

WOMAN ARRESTED IN CRASH CAUSING INJURIES TO GIRL

Margery Johnson and Small
Boy Seriously Hurt in
Two Accidents.

Mrs. Mary Stanford, 55, of 155 E. Fall Creek Blvd., was under arrest today on charges of driving on the left side of the street and assault and battery. The arrest was the result of an accident at Thirtieth St. and Kenwood Ave., Wednesday night.

Mrs. Stanford was driving west on Thirtieth St. when another car, going south on Kenwood Ave.,

stopped in the path of her automobile. She is said to have driven on the wrong side of the street to go around this one. Mrs. Stanford's car met head on with the automobile driven by C. A. Johnson, 528 Central Court.

Margery Johnson, 20, a sister of C. A. Johnson, was thrown against the windshield and cut over the left eye and on both sides of the neck. She was taken by S. M. Green, 142 W. Thirtieth St., to Dr. C. B. Blackwell's hospital at Delaware and Eleventh St. Her condition is serious.

Boy's Forehead Bumped
In the car with Mrs. Stanford were a colored maid and three small children. A little boy suffered a bump on his forehead.

Scott L. Ebert, 7, colored, 230 Blake St., playing in front of his grandmother's home, 138 S. West St., ran into the street to get an advertisement dropped from an airplane. He ran from behind a parked automobile into the path of a car owned by Thomas Kierman, 537 N. Tibbs Ave., and driven by Pete Gallagher, 530 Goodlet Ave. The automobile was going slowly. The boy was slightly cut and bruised.

Run Over By Auto
Arthur Swartz, 11, of 2200 Taber St., today was in a serious condition at St. Francis' Hospital as the result of injuries received Wednesday afternoon when he was run over by an automobile driven by W. A. Schafer, Franklin, Ind., near Edgewood on the Madison Rd. Swartz and two other boys, it is said were hanging onto the back of a truck. Near a bridge, Swartz dropped off. As he ran across the road, he was struck by Schafer's car.

Both Legs Broken
Schafer took the boy to a doctor's office in Edgewood. Deputy Sheriff Kimpf and Anderson investigated. Both of Swartz's legs were broken and he received injuries to the left side of his head.

Harry Wescott, 15, of 1124 Wright St., Western Union messenger, who fell from a bicycle while racing with another boy on Monument Circle, at 2:30 a. m. Wednesday, was still unconscious today. His bicycle locked with that ridden by Robert Rudell, 2732 N. Sherman Dr.

William R. Moore, 86 N. Holmes Ave., was cut and bruised and a motor truck he was driving was demolished when hit by an interurban car Wednesday night at Brookside and Hamilton Aves. The truck, it is said, was dragged eighty-six feet. Charles Bicknell of Muncie was the motorman. The interurban was en route to Newmarket, Ind.

Mrs. Catherine Leonard, 3555 Salem St., narrowly escaped injury when her automobile was struck by a street car at North and Alabama Sts., Wednesday.

Two Arrested
Jewell Mills, colored, 909 Hosbrook St., was under arrest today on a charge of operating a motor vehicle while under the influence of liquor, following an accident late Wednesday. Police said Mills' automobile ran into a car owned by James Koehler, parked in front of his residence, 748 Virginia Ave. Herbert Ray, 404 W. Sixteenth St., with Mills, was charged with drunkenness.

LIEUT. NIEHAUS IS INURED IN FIRE

Loss at Factory Garage
Totals About \$11,000.

Lieut. George P. Niehaus, 55, of 40 S. Hawthorne Lane, a member of the city fire department, today was confined to bed from injuries received while fighting a fire at the Millsbaugh & Irish automobile body manufacturing plant. The fire started in a one-story sheet iron garage at S. La Salle and Clayton Sts., at 2:50 p. m. Wednesday.

Fire and water damage was estimated at \$10,000 by A. S. Buckett, treasurer of the company, who said that beside a touring car, valuable wood materials for use in automobile body building and some machinery were stored in the building. The damage to the garage was estimated at \$1,000. The detective department was asked to investigate the fire, the third in two years. Incendiary origin is suspected.

Lieutenant Niehaus was on the top of the building when he fell, some wires breaking his fall. He suffered severe bruises to his legs and body but stayed at Engine House 12 all night.

Turnkey Suddenly Ill
City Prison Turnkey John Peak, 217 1/2 N. Illinois St., today became suddenly ill when he reached police headquarters. He was taken home.

Before President Was Stricken

THIS PHOTOGRAPH, TAKEN BY AN NEA PHOTOGRAPHER AT SEATTLE, SHOWS THE PRESIDENT LANDING FROM THE TRANS-PORT HENDERSON, AFTER HIS TRIP TO ALASKA. AT THIS TIME HE WAS SUFFERING FROM PTOMAIN POISONING, BUT WAS VALIANTLY STRIVING TO KEEP UP WITH HIS ITINERARY.

REPORT CRITICISES IND. STATE FARM

Health Officer Calls Con-
ditions Insanitary.

Sharp criticism of the condition of buildings at the State Farm at Putnamville and the resultant lack of sanitation is contained in a report by Dr. William F. King, secretary of the State board of health, to Governor McCray.

A survey of sanitary conditions at the farm was ordered by the Governor a few days ago, when 138 prisoners were taken ill suddenly. The immediate cause was attributed to a bacterial infection from separated milk.

Although the Governor has not had time to study the report carefully, it is understood he has given serious consideration to a recommendation that the institution provide a full-time physician. At present, a Putnam County doctor is employed at a salary not sufficient to justify his giving his entire time. The need of an expert on sanitation also is emphasized in the report.

Governor McCray said the survey was another proof that buildings of such character should be of substantial construction, and not of the bar-rack type, which deteriorates in a few years.

INVESTMENT BASIS OF ILLINOIS RATES

(Continued From Page 1)

States Supreme Court that actual investment should be given serious consideration in arriving at a valuation.

Basic Value Stands
The importance of these facts is emphasized when it is understood rates are based almost entirely on valuations.

"The Illinois commission believes Justice Brandeis' dissenting opinion is the best formula for arriving at fair valuations," an official of the commission said. "We believe other commissions and the Supreme Court itself will come to it before long."

"The Illinois commission does not attempt to make a valuation every time a utility asks for increased rates. In most cases, it makes only one basic valuation and then adds additions and betterments, less depreciation. Investment value always is given great weight when making these basic valuations. When we get a basic value, the making of rates becomes virtually automatic."

Rate-making in Indiana is far from

Beauty Of Skin And Hair
Preserved By Cuticura

Use Cuticura Soap for daily toilet purposes, with touches of Cuticura Ointment as needed, and have fresh, clear skin and thick, glossy hair. They are ideal for the toilet as is also Cuticura Talcum for powdering and perfuming.

Sample Free by Mail. Address: "Cuticura Laboratories, Dept. 350, Malden 61, Mass." Send every-thing. Soap, Ointment and Talcum. Cuticura Soap shaves without soap.

LAST RITES FOR MRS. E. A. EAVES TO BE FRIDAY

Reader of Second Science
Church to Officiate at
Services.

Last rites for Mrs. Edith Ann Eaves, wife of Walter Eaves, who died Wednesday at the home of her sister, Mrs. John M. Galm, 5131 N. Delaware St., will be held Friday, 3 p. m. at the Delaware St. address. Andrew C. Cochran, reader of the Second Church of Christ, Scientist, will be in charge of the services. Burial will be in Crown Hill Cemetery.

Mrs. Eaves was born in Indianapolis, Dec. 21, 1886. She was graduated from grade school in the same class with her husband. The romance, started in grade school, led to their marriage four years ago. She was a member of an informal afternoon club, the members of which will participate in the funeral services, and of the Second Church Christ Scientist congregation.

Mrs. Eaves is survived by her husband, her mother and father, Mr. and Mrs. George J. Straussner; a son of three, Charles Kendrick Eaves, and five sisters, Mrs. Galm, Mrs. Edward A. Meyer, Mrs. Ernest A. Gard, and Mrs. Louise Barney.

MRS. EAVES

New Power Co. Head Is Nationally Known

A. C. BABSON

A. C. Babson, formerly of Charleston, W. Va., the newly named vice president and general manager of the Central Indiana Power Company, which controls the Merchants Heat & Light Company, is nationally known as a utility executive.

"Virtually automatic." In 1917 the public service commission valued the Indianapolis Water Company property at \$9,500,000. Early this year it valued it at more than \$16,000,000. Now it is attempting to find another valuation for rate-making purposes.

The practice of the Illinois commission follows closely the contentions of the city of Indianapolis in the water rate case. The city is insisting that investment value be given great consideration and that the 1917 valuation be used with improvements made since then added. These are the practice of the Illinois commission. And rates in Illinois are being reduced, not increased.

Lower Rate Still Sought
Efforts of Indiana farmers to obtain lower freight rates on ground limestone will be continued, W. H. Settle, president of the Farm Bureau Federation, said today. Representatives of the federation and a number of railroads met Thursday to discuss the situation. No definite action was taken.

Teachers Institute to Be Held
By Times Special
LEBANON, Ind., Aug. 2.—The annual Boone County teachers' institute will be held here Aug. 20-24. It will be the sixty-third consecutive institute. Dr. W. D. Henderson, Ann Arbor, Mich., Miss Elizabeth L. Coan, Indianapolis and Miss Eva Sinclair, Seymour, are on the program.

PRESIDENT GAINS HEALTH SLOWLY

(Continued on Page 7)

Interrupted progress toward recovery, doctors, headed by Dr. Sawyer, warned that "ups and downs" undoubtedly would occur and some days the President might not be so well. Even at the best, Dr. Sawyer emphasized, the paths to recovered health would be slow and Mr. Harding will for some days continue to be a very sick man.

Cause for Thoughtfulness
"There will be many days," said Dr. Sawyer early this morning, "when there will be no 'big news' in the President's condition. We have now settled down to the slow, gradual and, we hope, uninterrupted process of rebuilding the exhausted system of our patient. I will say to you what I said to him—things are so much better than they might have been; we all have cause for the deepest thankfulness."

For the present the twice daily consultations of doctors will continue. When the President's progress seems to warrant, some of the doctors may discontinue their attendance, and lend aid if it is needed.

The immediate present is all the doctors dare speak of in terms of certainty, Sawyer made plain. No matter how skilled, he said, no medical man can foretell at what hour or what day Mr. Harding can be considered to have passed definitely out of danger. There is danger so long as the Pres-

"Bought Because It's Wanted."

dent remains subject to any complica-

tions. Facing the almost certain prospect that some slight complications would occur, the doctors all said it would be the height of absurdity for them to try to set a date when it would be safe to move Mr. Harding to Washington. They were impatient over a published report he might leave San Francisco on Sunday.

Mr. Harding is resigned to a slow convalescence and is giving his doctors the assistance of his patience. He makes no complaint; indeed he feels he has been fortunate, Sawyer said, in "coming safely through a very severe storm."

The sick room program from today will be the routine of any convalescent who must be watched closely to guard against setbacks. The physicians have a definite task, which is divided into several parts. These include:

1. Building up of the President's strength by increasing the power of his enfeebled digestive apparatus.

2. Keeping the system at work throwing off poisons.

3. Insuring the patient a maximum of rest and comfort, so this exhausted state will be brought to an end.

Vitality Is Weakened
The first attempt yesterday to increase Mr. Harding's daily food quota by giving him two eggs instead of one caused him some distress. The elimination of poisons continued satisfactory. The exhaustion symptom persisted, but that will be the case for sometime, Sawyer said, because the President had touched the very bottom of his reservoir of vitality. Temperature became normal, showing the "fever fires are out," Sawyer said.

Breathing and pulse were less rapid. The President will not be permitted to receive visitors today nor for some days to come. General Pershing called last night but saw only Sawyer and Mrs. Harding. The President's sister, Mrs. E. E. Remsburg of Santa Ana, Cal., remained in town today and Attorney General Daugherty also was an early caller.

Hospital Association Is Bankrupt

By Times Special
ANDERSON, Ind., Aug. 2.—An effort to name a receiver for the Protestant Hospital Association here went by default when an attorney for the National System Company, which asked for the receiver, accepted \$12,000 as a compromise instead of the \$12,000 they requested.

Man Held on Girl's Charge.

Howard McBride, 19, of 326 N. Illinois St., today was under arrest charged with contributing to delinquency of a 15-year-old girl from Zionsville, Ind., and with an alleged assault. McBride was arrested after the girl told Policewoman Cantion and Patrolman Hanlon that he took her to the Home Hotel, 224 S. Illinois St. She was detained at the detention home as a witness.

Weather Man Shows Mean

Temperature of 75.7 De-

grees for Month.

With a mean temperature for the month of 75.7 degrees, July ran about up to the average of other Julys for the fifty-two years the local weather bureau station has been in existence, according to figures given out today by J. H. Armstrong, Government meteorologist.

The hottest July on record was in 1921 when the mean temperature was 81.1 degrees. The highest temperature for the month was recorded the 21st, when 94 degrees was reached. The record for July was set in 1921, when the mercury climbed to 105 degrees on the 22d. The lowest temperature was 56 degrees on the first day of the month. This was 18 degrees higher than the low mark set in 1883.

Temperature of around 90 degrees was threatened today. The highest mark Wednesday was 89 at 1:30 p. m. It dropped to 75 at 6 a. m. today, but by 9 a. m. had climbed to 83.

Lack of wind was given as cause for the heat by the weather bureau. Velocity was little more than a mile an hour during the morning.

Showers were promised before the day ends, with fair and cooler weather tonight and Friday.
