

## SIX CANDIDATES FOR CABINET JOB

Coolidge Narrows Field for  
Agriculture Post.

By United Press

WASHINGTON, Jan. 23.—President Coolidge has narrowed the field of candidates for secretary of agriculture to half a dozen.

Those now receiving consideration include former Governor Carey, Wyoming; Thomas J. Campbell, Montana; Ralph P. Merritt, California; John J. Fields, Oklahoma; Louis J. Tabor, Ohio, and Willis J. Bailey, Kansas.

The President is taking unusual care because he has decided to change the policy of the department. Previously, the department laid most stress on the production end of farming, but now the President believes particular attention should be paid to marketing and distributing.

## G. O. P. CASE UP AGAIN SATURDAY

Final Hearing on Restraining  
Order Set.

Final hearing on the restraining order issued by Judge Sidney S. Miller, Superior Court Three, to prevent removal of twenty-six Republican precinct committeemen by George V. Coffin, county chairman, will be held Saturday at 9:30 a. m.

The order was issued before the Republican city convention last Saturday. Coffin "removed" the men, adherents of the Shank-Jewett-Lemcke faction, for alleged party disloyalty, following the November election.

Judge Clinton H. Givan, Superior Court Four, sitting as judge of Room 3 in Miller's absence, dissolved the injunction Saturday at 12:45 p. m. On hearing of this Miller summoned all lawyers in the case before him Monday and brandished action of Coffin's attorneys, Arthur R. Robinson, Frank A. Symmes and Garth B. Nelson, as a subterfuge to evade his jurisdiction.

The twenty-six committeemen were denied admission to the city convention. It is believed the case eventually will find its way to the Indiana Supreme Court.

## PROSPECTS GOOD IN BUILDING FIELD

Figures for 1924 Under  
Those of 1923.

Building contracts awarded in Indiana last year reached a total of \$80,710,000, according to P. W. Dodge Corporation, of New York. Although this was 25 per cent under the 1923 figure, it left a considerable demand unmet, an indication of good volume in 1925.

Last year's record included: \$31,979,800, or 35 per cent of all construction, for residential buildings; \$21,622,000, or 24 per cent, for public works and utilities; \$11,408,800, or 12 per cent for commercial buildings; \$8,915,700, or 10 per cent, for educational buildings, and \$5,557,100, or 6 per cent, for industrial buildings.

Indiana's December contracts amounted to \$4,397,800. Although this was a 5 per cent increase over November, it was 22 per cent under the figure for December, 1923.

## SHORTRIDGE RULED BY HONOR SYSTEM

Cooperation and Participation Is Keynote at High School,  
Principal Explains.

Special meetings, new regulations and other school news.

"Cooperation and participation is the keynote to the solution of problems of student conduct at Shortridge," said George Buck, principal. "We don't have any formal organizations of student government. We try to get the students to participate in some form of high school activities and keep them interested. We trust them to act like young men and women and they very seldom fall us."

As an example Buck pointed out that at Shortridge High School there are no monitors in the halls to see that students conduct themselves properly.

### Have Motto

"Leadership, character, service, and scholarship, the motto of the National Honor Society, of which Shortridge is a member, is kept before the students," Buck said.

Big Sisters Club sees to it that all new students are shown through the buildings and made acquainted with the system so they won't get "lost." The Daily Echo, one of the few daily high school newspapers in the country, is used to develop the spirit of cooperation, Buck said. The paper carries announcements of special meetings, new regulations and other school news.

### Cooperation Committee

A committee on student cooperation, consisting of ten teachers and the four officers of the junior and senior classes, confer on school problems. One of these is the restoration of lost articles to their owners.

"Matters of serious discipline are handled by myself and assistant principals," said Buck.

The boosters' department of the Blue Triangle Club aids in developing the participation spirit by holding bake sales, candy sales and selling "mops" at athletic contests, proceeds going into a fund to entertain debaters and athletes and others whose service brings credit to the school.
