

FARM IS RAIDED; 20-GALLON STILL SEIZED BY SQUAD

William Pretzel Is Held
on Blind Tiger
Charge.

A twenty-gallon still, warm from operation, was seized by Federal Officers George Winkler and Holman and Police Lieutenant Jones and squad when they raided the home of William R. Pretzel, 36, living at Box 455, R. R. D. about a quarter of a mile from Stop 6 on the Madison road Wednesday, officials charged today.

Three gallons of fresh whisky was seized, 200 gallons of mash destroyed, police say.

Lieutenant Johnson and squad found a half-pint of white mule and five whisky glasses, they say, behind the counter at a soft drink parlor operated by George Wright, 35, of 939 Shelby St. Wright is charged with operating a blind tiger.

Sergeant O'Connor and squad of night riders arrested Ned C. Moore, 35, South Linton, Ind., and charged him with operating a blind tiger.

Sergeant Drinkut and squad found liquor in a shed on Pratt St. A five-gallon delivery was traced and the arrest of John Whitney, 45, and Thomas Hopkins, 34, both colored, of 623 W. Vermont St., followed.

Pretzel was bound over to grand jury today on blind tiger charges.

SPECIAL SESSION IS URGED FOR FARMER

Bankers and Business Men of Northwest Lay Relief Measures Before Coolidge at Washington.

WASHINGTON, Sept. 27.—Calling for an extra session of Congress immediately, a delegation of Northwest bankers and business men today laid before President Coolidge two measures for assisting wheat farmers and agriculture generally. These measures were:

1. Immediate revival of an extra session of Congress of the United States Grain Corporation as a marketing agency for grain surpluses.

2. Creating a board or commission to advise farmers as to acreage that can profitably be planted, so as to keep down the production to a level that will not glut the market with an unsalable surplus.

Bankers Heads Committee
The committee was headed by A. D. Stephens, banker of Crookston, Minn., and Representative Young of North Dakota.

Shortly before the bankers' committee arrived, Senator Borah held a brief conference with the President, but stated he was not yet ready to present his complete farm relief program. He will return to the White House tomorrow or next day.

President Has Data
Coolidge has the data showing how wheat farmers are going bankrupt, mortgaging their farms, borrowing money and then being unable to repay it or to pay the interest; how farms are being sold for taxes and mortgages foreclosed.

Mr. Coolidge now has before him a great mass of suggestions and plans. Those which are receiving consideration include:

1. By Secretary of Agriculture Wallace—That a Federal grain export corporation be formed to find markets for surplus products, that a 25 per cent reduction in freight rates on farm products be made immediately.

2. By Representative Sydney Anderson of Minnesota—That the tariff on wheat be sharply increased under the flexible provisions of the tariff law.

3. By Representative Sinclair, North Dakota—That the Norris-Stinclair marketing bill be recommended for passage at an extra session of Congress.

4. By Northwestern Bankers—That the United States Grain Corporation be revived.

5. By a Number of Members of Congress—That the prices of wheat be fixed to give farmers a chance to sell at a figure that will pay the cost of production and leave a profit.

6. By Senators McNary and Stanford, Oregon—That more adequate credit facilities be assured wheat farmers.

WASHINGTON, Sept. 27.—Mrs. Veronica M. Tammern wrote love letters to herself.

She told the court Wednesday she did it because her husband said she was unattractive and that she would become dependent upon charity if he left her.

She left the letters for her husband to find. They were encased in a box of candy, the Hoosier Athletic Club.

SCHOOL BUILDING BIDS ARE OPENED

Bond Issue Depends Upon
Proposal Figures.

Bids on new buildings at Schools No. 62, E. Tenth and Wallace Sts.; 70, Central Ave. and Forty-Sixth St., and 75, Belle View Pl. and W. Fourteenth St., were opened by the school board today.

The buildings are part of the new building program which includes buildings and additions at eight schools.

Bids for the remaining five buildings will be received in a few weeks. If the bids are satisfactory to the State tax board that will approve a bond issue for \$1,650,000 for their construction.

Three Trucks Bought
Purchase of three three and one-half ton Federal trucks from the Cartinhour-Bowman Company at \$4,855 each has been authorized by the board of works.

Gen. Aultman and Staff Guests
Gen. Dwight E. Aultman and staff of Ft. Benjamin Harrison will be the guests of McIlvaine-Kothe Post, American Legion, at dinner at the Athenaeum Monday. Alfred Evans, British naval veteran, will speak.

Franklin Woman Is Honor Guest of Club at Dinner.
Plans for the national convention of the Federation of Business and Professional Women at West Baden in 1924 are beginning to take the stage of interest in that organization. Mrs. Ethel C. Bailey, president of the Franklin unit, who was an honor guest Wednesday night at the Woman's City Club dinner given at the Chamber of Commerce, gave an outline of the present plans.

Miss Adelle Storck, president of the club here, gave a report of the convention at Portland, Ore. A number of other delegates gave short reports.

With a view to increasing the scholarship fund, tulip tree cards, the State floral emblem, were distributed among the members for sale.

COAL WEIGHT CRUSADE
A campaign against short coal weights will be launched by the city department of weights and measures inspection with winter approach.

Records of the department today showed 144 reports on inspection of coal this year and only twenty-seven showed short weights. Of the short weights, the worst was forty-five pounds, which was made good by the company. The city does not prosecute on short weight under fifty pounds.

Police Suspect Juveniles
Burglars entered the home of T. W. Dellinger, 1206 Burdall Ave., while the family was away Wednesday and after ransacking the house, breaking cigars, eating a box of candy, taking bites out of apples, left, taking the contents of a child's bank which was found by police broken open in the rear yard. Police think it is the work of juveniles.

By Times Special
BRAZIL, Ind., Sept. 27.—"Shep," pet dog of Mr. and Mrs. Thomas Davis, can have anything he wants. For Julia Jane, 2, fell in a ruin barrel when she attempted to lift the lid to permit the dog to get a drink. But "Shep" pulled the child from the water, probably saving her life.

REPUBLICANS MEET AT NORTH VERNON

Senator Watson Pleads for
Party Harmony.

By United Press
NORTH VERNON, Ind., Sept. 27.—Republicans of the Fourth Congressional District gathered here today for a party conference with State Chairman Walb, Senator James E. Watson, Joseph B. Keeling, national committeeman from Indiana; Mrs. Edna H. Bucklin of Brazil, State vice chairman, and other party leaders.

While no official mention was made of the situation brought about by Governor McCray's financial crash, it was the topic most frequently mentioned in informal groups by the Fourth District Republicans, who came to the meeting to get an inkling of the possible action which the State committee will take with regard to Governor McCray.

Chairman Walb and Senator Watson both made pleas for restoration of harmony within the party ranks for the forthcoming campaign.

"The Republican party in Indiana needs confidence in itself, not sympathy," Walb declared.

Officers of the accident prevention department, Toole, Owens, Paul and McMahan, investigated for evidence of negligence.

W. F. Glitz, 617 Sanders St., was cut about the face and head when crossing gates at the Pennsylvania railroad crossing on S. State St. crashed down on his automobile as he was crossing. Paul Kemp, R. R. D. box 419 A, flagman at the crossing, said he attempted to raise the gates, but they locked and he lost control of them.

AUTO CLUB URGES CHECK ON BRAKES

HERE'S A SPOOK MYSTERY
"Ghost" May Be Just Imagination, but Canned Goods Vanish.

"I might believe it was a case of haunted house or some other supernatural theory under other circumstances," said Fred McCallister, 5332 Byram Ave., in referring to the opinion of the police that he imagined he saw a man with a white covering over his face in the house at 3334 Byram Ave., formerly occupied by his father, recently deceased.

"Not if there had not been such a steady decrease of the stock of canned fruit in the house recently," McCallister added.

"When my wife and I both saw a light in the house at a man there I armed myself with a shotgun and started over. The light went off."

Sergeant Allison and members of the police emergency squad searched the house but say they could find no trace of a man or where he had entered.

"Speed Must Be Regulated," Declares Motor President.

"Brakes O. K." is the caption placed on the back end of street cars by the Hoosier Motor Club in cooperation with the police department in the safety campaign.

"Whether two or four wheels—if they are not right, you may be a murderer any minute. Check up now—and often," the placard read.

"Every driver knows whether his brakes are working properly," declared Frank Wampler, president of the club. "However, it is essential that speed be held to a reasonable rate," Wampler added. "If a child suddenly runs in front of a motor vehicle the best brakes in the world will not prevent a repetition of the two fatalities to children the past week."

John E. Frederick of Kokomo was named chairman.

Indiana University Dean Will Aid Chamber Committee.

An exhaustive study of tax laws and tax problems in Indiana will be made by the tax survey committee of the Indiana Chamber of Commerce, it was announced today.

Research work will be completed by Jan. 1, when the committee will analyze the report and formulate recommendations.

The committee in an organized meeting at the Board of Trade Wednesday decided to accept the cooperation of Dr. W. A. Rawles, dean of the School of Finance and Commerce of Indiana University, who will gather data of laws of neighborhood States.

John E. Frederick of Kokomo was named chairman.

How Nuxated Iron Works To Increase Your Strength, Energy, Endurance and Physical Power

Science has now proved that every muscle, nerve and organ in your body is composed of thousands of little cells that are being used up and worn out each day, and then rebuilt from the food you eat. It is the iron in your blood which carries the digested food from your stomach to these little cells. Without iron your food merely passes through you—you can't get the good out of it and the little cells of your body become soft and flabby and lose their power to rebuild the wasted muscles. The body without iron is exactly like a wooden building compared with one built of steel. Nature put orange iron for your body in the livers of grain and the skins and peels of vegetables and fruits, but modern methods of cooking throw these things away so that physicians now show that an enormous number of people lack the iron in their blood and like the iron in spinach, lentils and apples. If you are anxious to build up your strength and bodily powers, you should at once try using a little of this peculiar form of iron with your daily food, to help build strong, iron-like cells.

Surprising results have been obtained in many cases, in two weeks' time. In fact a former medical inspector and clinical physician of the Board of Health, N.Y. City, says: "There are countless numbers of men today who at forty are broken in health and steadily going downward to physical and mental decay. Yet there are thousands of the same men who undergo a remarkable transformation the moment they get plenty of iron into their blood." This newer form of iron is comparatively inexpensive and may be obtained from your druggist under the name of Nuxated Iron. In his mind with your food as directed on each package. Do not make a mistake and get one of the old forms of metallic iron instead of Nuxated Iron, which is a truly different thing. Many a prize fighter has won championships because professional trainers know the secret of great strength and endurance which comes from having plenty of iron in your blood. It would seem that the average man would realize how much more important it is for him to build up his strength and resistance to disease and go right to the nearest druggist and get a package of Nuxated Iron.

Today, recognized as the physical superior of any living man, the superhero of the age, Jack Dempsey, heavyweight champion of the world, explains below the part Nuxated Iron played in helping to prepare him for the four supreme tests of his career.

First he used Nuxated Iron as a part of his training to increase his strength and endurance in his decisive victory over the mighty Willard who had never before been knocked from his feet. In this battle Dempsey displayed a dynamic, overwhelming strength and power never before known in the history of the ring; then in his phenomenal victory over Cummings and Gibbons he displayed that same indomitable force and power that is impossible in any human being. Now again in his victory over Firpo, he has demonstrated the great advantage possessed by an athlete whose blood is rich in iron. The fact that Dempsey took Nuxated Iron as part of his training for Willard, Cummings and Gibbons and Firpo is convincing evidence of the importance he attaches to keeping his blood rich in strength-giving iron, and the high regard in which he holds Nuxated Iron as a master strength and blood builder.

In a statement made at his headquarters after his last fight Jack Dempsey said in training for the Firpo fight I felt that the basis for all my other work was to get the iron in my blood. I knew that if I had a strong blood I would possess that stamina and power that is impossible in any man. I took Nuxated Iron daily all through my training for the Firpo battle as I felt that it had helped me to be in superb condition for Willard, Cummings and Gibbons. The result with Firpo proves that I possessed all my old time strength and punch. It should occur to every thinking person that if a man physically fit as Dempsey should consider it advisable to take Nuxated Iron in training for his battles, how much more important it is for the average man or woman to see that there is no lack of iron in the blood. Thousands of men and women are weak, run down and old before their time, their nerve force shattered and their health wrecked simply because they have allowed worry, overwork, grief, constant nervous strain and excess of various physical ills to rob them of their blood. In such cases the only way to get back to health is to take Nuxated Iron. It is the only iron that is so easily absorbed, so gentle on the stomach, so free from all irritability, heart palpitations, indigestion, splitting headaches, pain, neuralgia, and all the other ills that come from the lack of iron in the blood.
