

CHRISTIAN SCIENCE IS ONLY WAY OUT, SAYS LECTURER

Arguments of Medics and Theologians Are Discussed by Speaker.

"The understanding and practical application of the Science of Christianity affords the only definite way out of the many problems which confront and perplex humanity today," declared John Randall Dunn, C. S. B., Boston, Mass., in a lecture on "Christian Science: The Solution of the World's Problems" at B. F. Keith's Theater at noon today.

"Let us consider the case of a man 'financially sick,' or who may be said to have 'a sick business,'" said the speaker. "Can this spiritual understanding of creation help him? Even so. Possibly every business man will agree that a higher, happier and more hopeful view of things would work wonders in the business world. No realm is more susceptible to mental influences than the so-called business world. Superstition, fear, doubt and panic find easy access thereto, and if not checked and nullified by the action of truth, these may work much mischief with the individual, the community or the nation.

Efficiency of "The Word"

"Should it be thought unreasonable that the word of God, the reflection of infinite mind, which in Jesus' time still storms and raised the dead, should be able in our day to quiet fear, restore confidence, bring about harmony in an organization and promote and bring to success a righteous, business venture?

"Thinking men of every shade of creed and politics agree that in a quickening of the world's religious or spiritual sense lies the salvation of the perished and weary human family. And there they stop. And there Christian Science begins, for it alone offers that practical salvation which begins with the individual's thinking, and in renovating and spiritualizing this is destined to save both men and nations.

Science as Life-Saver

"Picture, if you will, a life-saver heroically battling with the waves in the effort to pull ashore a shipwrecked man or woman. Then imagine, if you can, others standing on the shore, and instead of encouraging the rescuer and assisting in the grand work of rescue, jeering and taunting the rescuer, criticising his methods and predicting disaster. A rather unthinkable picture, is it not? And yet this very thing happens in thousands of instances daily when some earnest Christian Scientist attempts the work of rescue for a shipwrecked brother or sister.

"Material medicine scoffs, old theology hurls its anathemas, the worldly-minded sneer and shrug their shoulders; and in spite of all this, the sick and sinners and heart-broken are being rescued in ever-increasing numbers.

"What glorious quick healing work may we expect to see with increased consecration on the part of practitioner and patient, and a lessened hatred and intolerance with the on-looking brethren not of our fold."

DISTRICT ELEVEN MINERS TAKE UP ROUTINE AFFAIRS

National Secretary Green Expected to Address Convention Late Today.

By United Press
TERRE HAUTE, Ind., March 12.—Having completed the preliminary work necessary, delegates to the twenty-ninth consecutive and sixth biennial convention of District 11, United Mine Workers of America, settled down today to the vital business affairs of the miners of the bituminous coal mines of Indiana.

Various committees, following executive sessions Tuesday evening, submitted their reports to the delegates at the call of President Hessler.

Several proposed important changes in the constitution of the district have been referred to the constitution committee. The resolutions committee also reports they are "flooded" with resolutions from local unions throughout the State.

Major subject matters to be taken up by the delegates may be classified as follows:
Work of auditors.
Work of members of legal department.

Proposed increase in monthly membership assessments, for expenses of delegates to conventions.
Question of making loans to local unions.

Recommend that officers chosen for local unions hereafter be picked carefully to eliminate shortages of which there have been several during the past year.

National Secretary William Green was scheduled to address the convention late today. International President John L. Lewis is expected Thursday or Friday.

Fashionable

By United Press
CHICAGO, March 12.—To be in fashion this year, woman must change her complexion with every gown, the fashion art league convention declared today.

There is some difficulty involved for the "smart" women, as the convention holds the two really fashionable colors this year are black and white. Likewise, plaids and stripes also will be vogue.

Petticoats are absolutely dead, the convention holds, largely because the "tube dresses" will not permit anything more than the "mini-skirt of undergarments."

GOVERNOR'S TRIAL IN COUNTY COURT BEGINS MONDAY

Case to Open After Six Months of Activity Concerning McCray Affairs.

Final arrangements for the trial of Governor Warren T. McCray on charges of embezzlement and larceny, which opens in Criminal Court Monday, are being made.

The Governor will go on trial after more than six months of investigation and activity concerning his affairs. He will be the first Governor of the State ever to defend himself against criminal charges while in the Governor's office.

The trial will be held before Judge Harry O. Chamberlain of the Circuit Court, who has consented to act as special judge in Criminal Court in place of Judge James A. Collins. A special venire of 200 has been drawn for the jury. One hundred will report Monday and the remaining 100 will report Wednesday.

Trial May Last Three Weeks

Attorneys estimate the trial will last three weeks. This would bring about its conclusion just two weeks before the Governor is scheduled to go on trial in Federal Court on charges of using the mails in a scheme to defraud. April 21 has been set as the Federal Court trial date.

Although a total of fifteen indictments was returned against the Governor, the State has elected to try him on only one, the indictments charging embezzlement and larceny growing out of his transactions with the State board of agriculture.

At various times the Governor obtained a total of \$155,000 from the board. He contends it was a loan. The State contends the money was intended for the Discount and Deposit State Bank of Kentland, of which McCray then was president, and that McCray diverted it to his own use.

Brown May Testify

I. Newt Brown of Franklin, former secretary of the board, is expected to be the principal witness for the State. He testified in the McCray bankruptcy hearing in Federal Court that he dealt directly with McCray in the transactions. Other members of the board are also expected to be called.

Other indictments, which still are charges against McCray, but which will not be used, at least at this time, charge forgery, false pretenses and issuing fraudulent financial statements.

The trial is expected to be a "legal battle of the ages." The State will be represented by Eph. Imman and Clarence W. Nichols. McCray will be represented by James W. Noel, John C. Ruckelshaus, Michael A. Ryan, Martin Hugg and George Barnard.

Selection of a jury will come first. This probably will consume considerable time, as each prospective juror is expected to be asked whether he has read of the case and whether he has formed an opinion. The wide publicity given McCray's affairs makes it unlikely that many can be found who are not acquainted with the case.

Prospect If Guilty

If Governor McCray should be found guilty, either in Criminal Court, or in the Federal Court, it is considered certain immediate steps will be taken to bring about his removal from office or his resignation. Following his indictment members of the Republican State committee and of the Legislature met to consider the case.

At that time there were conflicting opinions as to whether the Legislature could be called for impeachment purposes without being called by the Governor. It is said the majority opinion is that the Assembly could so convene. One report has it that if McCray is found guilty and refuses to resign, the Legislature would convene within three days.

The law makes it impossible for a man convicted of a felony to hold public office. But the conviction does not become effective until an appeal to higher courts has been taken and ruled on.

FAKE MATRIMONIAL GAMES ARE JINXED

Girls and Women Seeking to Lure Lucre From Pockets of Credulous Males Have Poor Chance.

Girls and women seeking to lure the elusive dollar from the pockets of gullible males through operation of fake matrimonial schemes probably will seek other fields of activity than Indiana. Postoffice inspectors, Federal grand juries and Judge Albert B. Anderson probably have made the Hoosier world safe for the ignorant, matrimonially inclined men for some time to come.

During the past year not less than a dozen women have appeared before Judge Anderson on using the mails in a scheme to defraud.

Two such cases, those of Bessie Vest of Vincennes and Iva Scull, 19, of Oaktown, near Vincennes, were disposed of by Judge Anderson Tuesday. Sixty days in jail was imposed on the Vest girl. It was her second offense. Her mother, Alice Potter, now is serving a term in the woman's prison for a similar offense.

Girl Is Released

Iva Scull was released on promise to give up the scheme which she admitted had netted between \$400 and \$500. The scheme was the same in all instances. On promise of marriage prospective grooms would send money for railroad fare to the women. The women then pocketed the money and neglected to carry out their part of the contract.

A long list of cases were disposed of at the afternoon session. Vernon Bays, Douglas C. Whitesides and Ben Gibbons, all of Evansville, received three-year sentences at the Federal prison at Atlanta, Ga., on charges of stealing a mail bag at Poseyville, Ind.

In asking for leniency Whitesides said: "Judge, there is a lot of good in me, but it never cropped out."

"He Had Some" Sense

Joseph Finninger, 19, of Alfordville, Daviess County, told the court: "I never wanted to want to get married."

"You have a lot more sense than a lot of men," Judge Anderson answered. The boy was allowed to go home. He admitted stealing a \$40 check from a rural route box.

"What on earth are the mothers of these girls doing? Are they taking care of their daughters or are they spending their time playing grand jury today."

He waived examination in city court late Tuesday.

An investigation by Criminal Court Investigator Claude Worley, starting when Helen Armstrong, 25, 1850 W. St. Clair St., sued for a divorce, disclosed the fact that Wise married Miss Armstrong Sept. 19, 1923, and Miss Mildred Mattson.

Wise married Miss Armstrong after Judge Delbert Wilmett gave him the choice of sentence or becoming her mate after the couple had been arrested, police say.

Wise was arrested Tuesday on a bigamy charge, is under bond to the grand jury today.

SHANK PROMISES TO ENFORCE LAW

Mayor Denounces Politics in Appointments.

By Times Special
VERSAILLES, Ind., March 12.—Appointment of qualified men as heads of departments and institutions was pledged by Mayor Shank of Indianapolis, candidate for U. S. Representative, in a speech here last night. Shank will speak at Aurora tonight.

"The time has passed," Shank said, "when politics, rather than qualifications, should govern appointment of State officials and institution heads."

Shank pledged himself to enforcement of law, if he is elected. He will speak in Lawrenceburg Thursday night, North Vernon Friday night and Columbus Saturday night.

In Rhode Island and Massachusetts there are no limitations on the rate of interest fixed by contract.

The Value of Mountain Valley Water in STOMACH TROUBLE

THESE letters tell of remarkable benefits received by drinking Mountain Valley Water from Hot Springs, Ark. This evidence is typical of many similar tributes to this famous mineral water.

I have been suffering with stomach trouble more or less for nearly fifteen years. Having tried so many diets means without benefit I hardly expected that Mountain Valley Water would accomplish the desired results, but it did and I can truthfully make the statement that I am well. I am not afraid to eat anything now.
