Dangerous**

The Real Danger Is Not from the Rup-
ture Itself, But from the Hard Pads
and the Pressure of the Spring
of the Usual Style of Truss.

The Brooks Appliance Is the Only
Strictly Modern and Entirely
Comfortable Way of Hold-
ing a Rupture.

This Man Is Ruptured Yet Plays
Football Safely—Because He Uses
A BROOKS APPLIANCE

Just because you are unfortunate in
being ruptured is no good reason why
you should not freely engage in every
form of athletic sport, dancing, skat-
ing and all amusements.

A Brooks Appliance will hold firmly
yet will permit you to move at all times
and under all conditions. "There are
no hard pads nor springs of any kind
about a Brooks Appliance," so soft
that it will not injure the skin. It is
shaped so as firmly to cling to the body
and hold the rupture back just as
you would do with the pressure of
your hand.

The percentage of permanent cures
that the Brooks Appliance makes is
astonishingly great. Over 21,000 peo-
ple—adults, men, women and chil-
dren—have been helped and have given
written testimony of cures.

A FREE TRIAL is always allowed.
Do not be deceived by counterfeits
and so-called "Brooks Model." Look
always for the Brooks label and the
name of C. E. Brooks in gold upon
every genuine Appliance.

The success of the Brooks is due to
a secret that truss makers have never
discovered, so there are no imitations if you
expect satisfaction.

HIS SALE INTERRUPTED

John Dampier Arrested by Officers
on Liquor Law Charge.

John Dampier, 44, of 1208 Gimbel
St., faced trial today in city court
on a charge of operating a blind tiger.
Police and Federal officers say they
caught him making a sale of a half-
pint of liquor.

John Radez, 35, of 743 Haugh St.,
was also arrested on a liquor charge.
Others charged with liquor law
violation: George W. Fry, of 1255
Standard Ave.; Elmer Boyce, 61, of
1509 Reisner St.; Claude, 23, and Ross
Dixon, 27, both colored, of 524 Indiana
Ave., and Glenn Carter, 28, of
996 Indiana Ave.

Instead of the familiar sarcophagus
over the center section of the
tapering background, the insignia
of the fraternity has been imposed.

The modeling of the bust follows
the sculptor's facile rendering of
important and vital details so that,
according to friends of the deceased,
the piece is most lifelike and re-
flects appreciably the character of
the man they seek to honor.

Mr. Richards received the com-
mission from the grand lodge and
encamped a year ago.

The bust was unveiled Wednesday
by Miss Grace Leedy, daughter of the
former grand secretary, and present-
ed to the order by John B. Cockrum,
past grand sire, in the grand lodge
hall. Judge Herdis Clements, Mt.
Vernon, grand master, grand lodge.

Bricklayers' Class Organize

Bricklayer apprentices have orga-
nized a class in blue print reading and
estimating which meets at Emmerich
Manual Training High School two
nights each week. W. H. Albersmeyer,
architect, is in charge. This is one of
many vocational classes in the public
schools. According to Harry E. Wood,
director of vocational training and
manual training, the most popular vo-
cational class, is that in salesmanship.

Don't Fuss With Mustard Plasters!

Musterole Works Without the Blister
—Easier, Quicker

There's no sense in making a mess
of mustard, flour and water when you
can easily relieve pain, soreness or
stiffness with a little clean, white
Musterole.

Musterole is made of pure oil of
mustard and other helpful ingre-
dients, combined in the form of the
present white ointment. It takes the
place of mustard plasters, and will not
blister.

Musterole usually gives prompt relief
from sore throat, bronchitis, spas-
modic crop, stiff neck, neuralgia, head-
ache, congestion, pleurisy, rheumatism,
lumbago, pains and aches of the back
or joints, sprains, sore muscles,
bruises, chilblains, frosty feet, colds
of the chest (it may prevent pneumo-
nia).
