total of about 500 boys have been at Camp Crosby this season.

The boys range in age from 10 to 19 years. Boys from cities in Indiana, Illinois and Ohio are at the camp. Indianapolis is represented this year by a number of boys. H. G. Pettijohn of the Muncie Y. M. C. A. is in charge of the camp. N. M. Maddox is athletic director. The tent leaders this year are trained men selected from Illinois University, Wabash College, De Pauw and Miami University.

Athletics Popular.
Much time is devoted to athletics. Some excellent records have been made in track and field events and in swimming.

Interest during the last week centered in the competition for the gold medal offered by Heze Clark of the Indianapolis Times for the champion all-around athlete 12 years old and under. Donald Knoche, 12, of Muncie won the championship with 16 points and was awarded the Clark trophy. Samuel Fleming of Portland, Ind., was second with 15½ points, and Donald Graham of Muncie was third with 14 points. Thirty boys competed. The Clark trophy in 1922 was won by Donald May of Muncie. The seven events in which the boys competed were: Baseball throw, standing broad jump, 100-yard dash, running high jump, fifty-yard free style swim, twenty-five yard swim back stroke, and fancy diving. Knoche placed in five of the seven events. Fleming won the 100-yard dash in 12 seconds.

The Muncie Y. M. C. A. awarded medals to winners in another track and swimming meet, events being held for boys under 12 years of age and other events being open to boys 14 years old and under.

Chicago Boy Sensation
In the 12-year-old class Arthur Summerfield of Chicago proved the sensation. In seven events he scored twenty-two points. He did 7 feet ½ inch in the standing broad jump, and he threw the baseball 205 feet, setting a new camp record for boys of 12 years. Summerfield is a remarkable baseball catcher and one of these days the Chicago White Sox will be after him. No boy 12 years old during the eight years at Camp Crosby that athletic meets have been held has ever thrown the baseball more than 160 feet until Summerfield made his record throw. Fred Newell of Muncie was second and Dick Clark of Union City was third in points in the meet.

First all-around honors in track events for 14-year-old boys were won by William Thornberry of the Delaware County Children's Home. Chalmers King of Muncie won the aquatic medal. Austin Edwards, in the 14-year-old class, was all-around champion, scoring seven events included in the track and aquatic program. Donald Thompson, 13, of Union City leaped 13 feet 5 inches in the running broad jump.

Forty-five hundred troops were drawn up on the Godman field at 3 o'clock when the general pinned on General Tyndall the D. S. M. awarded for his distinguished services during the war.
