

RIVALRY GROWS IN KITTEN BALL PLAY BY BOYS

Medal Offer by Times Fans
Competition in
Leagues.

As the teams in the Boys' Kitten Ball League begin to separate themselves into championship and cellar positions in the leagues which are established in all parts of the city, a spirit of intense rivalry has arisen. The flames of competition have been fanned by the offer of The Indianapolis Times to award medals to all players on the city championship team, according to Edward E. McBride, recreation director.

TAKE SPECIAL TRAINING

Indiana Reserve Officers to Leave
for Artillery School.

A special car will carry twelve Indiana Reserve Officers to the annual training school of the 525th Anti-Aircraft Artillery area to be held at Fort Monroe, Virginia, from July 17 to 31, according to Lawrence V. Sheridan, engineer of the city park board, who will be among those in the party. The train will leave today.

BOYS' CLUB BOARD DINNER
The annual camp dinner of the Boys' Club Association board of directors will be held Tuesday at the Boys' Club camp near Noblesville, Ind. About fifty-five boys are at the camp.

TOO FEW STAMPS PLACED ON CARDS

Postoffice Worker Inspects Mail to Find Contraband
Matter—New Law Holds Up Messages.

"Algie is gone. He left Wednesday night. I will tell you all about it if you come over the Fourth (Caroline)."

But alas, poor Algie! His fate never became known to the interested party. Caroline forgot the new postage rate increase and placed only a 1-cent stamp on the picture card carrying the message. Hundreds of such cards are in the Indianapolis postoffice according to Postmaster Robert H. Bryson. They are held for sufficient postage and if this is not provided, they are destroyed.

Police chiefs recently attending the international convention at Indianapolis, will be back home again before newspapers they sent to the folks arrive.

An ordinary newspaper is usually heavy enough to require about 6 cents postage if mailed by an individual other than a publisher, Bryson said. Seventy-five per cent of the newspapers mailed by persons are destroyed. If postage can be obtained from the sender or the addressee they reach their destination. The task of seeing that mail mat-

ter has sufficient postage comes under the supervision of Arza E. Cox, "outside man" at the Indianapolis postoffice.

Cox also must detect contraband mail matter which cannot be mailed lawfully. Besides this he runs down complaints and does field work visiting persons who have trouble with the mails. His duties combine those of a detective, narcotic agent, prohibition agent and revenue agent.

It is said of Cox that he has a wonderful capacity for detecting liquor in the mail.

"Whisky has a peculiar sound, inside a package," he said. "It is different from any kind of medicine or water or any other liquor. We used to have lots of it come through but it is getting very scarce now. Most of it is mailed from soap towns to friends inland."

Alligators, grasshoppers, chickens, queen bees, night crawlers and birds are some of the animals people try to mail, Cox said. Only day-old chicks and queen bees can be mailed

according to regulations, but occasionally something else gets through, Cox said.

Recently a box of grasshoppers was sent to a man near Rochester, Ind., evidently as fishing bait. Among other contraband matter are fireworks, or any explosives, intoxicating liquor, narcotics, alligators and old chickens.

Recently a suit case arrived at the postoffice, properly mailed, correctly addressed and wrapped. The addressee refused to accept it. The sender when notified, refused to send postage for its return. The suit case was found to contain men's clothing.

In such cases, Cox said, the package goes to the dead letter office at Cincinnati, Ohio, where it is kept twelve months, the sender is again notified and if postage cannot be obtained, it is sold at public auction.

Acid Stomach

"Phillips Milk of Magnesia"
Better than Soda

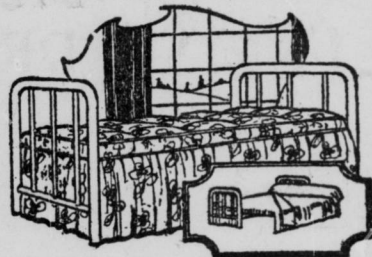

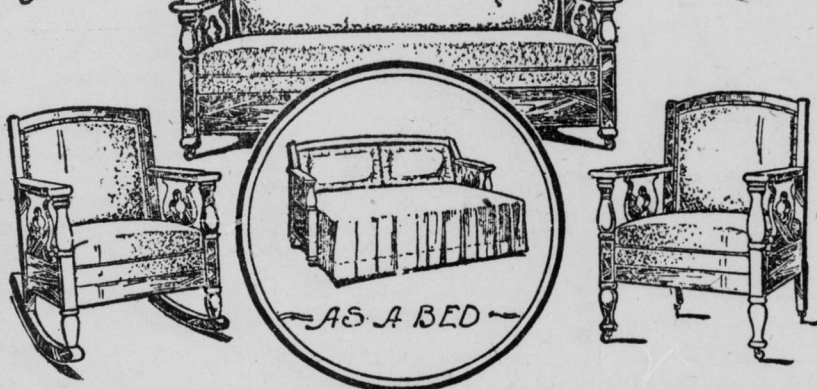

Hereafter, instead of soda take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent bottles, any drug store.—Advertisement.
