ATHLETICS FIND PLACE IN YOUTH'S TRAINING AT CAMP

Track Meet and Field Day to Be Held During Last Week.

By DOROTHY STANHOPE, Times Staff Correspondent
CAMP KNOX, Ky., Aug. 8.—Athletics are considered a very essential feature of military training. Hence the order issued from headquarters of the citizens' military training camp concerning the subject in a very comprehensive manner is quite in keeping with this idea.

It includes baseball, for which every company is to form a team. At present a tournament is in progress. There will be nine games, some played simultaneously on the two fields used by this camp. At the conclusion of the nine games the winners will compete for the championship.

Tennis Encouraged
Tennis is also encouraged, both singles and doubles. There are four excellent courts which are used. There is to be a tournament played shortly and in order to select the representatives from each company certain players from each have been assigned to play on certain courts, certain days.

Boxing is considered by the army to be one of the best forms of athletics, and so has a large part on the program of the C. M. T. C. The boxing tournament is now going on and will continue until the 13th each evening at 7:30 in the auditorium, commonly known as the Haymarket.

The first match was played on Monday evening, and drew about 2,000 spectators, who were most enthusiastic in cheering for their favorites.

Two Hours for Sports
Every afternoon there are about two hours when the boys can practice all the sports, and Wednesday afternoon is set aside as athletic afternoon when every boy must engage in some form of athletics.

During the last week of the encampment, just preceding the 25th, there will be a track meet and field day.

Each company is directed to make one entry in each event: 100-yard dash, 220-yard dash, 440-yard dash, 120-yard high hurdle, 220 low hurdle, running broad jump, pole-vault, shot-put, tug of war, 440-yard relay and half mile relay.

WITHDRAWALS ARE NOT RECOGNIZED

Central Labor Union Acts on Member Bodies.

By vote of 4 to 3 the executive committee of the Central Labor Union has refused to recognize withdrawals of three local unions, Henry Friedman, executive committee, said today.

Friedman said the constitution of the American Federation of Labor does not permit such action. Printers, carpenters and sheet metal workers' locals were involved.

Refusal to recognize the withdrawals means that candidates for offices to be voted upon next Monday evening who were members of the affected union will remain upon the tickets.

The unions withdrew stating they objected to injection of questions other than purely union matters into the central body's deliberations.

The situation was further complicated when the Painters' Union decided Tuesday night to withdraw.

Sensible Motorists Will Be as Cautious as Traction Company Here If They Value Lives

SHERMAN DR. CROSSING OF UNION TRACTION NEWCASTLE LINE

The Union Traction Company is observing caution at the crossing of its Newcastle line at Sherman Dr. The motorist who values his precious life will do the same.

When Trafficmen Owen and Paul of the accident prevention division reported to the company that a warning bell and set of warning lights at the crossing did not work when interurbans approached, the company immediately had the signals fixed and ordered motorists to stop their cars before crossing the pavement.

The crossing is dangerous because on the west a trestle supporting the Belt Railroad tracks makes a view of the tracks impossible until an automobile is already on the tracks.

A bank also cuts off the view of an approaching car from the west.

Looking east, the motorist unfamiliar with the track is misled by a curve to the north around which interurbans glide almost without noise. Add to this the fact that only the top of the interurban can be seen by one familiar with the layout of the track.
