

# WALTON SAYS HE EXPECTED SOLONS TO TURN HIM OUT

Senate Leader Declares 'The People of Oklahoma Wanted the Governor Removed and We Carried Out Their Mandate.'

By United Press  
OKLAHOMA CITY, Okla., Nov. 20.—"The people of Oklahoma wanted Governor Walton removed. We carried out their mandate."

With this statement the House board of members which prosecuted impeachment charges against Walton, answered his assertion he had not received a fair trial.

"Jack" Walton, whose meteoric career reached its heights in war against the Ku-Klux Klan, was found guilty by the Senate on 11 of 16 impeachment articles and removed from office late Monday.

"I got what I expected from that particular court," the ousted executive said today, announcing his attorneys will carry to the Supreme Court of the United States a fight to replace him in office.

## Applause Greets Verdict

When the roll was completed Monday the clerk read the result and Chief Justice J. T. Johnson of the State Supreme Court, who presided at the trial, announced the verdict.

"Guilty," as charged in Article 19, the chief justice said. Applause greeted his words and brought a hasty repudiation from the marshal of the Senate.

Then followed in rapid succession verdicts on each of the remaining charges.

Those on which the Governor was convicted in the order of voting were: That he exceeded his pardon and parole powers. Vote, 41 to 9.

That he placed his personal chauffeur on the State health department payroll—35 to 6.

That he passed the State pay roll—88 to 3.

That he prevented the assembling of a grand jury—33 to 1.

That he suspended the right to the writ of habeas corpus—40 to 1.

That he issued a \$10,000 deficiency certificate for the State health department when no deficiency existed—37 to 4.

## Created Jobs for Barbers

That he issued a deficiency certificate for \$4,000 for a State negro orphan home in order to provide salaries for two negro barbers whom he ordered placed on the pay roll of the institution—40 to 1.

That he attempted to prevent a special State election to be held Oct. 2—37 to 3.

That he exceeded the legal limit of election expenses—28 to 13.

That he solicited gifts and contributions for expenses of his office after he was elected—Unanimous.

That he is generally incompetent—25 to 4.

The charges on which he was acquitted were:

That he used his official position to obtain personal property and credit—23 to 18. (Lacking the necessary two-thirds majority to convict.)

That he received a \$6,000 bribe to approve an appropriation for a State business academy—25 to 14.

That he refused to permit the execution of the law providing capital punishment—11 to 30.

That he illegally named large number of known criminals and irresponsible persons as State police—24 to 17.

That he illegally named Charles H. Barker, a member of the State Legislature, as a district judge—12 to 29.

## Walton Is Absent

The ousted Governor, who threw the Senate court into wild commotion Saturday when he arose from his chair, denounced his accusers for not giving him a fair trial, and accompanied by his wife and counsel, walked swiftly from the Senate chamber, was not in at the finish of his case.

He received word of his ouster over the telephone at his home, refusing to appear and "face further humiliation" as he had told the solons when he ordered his counsel to withdraw from the case.

He refused to see newspaper men and declined to issue a statement. However, it was learned he would accept the offer of a thirty-five day lecture tour, extended him shortly after his impeachment trial had begun.

On two of the articles taken up early in the evening Walton was found not guilty. Those voting guilty were not in a two-thirds majority on either charge of "using his office to acquire private credit" or "the Tonkawa bribe" charge.

This did not affect the main result which was determined when the first vote was taken.

Forty-one senators voted on Walton's fate. Senator Jack Barker of El Reno, who had stood by the Governor in every previous ballot, was absent.

## Klansmen Jubilant

Klansmen were plainly jubilant. Leaders, however, refused to comment on the result other than to express their opinion that the verdict had been generally predicted and came as no great surprise.

Now that Walton has been ousted, senators declared themselves to be eager to plunge into the mass of anti-Klan legislation which was put aside pending the Governor's trial.

Serious consideration, it was indicated, will be given to one bill which would force all secret societies to forego the use of masks in public and would force them to file their membership with the secretary of the State.

## 'Gentler Sex' Shun Revolvers as Means of Self-Protection

HAT-pins, rolling pins and other makeshift weapons are still the most popular feminine means of defense, a glance through the permit for possession of firearms shows with only sixteen of the "gentler sex" in possession of firearms.

Many of the permits issued to men for the protection of their property are found to be for the safety of the wife while hubby is on his weekly sales trip.

"I want to keep it as a keep-sake of my dear husband," one woman says, when asked for a reason for keeping a revolver in her home.

**Threatening Letter Is Cited**

Telephone operators and other women employed during the week small hours are still depending on their vocal chords to summon protection as no women have taken out permits to carry firearms while traveling the deserted streets on their way home from work.

Records show that the majority of the weapons are kept for the protection of property and business establishments.

A receipt of a threatening letter is given as an excuse to "fete a gat" by a man in fear for his life. A revolver is needed for self-protection while preaching the gospel in the underworld, one minister said in making out his application. An actor needs his weapon for theatrical purposes, records show.

**352 Permits This Year**

For the first ten months of this year 352 permits have been issued for possession of firearms as compared with the issuance of 515 for the twelve months of 1932.

Immediate protection for the citizens who have moved to the outskirts in the city in the past year is given as the cause for the increase over 1932.

"Law-abiding citizens are found to be those who make the requests," Oscar Quiesner, secretary of Police Chief Herman Rikhoff, said.

## 16 AIRPLANES AND HANGAR BURNED IN \$60,000 FIRE

Lack of Water Prevents Checking of Blaze at Kokomo Aviation Field.

By United Press  
KOKOMO, Ind., Nov. 20.—Damage estimated at nearly \$60,000 was caused by fire which destroyed a hangar of the Kokomo Aviation Corporation near here late yesterday.

The blaze had gained great headway before it was discovered. It was thought to have originated from defective electric wiring.

Fifteen airplanes, thirty motors and a large quantity of equipment were burned.

The hangar was one of the three owned by the company at the Wilbur Fagley Field. Two steel covered hangars near the one destroyed, in which were eleven army planes owned by the Indiana National Guard, were not damaged.

Although the alarm was sent in, the blaze could not be checked because there was no water connections near.

The explosion of twenty bombs threatened to destroy all the buildings in the field.

Hugh B. Perry, secretary of the aviation corporation, said insurance of less than \$10,000 was carried.
