

# STATE MEDICAL BOARD AGAINST VOLUNTARY BODY

Dr. Gott Says Movement for National Exams Dupli-cates State Plan.

A statement of Dr. William T. Gott, Crawfordsville, secretary, State board of medical examiners, explaining why Indiana does not recognize the National board of medical examination, was made public today. The National board, a voluntary organization supported by the Rockefeller Foundation, today announced its examinations will be conducted Thursday, Friday and Saturday in thirty-three cities, including Indianapolis.

Twenty-eight States have accepted the National board's certificate. Any holder of the certificate of the board will be accepted by the board in these particular States.

Character High, but—

Dr. Gott said: "I am not unmindful of the high character, culture and standing of the distinguished physicians and surgeons composing the board, but the acceptance by a legally constituted medical examining board of a certificate of qualification issued by any voluntary board having no legal authority to exist, or act in such capacity, is, in my opinion, unwarranted, and unlawful and may, and probably will, lead to serious complications. "The board granting such certificates without the authorization of the law could not consistently enforce the law that it had itself disregarded. The voluntary medical examining board making the recommendation would have no responsibility in the premises and the State board would be made the 'goat.'"

Provision Already Made

The evident purpose of the board is to obviate necessity of re-examination whenever a physician wishes to practice in another State. "This condition," Gott says, "has been remedied by interstate reciprocity in medical licensure which now obtains in almost all States; hence there is no necessity on this ground for the existence of a voluntary examining board."

# POLICE NAB TAXI BANDITS SHORTLY AFTER HOLD-UP

Other Robberies Expected to Be Cleared Up by Capture, Officers Say.

Confession obtained from William Adams, 24, 5119 E. Twelfth St., and Ernest Shook, 29, 1138 S. Belmont Ave., today solved a taxi driver hold-up a few hours before their capture, and with their arrest, officers say hold-up and shooting of another taxi driver at Twenty-Ninth and Central Ave., last Wednesday as well as several other hold-ups are expected to be cleared up. A cigar box bearing the name of Telford Adams and his address left in the taxi cab after the men escaped lead to the capture.

Driver Tells Story

Claude Ulrich, 23, of 805 Fletcher Ave., a driver for the Diamond Taxi Company, said he was hired by the two men to drive them to De Quincy and E. Tenth Sts. At Riley and Tenth Sts., Adams pointed a gun through the glass compartment, ordered him to stop. Sheeks went through his pockets and took \$27 and a watch. Lieut. Schubert and Sergeants Allison and Johnson found the cigar box in the cab, wrapped in newspaper, the two young men were found in bed by the officers, who also say they found the watch, gun and money. The bandits admitted it, police say.

Pair Is Slated

They were slated at the city prison on charges of auto banditry and robbery. Police believe they are the two who held up and shot Vernon Carter, driver of a Yellow Cab, at Twenty-Ninth St. and Central Ave., last week.

# BANDITS ESCAPE NET

Upland Man, Shot by Masked Band, Expected to Die.

By United Press. MARION, Ind., June 15.—Though Grant County officials today continued their search for six masked bandits who held up stores in Jonesboro, Upland and Gas City Saturday night, all trace of them had apparently been lost.

The total loot obtained in the three towns was less than \$700.

# SCHORTEMEIER IS ON NEW JOB IN BRANCH'S OFFICE

Singleton Appointment Adds to Legal Tangle in Service Board.

Frederick E. Schortemeier, former secretary of the Republican State committee, and nominee for Secretary of State, assumed the duties of secretary to Governor Emmett F. Branch today. He succeeds Frank Singleton, Martinsville, whose appointment to the public service commission is to take effect July 1.

It is said the appointment of Singleton to the commission adds but another entangling factor to the Ratts-Smith controversy over legal title to the position.

Suit Is Pending

Oscar Ratts, Paoli, present incumbent, whose term expired May 1, has pending a suit against Auditor Robert Bracken to collect the salary he claims is due him for remaining on the commission since May 1.

He refused to turn the office over to Oscar Smith, Knox, whose appointment became effective one day after the appointing power invested in ex-Governor McGray expired. Ratts held the appointment illegal.

Whether or not the mandamus suit is declared in Ratts' favor, Ratts vacated the office July 1. Since Smith, it is said, was scared out of intervening in the mandamus action by Governor Branch, he will not be barred from filing a quo warranto proceeding against Singleton when the latter assumes office.

May Force Compromise

It is hinted Smith was holding off in view of forcing Branch to effect a compromise, since it is almost solely within his power to clear up the title to the position.

Officials are at a loss to understand why Branch appointed Singleton before the Ratts mandamus case was decided.

# 'SOCK TIME' IS LATEST IN DANCE

But Managers Want Police to Rule It Out.

R. Lucius Ormsby, proprietor of the Riverside Dance Palace at River-side Park, conferred with Police Chief Rickhoff today in an effort to get an edict against "sock time."

"Sock time" is a naughty umpity-tumtum in which trombones play the stellar role.

Ormsby said members of another dance orchestra visited his orchestra Sunday night. The leader of his own orchestra welcomed the visitors and permitted them to play. The visitors immediately launched into "sock time."

Result: A perfectly nice, orderly dance floor became a "riot." Dancers began swaying and otherwise breaking rules laid down by police.

In other words you can't dance nice and have "sock time," according to Ormsby.

Chief Rickhoff has not announced his decision.

# MEXICAN POLICE THROWN AROUND BRITISH LEGATION

Threaten to Arrest Consular Agent Government Refuses to Remove.

By United Press. MEXICO CITY, June 16.—The British legation here today remained in a state of seizure, surrounded by police and secret service agents, the food supply low and telephone wires cut.

Efforts were being made by Minister Bernudez of Chile to settle the difficult situation which has arisen as result of refusal of British foreign office to remove H. C. Cummins, its semi-official representative, at request of the Obregon government.

Bernudez will ask Foreign Minister Saez that Cummins be given forty-eight hours to leave the country "in a manner befitting his position."

The Obregon government, despite a note from Norman King, British consul general, demanding an explanation of the Cummins expulsion order, remains adamant. Minister Saez declared the government was affronted, and has asked King to understand there can be no reversal of its decision.

Cummins' withdrawal is desired because of a long series of actions which Mexico regards as hostile to the present regime. Officials say he has persistently forwarded erroneous and vilifying accounts of conditions in Mexico to his government and that he is responsible for delay in resumption of British-Mexican relations.

Cummins has been locked in the legation since June 10, but it was not until Saturday that secret police began preparations to arrest him.

# ENGLISH CENSURE OBREGON

# Craps Players Pay

By United Press. CHICAGO, June 16.—"Ten grand" was the amount obtained by robbers when they held up a craps game. They got \$5,000 in cash from the tables and \$5,000 more from the players' pockets.

The suspension is the result of failure of district officers to negotiate a wage scale agreement obtained in other districts.

# CHICAGO SLAYERS OUT-NEROED NERO, PASTOR ASSERTS

Says Modern Education May Not Be Worthy of Confidence.

By United Press. CHICAGO, June 16.—Nathan Leopold and Richard Loeb, millionaire youths, "out-neroed Nero" in their cold-blooded murder of Robert Franks, 14-year-old school boy, the Rev. Josiah Sibley, pastor of the Second Presbyterian Church, declared in his Sunday sermon.

"Here in Chicago, under the aegis of a splendid university, have two apparently brilliant boys out-neroed Nero in cold blood in the way in which they murdered an unsuspecting boy only to gain a few thousand dollars they did not need," Dr. Sibley said.

"Is this modern education producing such a thing? Shall education, like a Frankenstein monster, destroy the very people who have created it? Is education not worthy the confidence we place in it? Have we been educating our children only to make monsters of them?"

The Rev. John Thompson, pastor of the Chicago Temple (Methodist), blamed "craving for thrills" for the Franks murder.

"The craving for thrills is one of the most serious perils of modern young life," Dr. Thompson told his audience.

These two university graduates knew not the value of money. Their every want was met. They lost the stimulus and the character-building reaction that comes from struggle.

With a growing staff of alienists examining the two young slayers, chances for a bitter contest of scientific testimony are growing.

The defense is making every effort to establish that Leopold and Loeb are insane and that they were not responsible for the killing. The State, meanwhile, is preparing to prove them "both morally and legally sane" and will attempt to have the boys hanged for the crime.

The trial opens Aug. 4.

# POISON LIQUOR FATAL TO TWO

# HIGH SCHOOLS TO BE OVERCROWDED

(Continued From Page 1)

action was decided, the entire program was halted and the long period of delay resumed over the protests of Adolf Emhardt.

Immediately delegations swamped the board with protests, and The Indianapolis Times took up the battle for adequate high school facilities, just as it had for adequate grade schools previously.

Finally yielding to public opinion, the board decided to build the colored and white side high schools at exactly the locations it had repudiated.

# Architects Changed

But in the case of Shortridge a change of architects was made. The discharged firm, standing on its signed contract, brought suit, and once again Shortridge was the goat. Tied up in litigation for no one knows how long, Shortridge will remain indefinitely suffering from the curse of basement and cloak room classrooms, being forced to use the corridors outside the regular plan and trying to accommodate about twice as many pupils as should be cared for.

Some Shortridge advocates, embittered by long years of vain endeavor to obtain a new building, go so far as to charge the change in architects was a master piece of Fabian tactics intended to delay the building of the school and at the same time "pass the buck" to warring architects.

# Facilities for 2,500

The improvements at Manual Training, while they will not be completed by September will be far enough advanced to be usable. When finished there will be school facilities for 2,500 pupils.

Some relief will be obtained by erection of the colored high school, which will take about 900 pupils out of the other high schools, and the West Side high school, which will take out about 800.

But for another year, at least, high school conditions in Indianapolis are going to be even more overcrowded than ever before, with the sole exception of Manual Training.

# POLICE HUNT MAN WHOSE BRIDE OF WEEK WAS KILLED

Woman Finds Body of Near Camp.

By United Press. WITTENBERG, Wis., June 16.—Authorities today telegraphed police in every city in the State to hunt George Cummings, wanted in connection with slaying of his bride of a week, whose nude body was found in a shallow grave by farmers near a tourist camp here Sunday.

The Cummings were married at Grand Rapids, Mich., where Mrs. Cummings conducted a rooming house.

Police believe Cummings fled Sunday, taking with him the money his bride had obtained from the sale of her Grand Rapids house. The body was found by a farmer who helped Cummings get his automobile out of a ditch.

Mrs. Cummings had been killed by three blows on the head, apparently inflicted with a hatchet, police said. Sunday morning Cummings was seen about the car. He was alone. Campers declared they wondered what had become of the bride, but made no inquiries.

A farmer whose land adjoins the tourist camp encountered Cummings with his car in the ditch. Cummings, he said, appeared much excited and offered the farmer \$25 to pull him out of the ditch. This was done and Cummings drove to Wittenberg and after obtaining gasoline hurriedly departed.

# LA FOLLETTE MAY BE NOMINATED AT ST. PAUL SESSION

Convention May 'Turn Other Cheek' to Wisconsin Senator.

By LOWELL MELLETT. Times Staff Correspondent. ST. PAUL, Minn., June 16.—The convention which Senator La Follette turned down seems unlikely to return the compromise. It is a position is rather to turn the other cheek. Expressions from delegates arriving for the sessions which begin tomorrow indicate that little will transpire to which La Follette could object.

"The Communist party—attacked strongly by Senator Robert M. La Follette—was kicked out of the Farmer-Labor third party convention here today on the eve of its assembly.

Organizers of the convention served notice upon the Communist delegates that they could not enter the convention under the banner of their party.

All the Communists, however, as members of various trade unions, will be permitted to participate in the gathering if they present credentials from their unions.

# Lost First Fight

The Communists lost their first fight at a preliminary organization meeting Sunday night when they put forward the idea that a National third party must be launched now. The idea was voted down. Instead the majority present adhered to the notion that it is wiser to wait and see if La Follette is to become a candidate. If he is they are prepared to endorse him. If not they would have another candidate put into the presidential race. Either course could be carried out by an instructed executive committee to be appointed by the convention.

This course, in fact, appears to be favored by William Mahoney, secretary of the Minnesota Farmer-Labor party and chairman of the arrangements committee of the convention. Mahoney, as editor of the Minnesota Union Advocate, has assailed La Follette bitterly for his public refusal to have anything to do with a convention which allowed Communists to participate.

# Seems Ready to Help

His own expressed opinion is that so long as these Communists are working along "constitutional" lines no exception can be taken to them. Notwithstanding this, Mahoney seems ready to help put through a program that will eventually
