

SECRECY GRIPS NEXT STRATEGY FOR STEPHENSON

Defense Council Confers All
Day—Decision Is Not
Announced.

Shrouded in an atmosphere of deep mystery the next move of the defense in the case of D. C. Stephenson, Earl Kilick and Earl Gentry, in jail at Noblesville on charges of murdering Miss Madge Oberholzer, remained a secret of defense attorneys today. After an all-day conference Tuesday, Eph Inman, chief defense counsel, said that he had nothing to give out, and that in all probability no action would be taken today.

Still in Jail

Meantime the former dragon of the Indiana Ku-Klux Klan and his two aids remained in jail, with every prospect of continuing their sojourn there until October at the earliest.

William H. Remy, Marion County prosecutor, secure in his position following his decisive victory Monday when Judge Fred E. Hines of Hamilton Circuit Court ruled that the State had the right to name the order of trial of the defendants and then adjourned court until October, although not planning any movements of his own, was prepared at any time to defend his advantageous position won in the past two weeks.

Habeas Corpus?

Inman refused to comment on the possible course of action open to the defense. Among Indianapolis lawyers, it was considered probable that habeas corpus proceedings might be resorted to in an effort to get the defendants out of jail pending re-opening of court.

TWENTY-FOUR LESSONS IN PIANO PLAYING—TWELFTH LESSON: G SHARP MINOR

SECOND SERIES

Copyright, 1920, by W. Scott Grove, Scranton, Pa.

Lesson No. 12.

The key of G Sharp Minor is the relative of the key of B Major and is somewhat more difficult than the lesson previously presented but can be mastered

with patience and practice. From this chord you may form accompaniments to melodies in the key of G Sharp Minor.

upper row play the white letter with the left hand and play the three black letters with the right hand, making the first chord. Then, in the same way, play the note indicated in the second horizontal series, then those in the third and back to the first, forming a complement of chords in the key of G Sharp Minor.

If you will play this chord over and over until you know it perfectly, remembering the letters as well as the keys, you should have no difficulty in playing simple accompaniments to songs sung in the key of G Sharp Minor. Patience and practice combined will bring wonderful results in any endeavor and these two qualities are the firm foundation in the mastery of a musical education.

Every teacher and advanced scholar in music knows, or should know, that modulation cannot be understood without a thorough knowledge of chords—their inversions and triads, with their positions. Every triad in black letter is marked 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

urban Cars Stop.

Possibility of asking the public service commission for a ruling as to whether interurban cars can be required to stop at all main public roads was considered today at a safety conference of county officials.

The meeting was caused by the increasing number of accidents at interurban crossings.

"It's not the fault of the interurbans," said John Kitley, county commissioner. "The fault is with careless drivers."

DISCRIMINATION CHARGE DENIED

Gravel Men Won't Meet Spec-
ifications, Said.

In reply to charge of Marion County gravel pit owners that the county is discriminating against them in favor of crushed stone interests in specifications for roads to be paved, County Surveyor George Schmidt today stated that all specifications allow either gravel or stone to be used.

"The trouble with local gravel men is that they won't meet the specifications," he said. "They can if they will, but they won't. They are shipping gravel such as we demand to Illinois, but say they can't get that grade out for home use."

"The claim of the local gravel producers as set out in the recent hearings before the State tax board—that Marion County specifications for concrete result in much higher cost of pavement than is justified, is an error," Schmidt said.

"The cost of gravel in pavement is 36 cents a square yard, while crushed stone is 37.5 cents.

Hard to believe

MAYBE you won't believe what we're going to tell you right now. If you don't, we invite you to make this test for yourself:

Rub a bit of fresh onion on your hand. Then douse on some Listerine. The onion odor immediately disappears.

That's the kind of a deodorant you have in Listerine, the safe antiseptic.

And that's why so many men and women are now using Listerine as a perspiration deodorant. Just apply Listerine clear when you don't have time for a tub or shower. Note how clean and refreshed it leaves you feeling.

Also, it is non-irritating and will not stain garments.

We pass this along to you as another important use for Listerine we thought you'd like to know about.—Lambert Pharmaceutical Co., St. Louis, U. S. A.

Please remember—Listerine is never sold in bulk. Always in the original brown package—14 oz., 7 oz., 3 oz., and 1 1/2 oz.

Listerine Throat Tablets are now available. Please do not make the mistake of expecting them to correct bad breath. Rely on the liquid Listerine. Containing all of the antiseptic essential oils of Listerine, however, they are very valuable as a relief for throat irritations.—25 cents.
