LETTER FROM ZOE ELLINGTON
TO ELIZABETH SWARTZ IN
GENEVA, SWITZERLAND

My Dear Elizabeth: I know it may seem strange to you that I have not written since I came to America, but this is such a vast country where people are scattered up always with such surprising things. They go from one to another pursuit so rapidly that it does seem as though I have just arrived a day or two ago instead of being here months and months.

Americans are most peculiar—the women especially. I am sure, dear Elizabeth, that your father would say that this whole country is ruled by women.

Now I am writing as though I were not an American. I was only four years old when I came over to live in the school in Geneva and made the acquaintance of you and your dear family and I have become so impregnated with old-world ideas and methods that I do not seem even to myself a native of this country.

Do not misunderstand me, for I think my native land the most beautiful place to live in all the world. It certainly is the best on the earth for women. They not only seem to be queen of their own household, but they have a finger in politics and business as well. The only criticism I have to make is that men are so engrossed in business and that both men and women are engaged in so many other things that they do not take time to understand those that are nearest and dearest to them.

The former wife of my brother received me with open arms. She wanted me to be one of her family. Of course I could not accept this and so she arranged a place for me immediately with a friend of hers, a Mrs. John Alden Prescott, as governess and nurse to her little boy, who is hardly more than a baby now.

Guess the reason some people think me to be a foreigner is because they don't realize the real meaning of the marriage ceremony, they just say the words.

DEBEGRETFUL.

Martha Lee Says

Husbands and Wives Mold Own Happiness

All life is what we make it. Marriage, like everything else, succeeds or fails, according to the efforts of the persons who have taken the marital vows.

This idea is brought out by "Mrs. V. M. W." writing in the discussion over the present institution of marriage.

Mrs. V. M. W. also says: "If a person would think twice before he jumps, there wouldn't be so many divorces."

Letters continue to come in defending marriage in strong terms. Only a few believe the institution of marriage has failed. These letters, in most instances, are from persons embittered as a result of unsuccessful marriages.

In one instance, a man whose marriage ended in a divorce court defends marriage and takes the blame for his unhappy matrimonial experience upon himself.

Here are a few more letters received in this discussion:

Up to Individual

Dear Miss Lee: Marriage is just what a couple of people have to pull together, work together and save, to prosper in married life. If a person married twice, I think there would not be so many divorces.

Anytime he does not set his head to keep it from being one. More people should be successful in marriage.

When I got married I thought I couldn't stand it. I was a dandy and my wife a baby girl now and a fine husband, and I am happy as can be. —MRS. V. M. W.

He Takes Blame

Dear Martha Lee: My wife divorced me two years ago, but I do not think marriage is a failure. I blame myself, not my wife. I married her, a person I knew two years ago, and I jumped. There could not be so many divorces.

Anytime he does not set his head to keep it from being one. More people should be successful in marriage.

One Agrees

Dear Miss Lee: I think marriage is a failure. I tried it twice and both times I failed. I don't know what I did wrong. I did my best to make my husband happy, but they never seemed to appreciate what I did.

I think something ought to be done to change things, so there wouldn't be so many divorces.

GEOGRIA.

This place is very satisfactory, as Mrs. Prescott has some ideas which coincide with mine on the bringing up of children. She wants them to begin immediately to learn something of their souls and spirits as well as the care of their bodies.

Although Mrs. Burke, who was my brother's wife, is immensely wealthy and before she married Mr. Burke and I, and Mrs. Prescott ran a shop in Albany, where they sell underclothes too beautiful to wear. I am sure your dear mother would be shocked at them. She would say that no one but demimondaines would possibly wear such gorgeous silks and laces and she would consider that Mrs. Burke and Mrs. Prescott were contaminating themselves by contact with such people even in trade. Both Mrs. Burke and Mrs. Prescott, however, wear these things themselves.

I have seen lingerie handed over to a laundress that is almost worth a bride's dowry in Switzerland, that are worn without a thought of their cost.

Even the little shop-girls wear the sheerest of silk stockings and the most beautiful shoes. I always think when I see them, of our peasants with their wooden sabot.

Little Jack is walking. I'll finish this letter tomorrow, dear.
