'Marry Young,' Girl Slayer Tells Those Who Would Avoid Her Fate

DOROTHY ELLINGSON

By United Press.

Dorothy, tall, slender, red-haired and 16, is in jail charged with the cold-blooded murder of her mother, Anna Ellingson, quiet Swedish woman, who was bewildered by the wild whirl of life which her only daughter entered at the age of 12.

Her New Creed.

But today, remorseful, drawn and haggard, she talked thoughtfully of the things which had wrecked her life and gave out seven points of advice to other girls, as follows:

"Marry young."

"Obey your parents."

"I now have a little more time and I will prove my innocence to the entire world, just as soon as the man who accuses me of this terrible crime goes to trial.

"I had given up all hopes, in one way, but the cooperation I have received from my unknown friends, has given me more strength to keep up my courage to fight my battle for liberty.

"I have nothing to do here now, but read and smoke a cigarette now and then. The reading material is furnished by the jail, but we can receive all the mail we get and answer as many letters as we want, so I would be glad to hear from you again."

INSURANCE SALES SET NEW RECORD

New Thrift Mark Reported to U. S. Department.

By Times Special.

NEW YORK, Jan. 16.—Despite the charge of extravagance brought against them, the American people broke some more thrifty records in 1924, by buying \$13,514,000,000 worth of life insurance, an increase of 8.3 per cent over 1923, the former peak year.

The predictions of the Association of Life Insurance Presidents that 1924 would be a banner year for the crop of new insurance policies are borne out by the figures submitted Thursday to the United States Department of Commerce.

In establishing the new thrifty record for 1924, the American people bought nearly four times as much life insurance as they did ten years ago. Although the population of the country increased during that time only one-sixth, the report says.

Forty-five life insurance companies representing 81 per cent of the total legal reserve life insurance in the United States, contributed the data on which the report is based.
