

## COURTS TO HEAR THREE SUITS IN G. O. P. MUDDLE

Chief Battle Centers Over  
Injunction to Halt Coffin  
Saturday.

Today was a legal field day for Indianapolis and Marion county Republican politics. Three court cases, two in the Supreme Court of Indiana and one in circuit court were down for hearing.

The chief battle centered in the injunction suit filed by Irving W. Lemaux, city chairman in circuit court to prevent George V. Coffin, county chairman, from carrying out the orders of the State committee that he preside at the city convention Saturday.

Hearing This Afternoon

The case was set for hearing before Judge Harry O. Chamberlain at 2 1/2 p. m. and Fred G. Gause, former member of the Indiana Supreme Court, was to represent the State committee, according to Clyde S. Walb, State chairman.

Should Lemaux fail in his injunction suit, it was predicted that a suit will be filed to prevent removal of the twenty-seven precinct committeemen favorable to the Shank-Jewett-Lemke faction who were "removed" by Coffin recently on the grounds of party disloyalty.

Control of the convention Saturday depends upon the fate of these twenty-seven, politicians said.

The Supreme Court heard an appeal on a demurrer of Fred S. Beck against Emanuel B. Wetter, which will decide the precinct committee membership of the Ninth precinct, Thirteenth ward. Beck is a Shank-Jewett-Lemke faction while Wetter has the backing of Coffin. The court was considering the appeal.

The other case was hearing on the writ of prohibition issued by the court last week to prevent enforcement of the injunction granted by Judge James M. Leathers, Superior Court, room 1, which would have prevented the majority members of the city council from interfering with the action of an alleged minority in electing Lloyd Claycomb president. The court continued this case to Feb. 3.

## Mineral Oil Users Try This!

The Scientific Triumph of Milk of Magnesia and Pure Mineral Oil Combined

Pure mineral oil is certainly the finest intestinal lubricant. But pure mineral oil alone cannot remove the deep-seated causes of intestinal poison and acid (sour) stomach.

Science has now discovered the ideal combination of lubricant and antacid—Milk of Magnesia and Pure Mineral Oil—Haley's M-O.

The sweet, soothing milk of magnesia in Haley's M-O effectively neutralizes and counteracts the acids that cause heartburn, gas, belching and black spots dancing before the eyes. It goes straight and deep to the lower bowel, eliminating the poison. Then the pure mineral oil helps Nature carry them off.

Get a bottle of Haley's M-O today and discover for yourself the extra values of this perfect emulsion. Pleasant to take; both young and old like it. Your druggist most likely has Haley's M-O. If he hasn't we will supply it by mail postpaid on receipt of price. Large family size, \$1.00. The Haley M-O Company, Indianapolis, Ind.

## SPONSORS SEEK SUBSTITUTE BILL

Present Parochial Measure  
Declared Worthless.

Sponsors of the bill which will seek to oust parochial schools by providing that children must attend schools provided for by general taxation, are seeking for a substitute bill which will be ruled constitutional, according to statements from representatives today.

It is pointed out such a measure was passed in Oregon and declared unconstitutional by the Oregon Supreme Court and the United States Court of Appeals.

Representative J. Glenn Harris, Lake County, declared he did not believe a bill in that form would pass the House. Harris also declared he would not introduce such a measure, but said he would aid in drafting a bill which would be constitutional, if it was the will of the House.

Such a proposed bill would provide for a uniform course of study or curriculum in all schools and make children attending schools not complying with the prescribed course of study guilty under the truancy law.

According to indications the religious education laws promise a warm fight in both branches of the Assembly.

SEYMOUR, Ind., Jan. 13.—Phillip Zoercher, member of the State tax board, in an address before the New Business Men's Association here Monday night, declared the only solution of equitable taxation would come with honest declaration of values and assessment of all intangible properties.

Zoercher stated that objection is made to the so-called arbitrary method of the board in increasing appraisals, yet he gave figures to prove that the board has lowered assessments which total more than increases made. He defended the board as a court of appeal, giving instances whereby taxpayers had been saved hundreds of thousands of dollars.

When questioned as to the reason for the recent order of the board for the assessment of real estate in 1925, he stated that the order was issued because 1926 will be a campaign year with many assessors seeking offices.
