

Easter Hats—My Goodness! How Styles Do Change Over Sixty Years!

Miss 1864

The hat that knocked 'em dead in 1864. The Civil War girl wore an Easter bonnet with a crown trimmed in ostrich feathers and a few flowers. The trim was white silk underneath and black taffeta above.

Miss 1874

Miss 1874 found feathers just the thing for Easter, too. A soft burst of white ostrich plumes cascaded down a saucy brim of dark straw, with just enough brim to throw a shadow over the brows.

Miss 1884

Only by the widest stretch of the imagination could you call Miss 1884's head adornment a hat. A tiny crown of silk and lace and a few flowers—such was the prevailing style in Easter bonnets in those days.

Miss 1894

The tiny hat found favor for a decade or more among the belles of the late 19th century. Miss 1894 is wearing a white silk creation to match her Easter costume, which was white throughout—even to gloves, shoes, parasol and veil.

Miss 1904

This style of Easter hat held the stage in 1904, when croquet was a favorite pastime and high pompadours were in vogue. A mere suggestion of feathers, an abundance of flowers and a wide brim of white, edged in black velvet.

Miss 1914

Only ten years ago—but Miss 1924 looks out from beneath a hat that would look strange today. Ostrich feathers more than held their own from Civil War days to the outbreak of the World War, as can be seen in the Easter creation.

Miss 1919

Miss 1919 was not heartless, but some one killed a bird to adorn her close-fitting hat of black straw. You will notice that, like the girl of today, Miss 1919 modestly hid her ears from view. Now we make the final jump and come—

Miss 1924

Right up to date! Here is the spring hat that a woman in Florida during the winter and will be seen in northern cities in April and May. Wintering in the South has tended a little to "rush the season," but even Miss 1924 wore an Easter hat of white silk.

Charge Made U. S. Board Being Used to Provide

Times Washington Bureau, 1222 New York Ave.

WASHINGTON, April 19.—Whether or not the United States Shipping Board, now operating under a million-dollar-a-week deficit, is being used as a political dumping ground to provide jobs for "the faithful" is a question that is puzzling the congressional investigating committee.

It was shown in testimony this week that Attorney John B. Meserve of Tulsa, Okla., having failed to get a \$7,500 Federal judgeship because of bitter political opposition in his State, was almost immediately placed on the Shipping Board's legal staff at a salary of \$9,000 a year.

Testifying before the investigating committee, Commissioner Edward C. Plummer admitted that C. F. Bascom Slomp, secretary to President Coolidge, had called him to the White House recently and urged the employment of Meserve as a Shipping Board lawyer. Upon recommendation of Attorney General Daugherty, Meserve was formally named.
