SOAKS RIGHT IN AND LIMBERS UP STIFF JOINTS

Pharmacists Call It "Joint-Ease" Because It's for Swollen, Sore, Painful, Creaky Joints Only.

It took a good many years to get together a combination of pain subduing and swelling reducing agents declared to be the one remedy that almost instantly penetrates through skin and flesh and starts right in to make swollen, inflamed, creaky, pain-racked joints as good as new.

They call this new and wonderful preparation "Joint-Ease," because the median man who turned the trick, worked for years to perfect some low-priced remedy that would really benefit the millions of people who have one or more joints that need helpful attention.

So "Joint-Ease" is prepared only for people who have a swollen, painful, creaky, distorted or stiff joint, whether it be in knee, elbow, shoulder, ankle, neck, finger, and whether it is caused by rheumatism or something else.

Of course, it can't help but quickly put an end to such superficial ailments as lumbago, neuralgia, neuritis, aching muscles, stitch in the side, crick in the neck or sore feet, and it is a penetrating action, but what it is really recommended for is joint ailments of any nature whatever.

Ask for a tube of "Joint-Ease." You can use it several times in one evening for quick results, because it goes right through the skin with only a few seconds rubbing. It surely is a swift penetrator and when it gets under the skin, it starts right in to clean up all joint trouble.

AGENT IS SPOONAEED. Ammunition Seized by South Later Used by Mexican Rebels.

Copyright, 1924, by Scripps-Howard Newspaper Alliance. SAN DIEGO, Cal., March 8.—David Gershon, a former special agent under William J. Burns in the Department of Justice, is en route to Washington in response to a subpoena from the United States committee investigating the department.

Gershon was a department agent at the time of the Cantu revolutionary attempt in Lower California in 1921. Oct. 22, 1921, at midnight, Gershon seized within a half mile of the Mexican border, at Nacozari, Cal., three truck loads of arms and ammunition, including Winchester rifles, soft-nosed bullets and cartridge packs.

Arrests Three Men. He arrested Jack Flahive and his two sons, who were driving the trucks. The arrested men were placed in the county jail here. On Oct. 28 he had the three men released and turned the seized munitions over to them.

It is declared Gershon directed the release of the men and munitions after receiving a direct order from Washington to do so.

Immediately the recruiting of men in San Diego for a Cantu revolution became open. On Gershon's reporting this fact to Washington it is said he was told to take no action without specific instructions from the Justice Department.

On the night of Nov. 25, 1921, there was an engagement just across the border near Tia Juana. The rebels were defeated by the Mexican federals and many were killed.

Use Confiscated Guns. It is alleged not only were the rebels men who had been recruited on American soil, but that they used the very arms and ammunition which Gershon had seized and been ordered to release.

Following the battle the rebel fugitives, some of them wounded, recrossed the line and were taken into custody by United States immigration officers. Statements made by them were forwarded to Washington.

TESTIMONY IS REPUDIATED. Telegrams Reveal Jones Close to Fall, Although Burns Denied It.

Copyright, 1924, by Scripps-Howard Newspaper Alliance. WASHINGTON, March 8.—On the witness stand early this week William J. Burns told the Teapot Dome committee that Gus Jones, Department of Justice agent at San Antonio, Texas, was not a friend of former Secretary Fall.

Since that time there had been read into the record telegrams from Jones to Fall reporting on conditions in Mexico, and from Fall to Jones, telling Jones to "get in touch with Burley immediately. Ask him if he can come here at once as my attorney and adviser. This is very important. See him before he sails. Answer."

This telegram to Jones was sent from Palm Beach by Fall the day McLean swore to the unsworn check loan story.

The Buckley referred to is supposed to be William Buckley of the Pan-American Petroleum Company, Tampico, Mexico, who was active in Mexican oil affairs and who was deported from Mexico on orders of President Obregon.

Oregon charged Buckley with pernicious activities in Mexican political affairs. The Buckley interests own large oil and real estate holdings in the Tampico district.

Enterprise Civic League Opposes Increase—South-eastern Club Acts.

One more civic club has gone on record in opposition to higher street car fare and one club has approved a moderate increase. The Enterprise Civic League joined other clubs in opposing the proposed increase. The Southeastern Civic Improvement Club is the first organization since the subject was referred to individual clubs to endorse higher fares.

The Enterprise Civic League, meeting at Branch Library No. 5, Friday night, not only opposed higher fares, but it condemned the city administration for favoring such an increase. The resolution was proposed by J. Stephen Pullen, who declared that deliberate propaganda is being carried on to mislead the public.

The club also went on record as favoring immediate action on the high school building program.

The Southeastern Civic favored the increase only on condition that the proceeds be used exclusively for improvements and extensions. It also asked that such funds be spent only with the approval of the city finance department or of an advisory committee appointed for the purpose.
