'We'll Dodge Cupid,' Say Men; Girls Say, 'Bunk'

TOP, MISS VERA MOORE; LEFT, MISS ALEEN M'GRADY; RIGHT, MISS MAXINE PADLEY.

By NEA Service
ORAIN, Ohio, Jan. 1.—This little Lake Erie city is the scene of a spirited fight between the sexes. It's on account of Leap Year.

Recently, with the coming of 1924 but a few weeks off, a number of Lorain's young men banded together, resolved to forswear the deadlier species during Leap Year and formed the Amalgamated Order of Confirmed Bachelors. Among its by-laws are the following regulations:

1. No member shall flirt; the club rooms shall be bare of all pictures of girls or women; no member shall whistle any song containing the word "love"; no member shall marry during 1924.

This was all right as far as it went, but the girls quickly resolved not to let the men get away with it.

"If a girl wants a man, all the rules of the Amalgamated Order can't hold him," said Miss Aleen M'Grady, in the first broadside laid down by the fair sex against the organization.

"The boys are bluffing," said Miss Maxine Padley. "They can't get away with a thing as foolish as that."

So a counter organization has been formed and it is causing no little concern among the ranks of the bachelors. Miss Vera Moore, one of the organizers of the "Anti," declares the rules of the girls' outfit will "make the Amalgamated by-laws look like thirty cents."

FEMININE VOTE IS TO BE ORGANIZED IN APRIL MEETING

Women's League Seeks to
Crystallize Opinions of
National Body.

Local leaders of the National League of Women Voters were interested today in the formal call for the fifth annual convention in Buffalo, April 24 to 29, issued by the board of directors and Mrs. Maude Wood Park, president. Indiana will be fully represented.

The convention will mark the opening of an intensive campaign "to get out the vote" for the 1924 election. Seventy-five per cent of the eligible vote is the league's goal.

"In the election of 1920, for the first time in the history of our nation, women throughout the United States were entitled to vote," the call reads. "Most of them were strangers in the great domain of public affairs. They had much to learn.

"Year by year since then the league has carried on with increasing success the work of educating women for the primary duty of good citizenship—the casting of an informed and conscientious vote.

"At Buffalo, the league will gather with another national election ahead, an election in which the work of four years will be tested. To meet that test, all our strength of mind and numbers, all our experience, all our wisdom, and our devotion will be needed."

X-RAY WONDERS

ANY important discoveries in modern medical treatment are the result of having the X-ray show the seat of infection.

If we eliminate such diseases as the eruptive fevers, smallpox, measles, diphtheria, typhoid fever, tuberculosis and syphilis, we find about seventy-five per cent of the other diseases are due to local infection in the mouth, teeth and tonsils and the sinuses (both frontal and maxillary).

Dr. Roseow of the Mayo Clinic has found this to be a fact. In his experiments he has reproduced in animals the diseases from which patients have suffered. By obtaining some of the material at the root of an infected tooth or from a macerated tonsil (after removal) he has injected it into an animal and produced the disease from which the patient was suffering.

High authorities in American medicine have predicted an increase in the longevity of the race during the coming generation of fully ten years. This is partly because the wonderful X-ray has shown the way. The public will be glad to add in carrying out the practice of preventive medicine to further such humane results.

The actual cost of having an X-ray examination for your health and protection is small. But whatever its cost the value in locating infection is worth any price. Where the dental clinic is fully equipped, the charge is moderate for mouth tests.

If you are worrying on account of a break in your health that seems to baffle detection, by all means go to a first-class physician for a diagnosis. He may find that an X-ray test will help locate the cause of your trouble.

BRONCHIAL COUGH
FOR 36 YEARS
Mrs. Bice finally stopped it, without changing climate.

"I had bronchitis for thirty-six years. When I was 2 years old, I had whooping-cough and it left me in an awful state. I took hundreds of dollars' worth of medicine, with but little relief. I had to sit up in bed all night and cough and choke until my eyes nearly burst out of their sockets. I could not afford to change climate.

"Finally my husband urged me to try Milks Emulsion, saying if it didn't help me, I could get my money back. I tried it and have continued its use until now my bronchial tubes are free and clear and I can breathe with ease. When you think that I had this dreaded disease all my life, you can see why I want everybody to try Milks Emulsion."—Mrs. Anna Bice, 1451 Wendall St., Columbus, Ohio.

Sprays and gargles and local remedies do not touch a cough of this kind. The system must be built up to throw it off.

Milks Emulsion restores healthy, natural bowel action; it is a truly corrective medicine, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food, and thus build flesh and strength. Milks Emulsion is strongly recommended to those whose stomachs has weakened; it is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—take six bottles home with you, use it according to directions, and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by drugists everywhere.—Advertisement.

LETTER FROM LESLIE PRESCOTT TO HER HUSBAND, JOHN ALDEN PRESCOTT

Dad and mother came this morning, dear John, and poor dad is looking pretty thin. I am quite sure the journey across will do him a lot of good.

Jack, if you could see how delighted they are with junior it would make you very happy. Dad took him up his hands, grabbed his mustache and fairly hung onto it, which of course pleased dad more than anything else in the world.

In fact, it has been impossible for mother and me to get him away from the boy for one minute. He even wanted to take him down to the dining room for luncheon yesterday, and when I told him it was against the rules of the house, he almost left the hotel because he would not have his grandson clasped with dogs and parrots and other such animals.

Jack, dad is growing old. I never realized it until seeing him this time. You see I haven't seen him since he was ill and he seems to have aged years instead of weeks.

"Made Me Unhappy"
You forgot to say good-bye to me, Jack, and it has made me very unhappy. What did we quarrel about

anyway? I have forgotten and I only know that I would be very miserable if you and I should have many differences.

Mother and dad both asked about you and they are so very glad you are getting along well in your business. Father likes you particularly well, Jack. Said of all the men who had ever seen devoted to me, he would have picked you out for his son-in-law.

Now don't you feel set up?

I saw by the papers this morning that moving picture in which Miss Perier stars has already made two million dollars for its producers.

Some one told me the other day that you had teased her around quite a little. Just think you might have been a multimillionaire soon if you had married her!

In these days of moving picture salaries one never knows if the waitress who serves one buckwheat cakes and maple sirup in the morning will not be riding in a limousine at night—providing some director has admired the graceful way in which she spilled his coffee down his back.

"Have I Rumbled On?"
Dear, I have rumbled on just the way I talk to you when you come home from the office at night. I hope you are not angry with me.

any more, dear, for I want you to know that you would be just perfect if you let me have a little say in what I want to do. Why, Jack, do you realize that in all the time we have been married, even when we have gone out to a restaurant, you have always said to me, "Order anything you want, dear. Let's have a beefsteak," and we have always eaten steak.

Don't laugh at me, dear. I could never tell you that, but I always wanted something else. Not especially because I was not fond of steak, but just because I really did want to have something to say about my own food.

Think it over, Jack, because after this I am going to do my own ordering. Lovingly, LESLIE.
